NOTE 1

The following information must accompany applications for a construction certificate for building and subdivision work.

Building Work.

In the case of an application for a construction certificate for **building work**:

- a) copies of compliance certificates relied upon
- b) four (4) copies of detailed plans and specifications

The plan for the building must be drawn to a suitable scale and consist of a general plan and a block plan. The general plan of the building is to:

- show a plan of each floor section
- show a plan of each elevation of the building
- show the levels of the lowest floor and of any yard or unbuilt on area belonging to that floor and the levels of the adjacent ground
- indicate the height, design, construction and provision for fire safety and fire resistance (if any)

Where the proposed building work involves any alteration or addition to, or rebuilding of, an existing building the general plan is to be **coloured** or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the proposed alteration addition or rebuilding.

Where the proposed building work involves a modification to previously approved plans and specifications the general plans must be **coloured** or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the modification.

The specification is:

- to describe the construction and materials of which the building is to be built and the method of drainage, sewerage and water supply
 - state whether the materials proposed to be used are new or second hand and give particulars of any second hand materials used.
- c) a statement as to how the performance requirements of the *Building Code of Australia* are to be complied with (if an alternative solution, to meet the performance requirements, is to be used),
 - d) a description of any accredited building product or system sought to be relied on for the purposes of section 4.15(4) of the Act,
 - e) if the development involves building work (other than work in relation to a dwelling-house or a building or structure that is ancillary to a dwelling-house or work that relates only to fire link conversion):
 - i) a list of any existing fire safety measures provided in relation to the land or any existing building on the land, and
 - ii) a list of the proposed fire safety measures to be provided in relation to the land and any building on the land as a consequence of the building work. The list must describe the extent, capability and basis of design of each of the measures concerned.
 - f) copies of any compliance certificate to be relied on,
 - g) if the development involves building work to alter, expand or rebuild an existing building, a scaled plan of the existing building,
 - h) in the case of development to which is a BASIX affected development or BASIX optional development,
 - i) such other documents as any BASIX certificate for the development requires to accompany the application. Where the development was required to have a BASIX Certificate, the matters requested by that certificate are to be included in the plans and specifications.
 - ii) a BASIX certificate or BASIX certificates for the development, being either the BASIX certificate applicable to the development when the relevant development consent was granted or some other BASIX certificate or BASIX certificates that has or have been issued no earlier than 3 months before the date on which the application is made.
 - iii) If the proposed development involves the alteration, enlargement or extension of a BASIX affected building that contains more than one dwelling, a separate BASIX certificate is required for each dwelling concerned.
 - i) An application for a construction certificate that relates only to fire link conversion need only be accompanied by a document that describes the design and construction, and mode of operation, of the new fire alarm communication link.

Subdivision Work

In the case of an application for a construction certificate for **subdivision work**:

- a) copies of compliance certificates relied upon
- b) four (4) copies of detailed engineering plans. The detailed plans may include but are not limited to the following :
 - earthworks
 - roadworks
 - road pavement
 - road furnishings
 - stormwater drainage
 - water supply works
 - sewerage works
 - landscaping works
 - erosion control works

Where the proposed subdivision work involves a modification to previously approved plans the plans must be coloured or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the modification. The subdivision plans and specifications shall include details of the existing and proposed subdivision pattern (including the number of lots and the location of roads), and details as to which public authorities have been consulted with as to the provision of utility services to the land concerned.

Note 2

Home Building Act Requirements

In the case of an application for a construction certificate for residential building work (within the meaning of the Home Building Act 1989) attach the following:

- a) in the case of work by a licensee under the Act:
 - i) a statement detailing the licensee's name and contractor licence number, and
 - ii) documentary evidence that the licensee has complied with the applicable requirements of that Act*, or
- b) in the case of work done by any other person:
 - i) a statement detailing the person's name and owner-builder permit number, or
 - ii) a declaration signed by the owner of the land, to the effect that the reasonable market cost of the labour and materials involved in the work is less than the amount prescribed for the purposes of the definition of owner-builder work in section 29 of that Act.

* A certificate purporting to be issued by an approved insurer under Part 6 of the Home Building Act 1989 to the effect that a person is the holder of an insurance contract issued for the purposes of that Part, is sufficient evidence that the person has complied with the requirements of that Part.
