Dictionary

Part 1 Preliminary

Direction. In this standard instrument, provisions are identified as “compulsory” (including in certain cases only) or “optional” by those words being placed in brackets in connection with the clause or other discrete provision or provisions concerned. If an optional provision is adopted, it is to be adopted in the form (and in accordance with the directions) set out in this instrument. If an optional provision is not adopted, the number or other identifier of the provision is to be set out in the Plan with the words “Not adopted” or words to the same effect. If a compulsory provision is not applicable (because of the circumstances referred to in the heading to the provision), the number or other identifier of the provision is to be set out in the Plan with the words “Not applicable” or words to the same effect.

Any additional provisions (not inconsistent with the mandatory provisions) included in the Plan are generally to be included at the end of the Part, clause, subclause etc. and are to be numbered in accordance with the usual protocol applicable to amendments made to existing Acts and statutory instruments.

1.1 Name of Plan [compulsory]

This Plan is **Woollahra** Local Environmental Plan **2013**.

1.1AA Commencement [compulsory]

This Plan commences on the day on which it is published on the NSW legislation website.

Direction. If required another date may be specified for commencement.

1.2 Aims of Plan [compulsory]

(1) This Plan aims to make local environmental planning provisions for land in **Woollahra** in accordance with the relevant standard environmental planning instrument under section 33A of the Act.

(2) The particular aims of this Plan are as follows:

- (a) to ensure that growth within the area of **Woollahra** occurs in a planned and co-ordinated manner,
- (b) to promote the management, development, conservation and economic use of property within the area of **Woollahra**,
- (c) to provide for an appropriate balance and distribution of land for commercial, retail, residential and tourist development and for recreation, entertainment and community facilities,
- (d) to provide greater population densities in and around centres that are well serviced by public transport,
- (e) to facilitate opportunities for diversity in dwelling density and type in locations suitable throughout the area of **Woollahra**,
- (f) to conserve the built and natural environmental heritage of **Woollahra**,
- (g) to protect the amenity and natural environment of the area of **Woollahra**,
- (h) to protect and promote public access to and along the foreshores,
- (i) to promote a high standard of design in the private and public domain,
- (j) to ensure development achieves the desired future character of the neighbourhood,
- (k) to promote ecologically sustainable development.

1.3 Land to which Plan applies [compulsory]

This Plan applies to the land identified on the Land Application Map.

Direction. The Land Application Map may be a separate map or be constituted by the outer boundary of the Land Zoning Map (by an annotation on that Map).
The Plan should wherever practicable apply to the whole of the local government area.

1.4 Definitions [compulsory]

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes [compulsory]

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority [compulsory]

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

Direction. If required another person or body may be specified as the consent authority for all or any particular kind of development.

1.7 Maps [compulsory]

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:

- (a) approved by the Minister when the map is adopted, and
- (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Direction. In order to effect a future rezoning of land subject to the Plan (or other change to a provision having effect by virtue of an adopted map), the amending local environmental plan (or other planning instrument) would not directly amend the Plan but merely declare that the relevant adopted map is amended by a named amending map.

Note. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Infrastructure.

1.8 Repeal of other local planning instruments applying to land [compulsory]

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note. [compulsory if any local environmental plan is wholly repealed] The following local environmental plans are repealed under this provision:

Woollahra Local Environmental Plan 1995

Woollahra Local Environmental Plan No. 27

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

Direction. Provision may also be included to repeal or amend specific instruments to reflect the operation of this clause.

1.8A Savings provision relating to development applications [Model local provision]

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had been exhibited but had not commenced.

1.9 Application of SEPPs [compulsory]

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.

- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

State Environmental Planning Policy No 1—Development Standards

State Environmental Planning Policy No 4—Development Without Consent and Miscellaneous Exempt and Complying Development (clause 6 and Parts 3 and 4)

State Environmental Planning Policy No 60—Exempt and Complying Development

Direction. Additional instruments (or provisions of instruments) may be added if the relevant instrument or provision is covered by this Plan.

1.9A Suspension of covenants, agreements and instruments [Model local provision]

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a development consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

- (2) This clause does not apply:

- (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
- (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
- (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
- (d) to any trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or

- (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones [compulsory]

The land use zones under this Plan are as follows:

Residential Zones

R2 Low Density Residential

R3 Medium Density Residential

Business Zones

B1 Neighbourhood Centre

B2 Local Centre

B4 Mixed Use

Special Purpose Zones

SP2 Infrastructure

SP3 Tourist

Recreation Zones

RE1 Public Recreation

RE2 Private Recreation

Environment Protection Zones

E1 National Parks and Nature Reserves

E2 Environmental Conservation

Direction 1. [Additional zones or subzones are not to be prescribed.](#)

Direction 2. [If the land to which the Plan applies does not include any of the above zones, the reference to the zone in this clause and the provisions relating to it in the Land Use Table in clause 2.3 may, but need not, be included.](#)

2.2 Zoning of land to which Plan applies [compulsory]

For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table [compulsory]

- (1) The Land Use Table at the end of this Part specifies for each zone:
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part:
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and

- (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes.

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land [compulsory]

- (1) Development may be carried out on unzoned land only with development consent.
- (2) Before granting consent, the consent authority:
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land [compulsory]

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

Direction 1. While this clause and Schedule 1 are compulsory, it is not compulsory to include any items in the Schedule when the Plan is first made.

Direction 2. A type of development may be included in Schedule 1 only if it is a type of development listed in Direction 5 at the beginning of the Land Use Table.

2.6 Subdivision—consent requirements [compulsory]

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes.

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act

- enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

Note. The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent [compulsory]

The demolition of a building or work may be carried out only with development consent.

Note. If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#), as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land [optional]

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
- (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

Direction. [Other specific exceptions to subclause \(2\) may be added.](#)

Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)

State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004

State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007

State Environmental Planning Policy (Rural Lands) 2008

State Environmental Planning Policy No 33—Hazardous and Offensive Development

State Environmental Planning Policy No 50—Canal Estate Development

State Environmental Planning Policy No 62—Sustainable Aquaculture

State Environmental Planning Policy No 64—Advertising and Signage

Direction 1. Additional objectives may be included in a zone at the end of the listed objectives to reflect particular local objectives of development, but only if they are consistent with the core objectives for development in the zone as set out in the Land Use Table.

Direction 2. Specified uses may be added to (but not removed from) the list of development that is permitted or prohibited in a zone. Additional uses may be added to an item of a zone even if some uses are already specified in that item. Additional permitted uses for particular land (but not all land in a particular zone) may be set out in Schedule 1.

Direction 3. Items 2, 3 and 4 of each zone require a relevant entry to be inserted. The following may be entered:

(a) particular uses,

(b) the word “Nil”,

(c) the words “Any development not specified in item [*specify item number or numbers*]”,

so long as all residual (i.e. non-specified) uses are covered.

Direction 4. Respite day care centres must be permitted wherever a child care centre is permitted in the Land Use Table.

3 Permitted with consent

Boarding houses; Building identification sign, Business identification sign, Car parks, Child care centres; Commercial premises; Community facilities; Dwelling houses, Educational establishments; Entertainment facilities; Environmental facilities, Environmental protection works, Function centres; Home-based child care, Home business, Home occupation, Home occupation (sex services), Information and education facilities; Light industries, Medical centres; Passenger transport facilities; Places of public worship, Recreation areas, Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Seniors housing; Service stations, Sex Services premises, Shop top housing, Tourist and visitor accommodation, Vehicle repair station, Veterinary Hospitals

4 Prohibited

Any development not specified in item 2 or 3

Zone SP2 Infrastructure

Direction. The following must be included as either "Permitted without consent" or "Permitted with consent" for this zone:
Roads

1 Objectives of zone

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Roads

3 Permitted with consent

The purpose shown on the Land Zoning Map, including any development that is ordinarily incidental or ancillary to development for that purpose

Community facilities; Environmental protection works; Recreation areas

4 Prohibited

Any development not specified in item 2 or 3

Zone SP3 Tourist

Direction. The following must be included as either "Permitted without consent" or "Permitted with consent" for this zone:
Roads

1 Objectives of zone

- To provide for a variety of tourist-oriented development and related uses.
- To provide for development of a scale and type compatible with the amenity of the surrounding residential area.
- To maintain public access along the foreshore.
- To ensure that development achieves the desired future character of the neighbourhood.

2 Permitted without consent

3 Permitted with consent

Building identification sign, Business identification sign; Car parks; Dwelling houses; Environmental facilities; Environmental protection works; Food and drink premises; Function centres; Home occupations; Information and education facilities; Kiosks; Tourist and visitor accommodation

4 Prohibited

Any development not specified in item 2 or 3

Zone RE1 Public Recreation

Direction. The following must be included as either "Permitted without consent" or "Permitted with consent" for this zone:
Environmental facilities
Environmental protection works
Roads

1 Objectives of zone

- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Environmental facilities, Environmental protection works

3 Permitted with consent

Child care centres, Community facilities, Information and education facilities; Kiosks; Recreation areas; Recreation facility (indoor); Recreation facility (outdoor); Registered clubs, Restaurants or cafés; Roads; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2 Private Recreation

Direction. The following must be included as either "Permitted without consent" or "Permitted with consent" for this zone:

Environmental facilities

Environmental protection works

Roads

1 Objectives of zone

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

3 Permitted with consent

Child care centres; Community facilities; Environmental facilities; Environmental protection works; Information and education facilities; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered club; Roads;

4 Prohibited

Any development not specified in item 2 or 3

Zone E1 National Parks and Nature Reserves

1 Objectives of zone

- To enable the management and appropriate use of land that is reserved under the *National Parks and Wildlife Act 1974* or that is acquired under Part 11 of that Act.
- To enable uses authorised under the *National Parks and Wildlife Act 1974*.
- To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the *National Parks and Wildlife Act 1974*

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Zone E2 Environmental Conservation

Direction. The following must be included as either “Permitted without consent” or “Permitted with consent” for this zone:
Environmental protection works

1 Objectives of zone

- To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.
- To prevent development that could destroy, damage or otherwise have an adverse effect on those values.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Environmental facilities

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development [compulsory]

Note. Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
 - (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
 - (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).
- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
 - (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
 - (3) To be exempt development, the development:
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
 - (e) (Repealed)
 - (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:
 - (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
 - (5) To be exempt development, the development must:
 - (a) be installed in accordance with the manufacturer's specifications, if applicable, and
 - (b) not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.
- Note. A permit for the removal or pruning of a tree or other vegetation may be granted under this Plan. A development consent for the removal of native vegetation may be granted where relevant under the *Native Vegetation Act 2003*.
- (6) A heading to an item in Schedule 2 is taken to be part of that Schedule.

3.2 Complying development [compulsory]

Note.

Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

The section states that development cannot be complying development if:

- (a) it is on land that is critical habitat of an endangered species, population or ecological community (identified under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994), or
- (b) it is on land within a wilderness area (identified under the Wilderness Act 1987), or
- (c) the development is designated development, or
- (d) the development is on land that comprises, or on which there is, an item of environmental heritage (that is listed on the State Heritage Register or in Schedule 5 to this Plan or that is subject to an interim heritage order under the Heritage Act 1977), or
- (e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment, Climate Change and Water in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the Threatened Species Conservation Act 1995)), or
- (f) the development is on land identified as an environmentally sensitive area.

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:

- (a) the development standards specified in relation to that development, and
 - (b) the requirements of this Part,
- is complying development.

Note.

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must:

- (a) be permissible, with development consent, in the zone in which it is carried out, and
- (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
- (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is taken to be part of that Schedule.

3.3 Environmentally sensitive areas excluded [compulsory]

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause:

environmentally sensitive area for exempt or complying development means any of the following:

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land to which *State Environmental Planning Policy No 14—Coastal Wetlands* or *State Environmental Planning Policy No 26—Littoral Rainforests* applies,
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land identified as being critical habitat under the *Threatened Species Conservation Act 1995* or Part 7A of the *Fisheries Management Act 1994*.

Direction. [Additional areas may be added to this list.](#)

Part 4 Principal development standards

4.1 Minimum subdivision lot size [optional]

- (1) The objectives of this clause are as follows:
 - (a) To establish a minimum subdivision lot size that is consistent with the desired future character of the neighbourhood,
 - (b) To ensure that lot sizes support development envisaged under this Plan,
 - (c) To ensure that lots have a minimum size to retain or enhance amenity by providing useable areas for building and landscaping,
 - (d) To identify locations suitable for increased development density,
 - (e) To ensure that development complies with the desired future character of the area.
- (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (3A) The area of an access handle and any right of carriageway is not to be included in calculating the lot size.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

4.1AA Minimum subdivision lot size for community title schemes [optional if clause 4.1 is adopted]

- (1) The objectives of this clause are as follows:
 - (a) To ensure that community title schemes comply with Council's minimum lot sizes,
 - (b) To establish a minimum subdivision lot size for community title subdivision that is consistent with the desired future character of the neighbourhood.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the *Community Land Development Act 1989* of land in any of the following zones:
 - (a) R2 Low Density Residential
 - (b) R3 Medium Density Residential
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the *Community Land Development Act 1989*) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan.

Direction. An exception to the minimum size shown on the Lot Size Map may be provided in certain circumstances, for example, in the case of land that is to be used for attached dwellings.

4.1B Minimum lot sizes for a dual occupancy, multi dwelling housing and residential flat building [Amended Model Local provision]

- (1) The objectives of this clause are as follows:
- (a) To establish minimum lot sizes that support development envisaged under this plan,
 - (b) To ensure that lots have a minimum size to retain or enhance amenity by providing useable areas for building and landscaping,
 - (c) To ensure lot sizes are consistent with the desired future character of the neighbourhood.
- (2) Development consent may be granted to development on a lot in a zone shown in Column 2 of the Table to this clause for a purpose shown in Column 1 of the Table opposite that zone, if the area of the lot is equal to or greater than the area specified for that purpose and shown in Column 3 of the Table:

Column 1	Column 2	Column 3
dual occupancy (attached)	R2 Low Density Residential	460m ²
dual occupancy (attached)	R3 Medium Density Residential	460m ²
dual occupancy (detached)	R2 Low Density Residential	930m ²
dual occupancy (detached)	R3 Medium Density Residential	460m ²
multi dwelling housing	R3 Medium Density Residential	700m ²
residential flat building	R3 Medium Density Residential	700m ²

- (3) Despite subclause 2, the minimum lot size for a dual occupancy (attached) in Zone R2 Low Density Residential shall be equal to or greater than the area shown on the Lot Size Map where that area exceeds 460m².
- (4) Despite subclause 2, the minimum lot size for development other than a dwelling house on a battle axe lot in Zone R3 Medium Density Residential is 950m².
- (5) The area of an access handle and any right of carriageway is not to be included in calculating the lot size.

4.1BB Erection of dwelling houses on land in residential zones [Local provision]

- (1) Despite any other provision of this Plan, development consent may be granted for the erection of a dwelling house on residential zoned land where the lot was created before this Plan commenced and on which the erection of a dwelling house was permissible immediately before that commencement.

4.1C Minimum lot sizes for semi-detached dwellings and attached dwellings in Zone R2 Low Density Residential [local provision]

- (1) The objective of this clause is to provide housing diversity while maintaining a subdivision pattern consistent with the desired future character of the area.
- (2) This clause applies to development on land in Zone R2 Low Density Residential.
- (3) Development consent may be granted for the purposes of a semi-detached dwelling or attached dwelling if the area of each lot is at least the area shown on the Lot Size Map.
- (4) Despite any other provision of this clause, development consent may be granted for:
 - (i) a semi-detached dwelling—if there is a lawfully erected semi-detached dwelling on the land and the development is intended only to alter, add or replace the existing semi-detached dwelling house, or
 - (ii) an attached dwelling—if there is a lawfully erected attached dwelling on the land and the development is intended onto to alter, add or replace the existing attached dwelling.

4.1D Exceptions to minimum lot sizes for certain residential development [Amended Model Local provision]

- (1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.
- (2) This clause applies to development on land in Zone R3 Medium Density Residential.
- (3) Development consent may be granted to a single development application for development to which this clause applies that is both of the following:
 - (a) subdivision of land into 3 or more lots,
 - (b) the erection of an attached dwelling, a semi-detached dwelling or a dwelling house on each lot resulting from the subdivision, if the size of each lot is equal to or greater than:
 - (i) for the erection of an attached dwelling – 230m²
 - (ii) for the erection of a semi-detached dwelling – 230m²
 - (iii) for the erection of a dwelling house – 230m².

4.3 Height of buildings [optional]

- (1) The objectives of this clause are as follows:
 - (a) To establish building heights that are consistent with the desired future character of the neighbourhood;
 - (b) To establish a transition in scale between zones to protect local amenity,
 - (c) To minimise the loss of solar access to existing buildings and open space
 - (d) To minimise the impacts of new development on adjoining or nearby properties from disruption of views, loss of privacy, overshadowing or visual intrusion.

- (e) To protect the amenity of the public domain by providing public views of the harbour and surrounding areas.

- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

Direction. Different heights may be shown on the map for different zones or for different land in the same zone. This Plan may also provide for specified height restrictions to be varied or modified in certain circumstances, for example, to prevent overshadowing of public open space, for air safety reasons for the purposes of promoting design excellence.

- (3) Despite subclause 2 and clause 4.3A, the maximum height of a dwelling house, dual occupancy or a semi-detached dwelling on land in Zone R3 Medium Density Residential 9.5 metres.
- (4) Despite subclause 2 and clause 4.3A, the height shown for land on the Height of Buildings Map does not apply to a battle-axe lot which is accessed via an access laneway. The maximum height for a battle-axe lot in Zone R3 Medium Density Residential is 9.5metres.

4.3A Second building heights [Local provision]

- (1) The objectives of this clause are as follows:
- (a) To ensure new development is consistent with the desired future character of the neighbourhood.
 - (b) To ensure new development is consistent with the surrounding buildings and the streetscape;
 - (c) To protect views and vistas from the public domain.
- (2) This clause applies to land shown in “Area A”, “Area B”, “Area C”, “Area D”, “Area E”, “Area F”, “Area G” or “Area H” on the Heights of Buildings Map.
- (3) Despite clause 4.3, the height of a building at the highest part of the site (exclusive of any access handles) must not exceed the height shown in column 2.

Column 1	Column 2
Area A	3.0 metres
Area B	4.0 metres
Area C	6.5 metres
Area D	7.5 metres
Area E	8.0 metres
Area F	10.5 metres
Area G	11 metres
Area H	14 metres

4.3B Area I (White City Tennis Club) – Height of buildings [Local provision]
(1) The objectives of this clause are as follows:

- a) To retain views from Glenmore Road over the site,
- b) To permit a greater maximum building height on part of the site, subject to certain criteria,
- c) To protect the visual privacy and amenity of nearby residences,
- d) To conserve and recognise the heritage significance of the existing centre courts.

(2) This clause applies to land shown in “Area I” on the Height of Buildings Map.

(3) Despite clause 4.3, the maximum height of a building on land in Area I is 11.5m if:

- a) the building is located on the western side of the centre courts, and
- b) the consent authority is satisfied that the development does not affect view lines from Glenmore Road, and
- c) the building maintains the heritage significance of the site.

4.4 Floor space ratio [optional]

(1) The objectives of this clause are as follows:

(a) For development in Zone R3 Medium Density:

- I. To ensure the bulk and scale of new development is compatible with the desired future character of the area,
- II. To minimise adverse environmental effects on the use or enjoyment of adjoining properties and the public domain,
- III. To ensure that development allows adequate provision on site for deep soil planting and areas of private open space.

(b) For buildings in Zone B1 Neighbourhood Business, Zone B2 Local Centre, and Zone B4 Mixed Use, to ensure that buildings are compatible with the desired future character of the area in terms of bulk and scale.

(2) The maximum floor space ratio on any land is not to exceed the floor space ratio shown for the land on the Floor Space Ratio Map

Direction: Different floor space ratios may be shown on the FSR map for different zones, for different land in the same zone or for different land uses within a building. This Plan may provide that, despite subclause (2), the maximum floor space ratio for a building is to be determined partly by the FSR map and partly by other means, or wholly by other means.

(3) Despite subclause 2, the floor space ratio shown for land on the Floor Space ratio Map does not apply to a dwelling-house, dual occupancy or a semi-detached dwelling.

Note: for dwelling houses, dual occupancies and semi-detached dwellings the building envelope controls within the development control plan apply.

4.4A Area 1 (Double Bay) - floor space ratio [Local provision]

- (1) The objective of this clause is to encourage the development of prominent corner buildings in Double Bay.
- (2) This clause applies to land shown within “Area 1” on the Floor Space Ratio Map.
- (3) Despite clause 4.4, consent may be granted to development on land to which this clause applies that results in a floor space ratio that does not exceed 3:1 if:
 - a) the consent authority is satisfied that the development will be compatible with the desired future character of the centre in terms of building bulk and scale.

4.4B Areas 2 and 3 (Selected B1 and B4 Centres) - floor space ratio [Local provision]

- (1) The objective of this clause is to encourage the development of prominent corner buildings in certain Neighbourhood Centres.
- (2) This clause applies to land shown within “Area 2” on the Floor Space Ratio Map.
- (3) Despite clause 4.4, consent may be granted to development on land to which this clause applies that results in a floor space ratio that does not exceed 2:1 if:
 - a) the consent authority is satisfied that the development will be compatible with the desired future character of the centre in terms of building bulk and scale, and
 - b) adjoining land in “Area 3” has, or will have, direct vehicular access or vehicular access via a right of way to a road.

Note. Where there is no land adjoining in “Area 3”, subclause (b) does not apply.

4.4C Area 4 (Rose Bay) – height and floor space ratio incentives [Local provision]

- (1) The objective of this clause is to encourage the provision of a public square in Rose Bay to link the centre to the bay.
- (2) This clause applies to land shown within “Area J” on the Height of Buildings Map and “Area 4” on the Floor Space Ratio Map.
- (3) Despite clauses 4.3 and 4.4, consent may be granted to development on land to which this clause applies that results in a floor space ratio that does not exceed 2.25:1 and a height that does not exceed 17.5m if:
 - a) provision is made for a public square within the site,
 - b) the consent authority is satisfied that the public square will be compatible with the desired future character of the centre in terms of location, size, access and amenity.

4.4D Area 5 (188 Oxford Street) - floor space ratio [Local provision]

- (1) The objective of this clause is to retain the existing bulk and scale on 188 Oxford Street, Paddington.
- (2) This clause applies to land shown within “Area 5” on the Floor Space Ratio Map.
- (3) Despite clause 4.4, consent may be granted to development on land to which this clause applies that results in a floor space ratio that does not exceed 1.04:1 if:
 - a) the floor space ratio is an aggregate of all the land to which this clause applies,
 - b) the consent authority is satisfied that the development will be compatible with any conservation plan for the site.

4.5 Calculation of floor space ratio and site area [optional]

(1) Objectives

The objectives of this clause are as follows:

- (a) to define **floor space ratio**,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
 - (iii) require community land and public places to be dealt with separately.

(2) Definition of “floor space ratio”

The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) Exclusions from site area

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) Strata subdivisions

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) Only significant development to be included

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) Certain public land to be separately considered

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) Existing buildings

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) Covenants to prevent “double dipping”

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

(10) Covenants affect consolidated sites

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) Definition

In this clause, **public place** has the same meaning as it has in the *Local Government Act 1993*.

4.6 Exceptions to development standards [compulsory]

- (1) The objectives of this clause are as follows:
 - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
 - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
 - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
 - (a) the consent authority is satisfied that:
 - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
 - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) Not applicable
- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:

- (a) a development standard for complying development,
- (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
- (c) clause 5.4.

Direction. Additional exclusions may be added.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority [compulsory]

- (1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

Note. If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 8 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Roads and Traffic Authority
Zone E1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <i>National Parks and Wildlife Act 1974</i>
Zone B2 Local Centre and marked "Local road widening"	Council

Direction. Land is required to be shown on the Land Reservation Acquisition Map if it is expressly set apart by the Plan exclusively for a public purpose referred to in section 26 (1) (c) of the Act. However, any such land that is held by an authority of the State, or by a public company or a subsidiary of a public company (within the meaning of the *Corporations Act 2001* of the Commonwealth) is not required to be shown on that Map. An authority of the State is to be listed for all land shown on the Land Reservation Acquisition Map, but the land is not to be so reserved and the authority listed unless the authority consents to its being listed.

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.2 Classification and reclassification of public land [compulsory]

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note. Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4:
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

Note. In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.4 Controls relating to miscellaneous permissible uses [compulsory]

(1) Bed and breakfast accommodation

If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than [4] bedrooms.

(2) Home businesses

If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than [50] square metres of floor area.

(3) Home industries

If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than [50] square metres of floor area.

(4) Industrial retail outlets

If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:

- a) [67%] of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - b) [400] square meters,
- whichever is the lesser.

(5) Farm stay accommodation

If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than [3] bedrooms.

(6) Kiosks

If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed [25] square metres.

(7) Neighbourhood shops

If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed [80] square metres.

(8) Roadside stalls

If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed [8] square metres.

(9) Secondary dwellings

If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:

- (a) 60 square metres,
- (b) [5]% of the total floor area of the principal dwelling.

5.5 Development within the coastal zone [compulsory if land to which Plan applies includes land in the coastal zone]

(1) The objectives of this clause are as follows:

- (a) to provide for the protection of the coastal environment of the State for the benefit of both present and future generations through promoting the principles of ecologically sustainable development,
- (b) to implement the principles in the NSW Coastal Policy, and in particular to:
 - (i) protect, enhance, maintain and restore the coastal environment, its associated ecosystems, ecological processes and biological diversity and its water quality, and
 - (ii) protect and preserve the natural, cultural, recreational and economic attributes of the NSW coast, and
 - (iii) provide opportunities for pedestrian public access to and along the coastal foreshore, and
 - (iv) recognise and accommodate coastal processes and climate change, and
 - (v) protect amenity and scenic quality, and
 - (vi) protect and preserve rock platforms, beach environments and beach amenity, and
 - (vii) protect and preserve native coastal vegetation, and
 - (viii) protect and preserve the marine environment, and
 - (ix) ensure that the type, bulk, scale and size of development is appropriate for the location and protects and improves the natural scenic quality of the surrounding area, and
 - (x) ensure that decisions in relation to new development consider the broader and cumulative impacts on the catchment, and
 - (xi) protect Aboriginal cultural places, values and customs, and
 - (xii) protect and preserve items of heritage, archaeological or historical significance.

(2) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority has considered:

- (a) existing public access to and along the coastal foreshore for pedestrians (including persons with a disability) with a view to:
 - (i) maintaining existing public access and, where possible, improving that access, and
 - (ii) identifying opportunities for new public access, and
- (b) the suitability of the proposed development, its relationship with the surrounding area and its impact on the natural scenic quality, taking into account:
 - (i) the type of the proposed development and any associated land uses or activities (including compatibility of any land-based and water-based coastal activities), and
 - (ii) the location, and

- (iii) the bulk, scale, size and overall built form design of any building or work involved, and
 - (c) the impact of the proposed development on the amenity of the coastal foreshore including:
 - (i) any significant overshadowing of the coastal foreshore, and
 - (ii) any loss of views from a public place to the coastal foreshore, and
 - (d) how the visual amenity and scenic qualities of the coast, including coastal headlands, can be protected, and
 - (e) how biodiversity and ecosystems, including:
 - (i) native coastal vegetation and existing wildlife corridors, and
 - (ii) rock platforms, and
 - (iii) water quality of coastal waterbodies, and
 - (iv) native fauna and native flora, and their habitats, can be conserved, and
 - (f) the cumulative impacts of the proposed development and other development on the coastal catchment.
- (3) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority is satisfied that:
 - (a) the proposed development will not impede or diminish, where practicable, the physical, land-based right of access of the public to or along the coastal foreshore, and
 - (b) if effluent from the development is disposed of by a non-reticulated system, it will not have a negative effect on the water quality of the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and
 - (c) the proposed development will not discharge untreated stormwater into the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and
 - (d) the proposed development will not:
 - (i) be significantly affected by coastal hazards, or
 - (ii) have a significant impact on coastal hazards, or
 - (iii) increase the risk of coastal hazards in relation to any other land.

5.7 Development below mean high water mark [compulsory if land to which Plan applies contains tidal waters]

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms [compulsory]

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent:
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of:
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm x 100mm x 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause:
private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Preservation of trees or vegetation [optional]

- (1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.
 - (2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.
- Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.
- (3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
 - (a) development consent, or
 - (b) a permit granted by the Council.
 - (4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act

to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

- (5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.
- (6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.
- (7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
 - (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
 - (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance,
 unless the Council is satisfied that the proposed activity:
 - (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
 - (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.

Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

- (8) This clause does not apply to or in respect of:
 - (a) the clearing of native vegetation:
 - (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
 - (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
 - (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
 - (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
 - (d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
 - (e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

5.9AA Trees or vegetation not prescribed by development control plan [compulsory]

- (1) This clause applies to any tree or other vegetation that is not of a species or kind prescribed for the purposes of clause 5.9 by a development control plan made by the Council.
- (2) The ringbarking, cutting down, topping, lopping, removal, injuring or destruction of any tree or other vegetation to which this clause applies is permitted without development consent.

5.10 Heritage conservation [compulsory]

Note. Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

Direction. [Heritage items as identified in Schedule 5 must be shown on the Heritage Map.](#)
[The location and nature of Aboriginal objects and Aboriginal places of heritage significance may be described in Schedule 5 and shown on the Heritage Map \(see the direction to Schedule 5\).](#)

(1) Objectives

The objectives of this clause are as follows:

- (a) to conserve the environmental heritage of **Woollahra**,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) Requirement for consent

Development consent is required for any of the following:

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
 - (i) a heritage item,
 - (ii) an Aboriginal object,
 - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,

- (f) subdividing land:
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) When consent not required

However, development consent under this clause is not required if:

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
- (b) the development is in a cemetery or burial ground and the proposed development:
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
- (d) the development is exempt development.

(4) Effect of proposed development on heritage significance

The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) Heritage assessment

The consent authority may, before granting consent to any development:

- (a) on land on which a heritage item is located, or
- (b) on land that is within a heritage conservation area, or
- (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed

development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) Heritage conservation management plans

The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) Archaeological sites

The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):

- (a) notify the Heritage Council of its intention to grant consent, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) Aboriginal places of heritage significance

The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:

- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
- (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) Demolition of nominated State heritage items

The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

- (a) notify the Heritage Council about the application, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) Conservation incentives

The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:

- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction [compulsory]

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note. The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown [compulsory]

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

Part 6 Additional local provisions

6.1 Earthworks [Model local provision]

- (1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.
- (2) Development consent is required for earthworks unless:
 - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or
 - (b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) Before granting development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters:
 - (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,
 - (b) the effect of the development on the likely future use or redevelopment of the land,
 - (c) the quality of the fill or the soil to be excavated, or both,
 - (d) the effect of the development on the existing and likely amenity of adjoining properties,
 - (e) the source of any fill material and the destination of any excavated material,
 - (f) the likelihood of disturbing relics,
 - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
 - (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

Note. The National Parks and Wildlife Act 1974, particularly section 86, deals with harming Aboriginal objects.

6.2 Development on the foreshore must ensure access [Model local provision]

In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following:

- (a) continuous public access to and along the foreshore through or adjacent to the proposed development,
- (b) public access to link with existing or proposed open space,
- (c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,
- (d) public access to be located above mean high water mark,
- (e) the reinforcing of the foreshore character and respect for existing environmental conditions,
- (f) management of sea level rise or change of flooding patterns as a result of climate change.

6.3 Foreshore building lines [Amended model local provision]

- (1) The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area.
- (1A) The 12m Foreshore building line is measured at 12metres from the mean high water mark.
- (1B) The 30m Foreshore building line is measured at 30metres from the mean high water mark.
- Note. The precise location of a foreshore building line is to be ascertained by a survey undertaken by a registered surveyor.
- (2) Development consent must not be granted for development on the foreshore area delineated by 1A except for the following purposes:
- (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
 - (b) development for the purposes of boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools and fences.
- (2A) Development consent must not be granted for a residential flat building or multi dwelling housing on land in the foreshore area delineated by 1B except for the extension, addition, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
- (3) Development consent must not be granted under subclause (2) or (2A) unless the consent authority is satisfied that:
- (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
 - (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
 - (c) the development will not cause environmental harm such as:
 - (i) pollution or siltation of the waterway, or
 - (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, flora or fauna habitats, or
 - (iii) an adverse effect on drainage patterns, and
 - (d) the development will not cause congestion of, or generate conflicts between, people using open space areas or the waterway, and
 - (e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and
 - (f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained,
 - (g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and
 - (h) sea level rise or change of flooding patterns as a result of climate change have been considered.

6.4 Restriction on consent for particular sex services premises [Model local provision]

- (1) Development consent must not be granted for development for the purposes of sex services premises if the premises will be located on land that adjoins, or that is separated only by a road from, land:
 - (a) in Zone R1 General Residential, Zone R2 Low Density Residential or Zone R3 Medium Density Residential, or
 - (b) used as a place of public worship or for community or school uses, or
 - (c) in Zone RE1 Public Recreation.
- (2) In deciding whether to grant consent to any such development, the consent authority must take into account the impact that the proposed development would have on children who use the land.

6.5 Particular dual occupancy subdivisions must not be approved [Model local provision]

- (1) Development consent must not be granted for a subdivision that would create separate titles for each of the two dwellings resulting from a dual occupancy development.
- (2) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

6.6 Non-residential uses in heritage conservation areas [Local provision]

- (1) The objective of this clause is to enable buildings and land located within residential zones in heritage conservation areas to be developed for non-residential purposes.
- (2) This clause applies to all buildings and the allotments on which they are situated or any parts therefore located within those parts of a heritage conservation area which are within Zone R2 Low Density Residential or Zone R3 Medium Density Residential:
 - (a) where the whole or part of the building has a history of a lawfully commenced non-residential use, whether or not that use was discontinued, abandoned or interrupted, and
 - (b) where the whole or part of the building was originally lawfully constructed with a non-residential design or was lawfully altered or adapted to a non-residential design.
- (3) The Council may consent to the development of a building or part thereof, referred to in sub-clause (2), for the purpose of business premises, community facility, educational establishment, information and education facility, office premise, public administration building and shop.
- (4) In addition to the development of a building or part thereof, the Council may also consent to the development of the allotment on which the building is situated for any purpose specified in sub-clause (3).

- (5) The Council must not grant consent as referred to in sub-clause (3) or (4) unless it is satisfied that carrying out of development in accordance with the consent:
 - (a) will not adversely affect the heritage significance of the building, its site, or the heritage conservation area, and
 - (b) will not detrimentally affect the enjoyment by an occupier of any lands adjoining or adjacent to, or in the neighbourhood of, the lands upon which such development is proposed.

6.6A Building amalgamation within heritage conservation areas [Local provision]

- (1) The objective of this clause is to retain traditional building characteristics by preventing the amalgamation of buildings for non-residential purposes in heritage conservation areas.
- (2) This clause applies to buildings in heritage conservation areas.
- (3) Development consent must not be granted for the amalgamation of adjoining buildings to which this clause applies, for non-residential purposes, unless the consent authority has considered the following:
 - a) the impact of the development on the heritage significance of the building, its setting or the area, and
 - b) whether the development is consistent with the historic subdivision pattern.

6.7 Acid sulfate soils [Model local provision]

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the Acid Sulfate Soils Map as being of the class specified for those works.

Class of Land	Works
(1)	Any works.
(2)	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
(3)	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.
(4)	Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.
(5)	Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan

has been prepared for the proposed works in accordance with the *Acid Sulfate Soils Manual* and has been provided to the consent authority.

- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:
 - (a) a preliminary assessment of the proposed works prepared in accordance with the *Acid Sulfate Soils Manual* indicates that an acid sulfate soils management plan need not be carried out for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):
 - (a) emergency work, being the repair or replacement of the works of the public authority required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
 - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
 - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if:
 - (a) the works involve the disturbance of less than 1 tonne of soil, such as occurs in carrying out agriculture, the construction or maintenance of drains, extractive industries, dredging, the construction of artificial water bodies (including canals, dams and detention basins) or foundations or flood mitigation works, or
 - (b) the works are not likely to lower the watertable.

6.8 Flood planning [Model local provision]

- (1) The objectives of this clause are as follows:
- (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change,
 - (c) to avoid significant adverse impacts on flood behaviour and the environment.
- (2) This clause applies to:
- (a) land that is shown as "Flood planning area" on the Flood Planning Map, and
 - (b) other land at or below the flood planning level.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
- (a) is compatible with the flood hazard of the land; and
 - (b) will not significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) incorporates appropriate measures to manage risk to life from flood, and
 - (d) will not significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
 - (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
- (6) A word or expression used in this clause has the same meaning as it has in the NSW Government's *Floodplain Development Manual* published in 2005, unless it is otherwise defined in this clause.
- (7) In this clause:
- flood planning area** means the land shown as "Flood planning area" on the Flood Planning Map
- flood planning level** means the level of a 1:100 ARI (average recurrent interval) flood event plus [0.5m] metres freeboard.
- Flood Planning Map** means the *Woollahra Local Environment Plan* Flood Planning Map.
- projected sea level rise** means the 2050 and 2100 sea level rise planning benchmarks as specified in the NSW Government's *Sea Level Rise Policy Statement 2009*.

Schedule 5 Environmental heritage

(Clause 5.10)

Direction. This Schedule should generally be divided into 3 parts (one for heritage items, one for heritage conservation areas and one for archaeological sites). If agreement is reached with the Aboriginal community to list Aboriginal objects or Aboriginal places of heritage significance, the Schedule should also include separate parts listing any such object or place. In all cases, the relevant matter should be listed in alphabetical order in each respective Part according to suburb or locality name (and by street name within each such suburb or locality).

The description of a heritage item should be included in a column headed "Item" and should include a brief description of those things that are part of the heritage significance of the item—for example, "House, front garden and front fence", or "Lindsey (including homestead, outbuildings, stables, Bunya Pine tree and driveway)" or "Dunmore Park (including bandstand, fountain and avenue of fig trees)". If any interior features are part of the heritage significance of a heritage item, these should also be described—for example "Lindsey (including original bathroom, dining room fireplace with mantelpiece and original detailing throughout)" or "Lindsey (including all interior features)". Any thing that is part of the heritage significance of a heritage item should also be included in the inventory of heritage items.

Heritage items cannot be identified in the Schedule as having "State significance" unless they are listed on the State Heritage Register. However, a heritage item may be listed in the Schedule as a "nominated item of State significance" (or as "State nominated") if the item has been identified as an item of potential State significance in a publicly exhibited heritage study and the Council has nominated the item in writing to the Heritage Council.

Dictionary

(Clause 1.4)

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is:

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
