

Healthy Lifestyle Program

Free Hearing Services

With Australian Hearing Sydney

Australian Hearing will conduct an educational talk and FREE hearing tests for pensioners and veterans in the Woollahra area. If you have any concerns about hearing loss then come along to this informative talk which will provide you with important information about hearing loss management.

Statistics show that people generally wait six to ten years before taking action about their hearing loss. Yet when a person decides to do something about their hearing loss the benefits are significant. Information will cover hearing aids, other assistive technology and telephone use and other handy hints.

- Date:** Thursday 16 February 2012
