

Development Control Committee Minutes

Monday 17 November 2014

Table of Contents

D1	Confirmation of Minutes of Meeting held on 3 November 2014	4039
D2	DA78/2008 part 6 – 47 Chamberlain Avenue, Rose Bay – Section 96 Application – Proposed modification to basement & entry levels, additional excavation, new side & rear boundary walls & landscaping modifications – 6/5/2014 – (See Item R2)	4039
D3	DA21/2009 part 8 - 17 Olola Avenue, Vaucluse – Section 96 Application – Proposed modification to an unauthorised air conditioning system & the installation of vehicular entrance gates to the site frontage – 13/8/2013 – (See Item R3)	4039
D4	DA404/2013 part 2 – 535-537 New South Head Road, Double Bay - Section 96 Application – Proposed modifications - internal & external including modifications to the approved building envelope, changes to the landscaping basement levels, additional excavation, additional bedrooms to units 1 & 2 & changes to the service balconies, amendment of Conditions of the approved development – 3/9/2014.....	4039
D5	DA218/2014 - 9-11 Glenmore Road, Paddington (Durdy Nelly’s Hotel) – Internal & external alterations & additions to Durdy Nelly’s Hotel – 27/5/2014.....	4050
D6	DA682/2008 part 3 – 594-596 New South Head Road, Rose Bay (Rose Bay Marina) - Section 96 Application – Proposed modifications - increase in approved boat length from 30m to 37m with no physical change to structures or height restriction for 4 berths on Arm B – 27/6/2014 – (See Item R1)	4082
D7	DA377/2014 - 18 & 18A Glenmore Road, Paddington – Change of use of the existing ground floor levels of both 18 & 18A Glenmore Road from office to retail, changes to existing window openings, addition to the rear of No. 18, new shop front to No. 18A, internal modifications including bricking up the opening between the two buildings – 5/9/2014 – (See Item R4)	4083
D8	Register of Current Land and Environment Court Matters and Register of Court Proceedings for Building Control, Environmental Control & Health Control	4083
D9	Register of SEPP 1 Objections	4083
R1	DA682/2008 part 3 – 594-596 New South Head Road, Rose Bay (Rose Bay Marina) - Section 96 Application – Proposed modifications - increase in approved boat length from 30m to 37m with no physical change to structures or height restriction for 4 berths on Arm B – 27/6/2014	4083
R2	DA78/2008 part 6 – 47 Chamberlain Avenue, Rose Bay – Section 96 Application – Proposed modification to basement & entry levels, additional excavation, new side & rear boundary walls & landscaping modifications – 6/5/2014	4084
R3	DA21/2009 part 8 - 17 Olola Avenue, Vaucluse – Section 96 Application – Proposed modification to an unauthorised air conditioning system & the installation of vehicular entrance gates to the site frontage – 13/8/2013.....	4086
R4	DA377/2014 - 18 & 18A Glenmore Road, Paddington – Change of use of the existing ground floor levels of both 18 & 18A Glenmore Road from office to retail, changes to existing window openings, addition to the rear of No. 18, new shop front to No. 18A, internal modifications including bricking up the opening between the two buildings – 5/9/2014	4087

Development Control Committee Minutes

**Minutes of the Meeting held on
Monday 17 November 2014 at 6.04pm**

Present: Her Worship the Mayor, Councillor Toni Zeltzer ex-officio (Not Item D6)
Councillors Ted Bennett (Chair)
Luise Elsing
Greg Levenston
Anthony Marano
Elena Wise

Staff: Nick Economou (Acting Manager – Development Control)
George Fotis (Team Leader)
Sue O'Connor (Secretarial Support - Governance)
David Waghorn (Team Leader)

Session One: 6.04pm to 7.50pm
Session Two: 8.22pm to 9.30pm

Also in Attendance: Councillor Boskovitz (part Item D2)
Councillor Robertson (Items D6 & D7)

Leave of Absence

Leave of Absence previously granted by Council: Nil

Apologies: Apologies were received and accepted from Councillors Katherine O'Regan & James Keulemans and Leave of Absence granted.

Late Correspondence

Late correspondence was submitted to the committee in relation to Items: D2, D4, D5 & D6

Declarations of Interest

The Mayor Councillor Zeltzer declared a Non-Significant, Non-Pecuniary Interest in Item D2 (47 Chamberlain Avenue, Rose Bay), as John Comino representing an objector is a member of the Liberal Party. The Mayor remained in the meeting, participated in the debate and voted on this matter.

Councillor Levenston declared a Non-Significant, Non-Pecuniary Interest in Item D2 (47 Chamberlain Avenue, Rose Bay), as John Comino representing an objector is a member of the Liberal Party. Councillor Levenston remained in the meeting, participated in the debate and voted on this matter.

Councillor Marano declared a Non-Significant, Non-Pecuniary Interest in Item D2 (47 Chamberlain Avenue, Rose Bay), as John Comino representing an objector is a member of the Liberal Party. Councillor Marano remained in the meeting, participated in the debate and voted on this matter.

Councillor Bennett declared a Non-Significant, Non-Pecuniary Interest in Item D2 (47 Chamberlain Avenue, Rose Bay), as John Comino representing an objector is a member of the Liberal Party. Councillor Bennett remained in the meeting, participated in the debate and voted on this matter.

The Mayor Councillor Zeltzer declared a Non-Significant, Non-Pecuniary Interest in Item D6 (594-596 New South Head Road, Rose Bay (Rose Bay Marina)), as she is a member of the Joint Regional Planning Panel which is the consent authority for the owner's adjacent Point Piper Marina development proposal. Councillor Zeltzer vacated the meeting and did not participate in the debate or vote on this matter.

Items Decided by this Committee using its Delegated Authority (Items D1 to D9)

Item No: D1 Delegated to Committee
Subject: **Confirmation of Minutes of Meeting held on 3 November 2014**
Author: Craig Bennett, Manager – Governance & Council Support
File No: See Council Minutes
Reason for Report: The Minutes of the Meeting of Monday 3 November 2014 were previously circulated. In accordance with the guidelines for Committees' operations it is now necessary that those Minutes be formally taken as read and confirmed.

(Levenston/Marano)

Resolved:

That the Minutes of the Development Control Committee Meeting of Monday 3 November 2014 be taken as read and confirmed.

D2 DA78/2008 part 6 – 47 Chamberlain Avenue, Rose Bay – Section 96 Application – Proposed modification to basement & entry levels, additional excavation, new side & rear boundary walls & landscaping modifications – 6/5/2014

Note: In accordance with Council's meeting procedures and policy this matter is referred to full Council due to a substantive change of the Committee's recommendation (refusal) to the Officer's recommendation (approval). – (See Item R2)

D3 DA21/2009 part 8 - 17 Olola Avenue, Vacluse – Section 96 Application – Proposed modification to an unauthorised air conditioning system & the installation of vehicular entrance gates to the site frontage – 13/8/2013

Note: In accordance with Council's meeting procedures and policy this matter is referred to full Council due to a substantive change of the Committee's recommendation (refusal) to the Officer's recommendation (approval). – (See Item R3)

D4 DA404/2013 part 2 – 535-537 New South Head Road, Double Bay - Section 96 Application – Proposed modifications internal & external including modifications to the approved building envelope, changes to the landscaping basement levels, additional excavation, additional bedrooms to units 1 & 2 & changes to the service balconies, amendment of Conditions of the approved development – 3/9/2014

Note: Late correspondence was tabled by Dennis Rabinowitz.

Note: Ingrid Wohl, an objector & George Karavanas, Consultant Planner for the Applicant & Dennis Robinowitz Architect the Applicant, addressed the Committee.

Note: The Committee amended Condition No. C.1(f)(iv) (landscaping species).

(Elsing/Levenston)**Resolved: Pursuant to Section 96 of the Environmental Planning and Assessment Act, 1979**

THAT the Council, as the consent authority, modify development consent to Development Application No. 404/2013 part 2 for the demolition of the existing dwelling and construction of a part four/part five storey residential flat building with basement car parking, comprising a total of 14 units and 28 car spaces on land at 535-537 New South Head Road, Double Bay, subject to the following:

Note: The number of car spaces has increased from 28 to 30.

The addition of Condition No. A.3(a):**A.3(a) Approved Amended (Section 96) Plans and Supporting Documents**

Those acting upon or under this amended consent must carry out all work and maintain the use and works in accordance with the approved plans and supporting documents listed in the original consent, as amended by the amended approved plans and supporting documents as submitted by the Applicant and to which is affixed a Council stamp "Approved Section 96 Plans" listed below otherwise than modified by further condition(s). Where the plans relate to amendments, alterations or additions only those works shown in colour or highlighted are approved.

Note: These plans and supporting documentation may be subject to conditions modifying the development imposed under section 80A(1)(g) of the *Act* (refer to conditions which must be satisfied prior to the issue of any *Construction Certificate*.)
Standard Condition: A6

The modification of Condition No. A.5 and B.2-B.4:**A.5 Tree Preservation and Approved Landscaping Works**

All landscape works shall be undertaken in accordance with the approved landscape plan, arborist report, tree management plan and transplant method statement as applicable.

a) The following trees shall be retained

• Trees on Private Land

Ref No	Species	Location	Dimension
1	<i>Araucaria columnaris</i> (Cooks Pine)	Front lawn area of front garden	12 x 6 metres
2	<i>Eucalyptus saligna</i> (Sydney Blue Gum)	Northern boundary towards the rear of the existing house	15 x 10 metres
3	<i>Araucaria columnaris</i> (Cook's Pine)		20 x 5 metres
16	Princess of the Night (<i>Cereus spp</i>)	Northern boundary	8 x 6 metres

• Trees on Council Land

Ref No	Species	Location	Dimension	Value
4	<i>Eucalyptus microcorys</i> (Tallowood)	Street tree front of property	15 x 12 metres	\$9,418
5			16 x 12 metres	\$9,497

Note: The tree/s required to be retained should appear coloured green on the construction certificate plans.

b) The following trees shall be transplanted in accordance with the supplied Tree Transplanters Methodology Statement and successfully established in the location(s) indicated on the approved landscape plan:

Ref No	Species	Location (current)	Dimension
1	<i>Araucaria columnaris</i> (Cooks Pine)	Front lawn area of front garden	12 x 6 metres
7	<i>Livistonia australis</i> (Cabbage palm)		4 x 3 metres
8			6 x 5 metres
16	Princess of the Night (<i>Cereus. sp</i>)	Northern boundary	8 x 6 metres

Note: The tree/s required to be retained shall appear coloured yellow on the construction certificate plans.

c) The following trees may be removed:

Ref No	Species	Location (current)	Dimension
20-26	<i>Syagrus romanzoffianum</i> (Cocos palm)	Southern boundary	9 x 3 metres
27	<i>Cinnamomum camphora</i> (Camphor Laurel)		17 x 17 metres

Note: Tree/s to be removed shall appear coloured red on the construction certificate plans.

B.2 Establishment of Tree Protection Zones (TPZ)

Tree Protection Zones shall be established around all trees to be retained and in accordance with Section 4 of the *Australian Standard Protection of Trees on Development Sites (AS 4970- 2009)*. Tree protection zones must also comply with the following requirements;

a) Tree Protection Zone areas

Ref No	Species	Location	Radius from Centre of Trunk*
2	<i>Eucalyptus saligna</i> (Sydney Blue Gum)	Northern boundary towards the rear of the existing house	4.8 metres
3	<i>Araucaria columnaris</i> (Cook Island Pine)		7.2 metres
4	<i>Eucalyptus microcorys</i> (Tallowood)	Street tree front of property	2 metres
5			

Note: Where this condition relates to street trees and the fence cannot be placed at the specified radius, the fencing shall be positioned so that the entire verge (nature strip) area in front of the subject property, excluding existing driveways, footpaths and bus stops is protected.

Note: Where this condition relates to trees on private property the radial distance of fencing shall be positioned only within the subject property.

b) Tree Protection Zones shall be fenced with a 1.8 metre high chainmesh or weldmesh fence and secured to restrict access. The fence shall be established prior to any materials being brought onto the site and before the commencement of works including demolition. The area within the fence shall be mulched and maintained to a depth of 75mm. The soil within the TPZ shall be kept in a moist condition for the duration of the construction works. Unless approved by the site arborist there shall be no access within the TPZ.

c) Trunk protection shall be installed around the trunks of the following trees:

Ref No	Species
2	<i>Eucalyptus saligna</i> (Sydney Blue Gum)
3	<i>Araucaria columnaris</i> (Cook Island Pine)
4	<i>Eucalyptus microcorys</i> (Tallowood)
5	

Trunk protection shall consist of a padding material such as hessian or thick carpet underlay wrapped around the trunk. Hardwood planks (50mm x100mm or similar) shall be placed over the padding and around the trunk of the tree at 150mm centres. The planks shall be secured with 8 gauge wire at 300mm spacing. Trunk protection shall extend a minimum height of 2 metres or to the maximum possible length permitted by the first branches.

d) A sign identifying the Tree Protection Zone shall be erected on each side of the protection fence indicating the existence of a TPZ. Signage must be visible from within the development site.

e) No excavation, construction activity, grade changes, storage of materials, stockpiling, siting of works sheds, preparation of mixes or cleaning of tools is permitted within Tree Protection Zones, unless specified in Condition B.2 of this consent.

f) Establishment of Ground protection: Temporary access within the TPZ for pedestrian and machinery movements shall only be permitted with the approval of the site arborist or unless specified in Condition B.2 of this consent. Appropriate ground protection shall be installed under the supervision of the site arborist.

- g) All site personnel and contractors must be made aware of all tree protection requirements associated with these conditions of consent.
- h) The project arborist shall provide written certification of compliance with the above condition.
Standard Condition: B5

B.3 Permissible work within Tree Protection Zones

The following works are permissible within the Tree Protection Zone:

Ref No	Species	Radius from Trunk	Approved works
2	<i>Eucalyptus saligna</i> (Sydney Blue Gum)	3.5 metres	Excavation to accommodate the proposed level 1 and 2 Basement floor Soft landscaping works
3	<i>Araucaria columnaris</i> (Cook Island Pine)	6 metres	Excavation to accommodate the proposed level 1 and 2 Basement floor Excavation to accommodate The Northern side of apartment 5 Soft landscaping works

The project arborist shall provide written certification of compliance with the above condition.

B.4 Arborists Documentation and Compliance Checklist

The site arborist shall provide written certification that all tree protection measures and construction techniques relevant to this consent have been complied with. Documentation for each site visit shall include:

- A record of the condition of trees to be retained prior to and throughout development
- Recommended actions to improve site conditions and rectification of non-compliance
- Recommendations for future works which may impact the trees

All compliance certification documents shall be kept on site by the Site Foreman. As a minimum the following intervals of site inspections must be made:

Stage of arboricultural inspection	Compliance documentation including photos shall be included
Installation of tree protection fencing and trunk protection	Compliance with tree protection measures
Allowable incursions carried out within the awarded tree protection zones of Trees 2, 3, 4, 5 and 27	Any excavation to be carried out using non-destructive hand tools under the supervision and direction of a Level 5 arborist and following the recommended practices within the supplied Tree Transplanters Australia <i>Root pruning and Tree Management strategy</i> -dated 9 July 2014.
Transplanting of Tree 1, 7, 8 and 16	Works carried out in accordance with the supplied Tree Transplanter’s methodology statement
Prior to the issue of a Final Occupation Certificate	Supervise the dismantling of tree protection measures

Inspections and compliance documentation shall be made by an arborist with AQF Level 5 qualifications.

Additional site visits shall be made when required by site arborist and/or site foreman for ongoing monitoring/supervisory work.

The modification of Condition No. C.1:**C.1 Modification of details of the development (s80A(1)(g) of the Act)**

The *approved plans* and the *Construction Certificate* plans and specification, required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation*, must detail the following amendments:

Traffic and Parking

- a) The following modifications are to be undertaken to assist with vehicle and pedestrian movement within the basement:
 - i) (deleted)
 - ii) Appropriate signage for the dual visitor space/car wash space
 - iii) The provision of a 'Left Turn Only' sign at the exit of the basement carpark
 - iv) The installation of a traffic light system at the bottom and top of the driveway between each basement level to warn drivers of oncoming vehicles
 - v) (deleted)
 - vi) Spaces 1 and 7 and 3 and 8 are reserved for allocation to adaptable units only.

Building and Fencing/Walls

- b) The following changes to the building are required to ensure the amenity of adjoining properties
 - i) A 0.6m increase in the side setback of the lounge room, bedroom, ensuite and service balcony of Unit 14 on Level 5 (with the balcony being setback 4.7m and the building 5.2m from the southern boundary)
 - ii) (deleted)
 - iii) (deleted)
 - iv) A maximum height of 1.2m to the front fence above the retaining wall
 - v) (deleted)
 - vi) The retention and storage on site of the sandstone blocks to the existing front retaining wall and their reuse in the construction of the new retaining wall
 - vii) (deleted)
 - viii) The deletion of the service balcony measuring 1.0m x 2.0m outside the bedroom in the south eastern corner of Unit 14 at the rear of level 5

Changes on Visual and Acoustic Privacy Grounds

- c) In addition to the changes outlined in part b), the following design changes are to be made on visual privacy grounds:
 - i) (deleted)
 - ii) (deleted)
 - iii) (deleted)
 - iv) (deleted)
 - v) All obscure windows to the southern elevation are to be fixed
 - vi) (deleted)
 - vii) (deleted)
 - viii) (deleted)
 - ix) (deleted)

Common Facilities

- d) The following facilities and spaces are to be provided:
 - i) A communal clothes line in the area adjacent to the northern common entrance at the rear of Level 1
 - ii) Internal waste and recycling facilities within each unit
 - iii) A compost facility in the area adjacent to the northern entrance to the building on Level 1
 - iv) (deleted)
 - v) (deleted)
 - vi) The area to the north of the building, defined by the driveway, the northern boundary and the retaining wall perpendicular to the rear of Unit 5, being made available for communal open space and defined/fenced accordingly
 - vii) An access stair, located wholly above ground or outside the tree protection zone of Tree 2, to allow access to the common area to the east of the northern entrance on Level 1
 - viii) (deleted)

Changes Adjacent to Trees

- e) To ensure the health and integrity of trees to be retained on the subject site, the following clearances are to be applied
 - i) Other than the proposed basement, the northern side of Apartment 5 and the infill of the existing pool, there must be no changes to the existing soil levels (including retaining walls) within a 7.2m radius of Tree 3 and a 4.8m radius of Tree 2
 - ii) (deleted)
 - iii) (deleted)
 - iv) (deleted)
 - v) (deleted)
 - vi) (deleted)
 - vii) The transplanted location of Tree 1 reverting back to its original location, being the area of common private open space to the north/north west of the front northern corner of the building. The proposed external staircase to the north is to be relocated at least 3.0m radius from the base of Tree 1

Landscaping

- f) To improve the landscape character of the site:
 - i) Two additional trees, with a minimum pot size of 75L and mature height of at least 5m, are to be planted forward of the front building line – See Condition E4 for species
 - ii) (deleted)
 - iii) One additional tree must be planted in a 1000 litre container size at the time of planting, anywhere on the property and comprising of any of the following: 1 x *Angophora costata* (Sydney Red Gum) or 1 x *Jacaranda mimosifolia* (Jacaranda) or 1 x *Glochidion fernandi* (Cheese tree).
 - iv) The proposed landscaping is to be of the fast growing advanced species

Documentation

- g) To clarify discrepancies between documentation:
 - i) The Construction Management Plan is to delete any reference to work (or associated activities) occurring after midday on Saturdays
 - ii) The Site Waste Management Plan is to be updated to reflect a more accurate estimation of excavated material being removed from the site

Note: The effect of this condition is that it requires design changes and/or further information to be provided with the *Construction Certificate* drawings and specifications to address specific issues identified during assessment under section 79C of the *Act*.

Note: Clause 146 of the *Regulation* prohibits the issue of any *Construction Certificate* subject to this condition unless the *Certifying Authority* is satisfied that the condition has been complied with.

Note: Clause 145 of the *Regulation* prohibits the issue of any *Construction Certificate* that is inconsistent with this consent.

Standard Condition: C4

The modification of Condition No. C.8:

C.8 BASIX commitments

The *applicant* must submit to the *Certifying Authority* *BASIX Certificate* No. 499165M_02 with any application for a *Construction Certificate*.

Note: Where there is any proposed change in the BASIX commitments the applicant must submit of a new *BASIX Certificate* to the *Certifying Authority* and Council. If any proposed change in the BASIX commitments are inconsistent with development consent (See: Clauses 145 and 146 of the *Regulation*) the applicant will be required to submit an amended development application to *Council* pursuant to section 96 of the *Act*.

All commitments in the *BASIX Certificate* must be shown on the *Construction Certificate* plans and specifications prior to the issue of any *Construction Certificate*.

Note: Clause 145(1)(a1) of the *Environmental Planning & Assessment Regulation 2000* provides: "A certifying authority must not issue a construction certificate for building work unless it is satisfied of the following matters: (a1) that the plans and specifications for the building include such matters as each relevant BASIX certificate requires,"

Standard Condition: C7

The deletion of Condition Nos. C.10, C.15 and C.16.

The modification of Condition Nos. C.20 and C.23:

C.20 Geotechnical and Hydrogeological Design, Certification & Monitoring

The *Construction Certificate* plans and specification required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation* must be accompanied by a *Geotechnical / Hydrogeological Monitoring Program* together with civil and structural engineering details for foundation retaining walls, footings, basement tanking, and subsoil drainage systems, as applicable, prepared by a *professional engineer*, who is suitably qualified and experienced in geotechnical and hydrogeological engineering. These details must be certified by the *professional engineer* to:

- a) Provide appropriate support and retention to ensure there will be no ground settlement or movement, during excavation or after construction, sufficient to cause an adverse impact on adjoining property or public infrastructure.

- b) Provide appropriate support and retention to ensure there will be no adverse impact on surrounding property or infrastructure as a result of changes in local hydrogeology (behaviour of groundwater).
- c) (deleted)
- d) (deleted)
- e) Provide a Geotechnical and Hydrogeological Monitoring Program that:
 - Will detect any settlement associated with temporary and permanent works and structures;
 - Will detect deflection or movement of temporary and permanent retaining structures (foundation walls, shoring bracing or the like);
 - Will detect vibration in accordance with AS 2187.2-1993 Appendix J including acceptable velocity of vibration (peak particle velocity);
 - Will detect groundwater changes calibrated against natural groundwater variations;
 - Details the location and type of monitoring systems to be utilised;
 - Details the preset acceptable limits for peak particle velocity and ground water fluctuations;
 - Details recommended hold points to allow for the inspection and certification of geotechnical and hydro-geological measures by the professional engineer; and;
 - Details a contingency plan.

Standard Condition: C40

C.23 Stormwater management plan

The *Construction Certificate* plans and specifications, required by clause 139 of the *Regulation*, must include a *Stormwater Management Plan* for the site. It must detail:

- a) General design in accordance with Stormwater disposal concept plan No. H-DA-00 to H-DA-02, prepared by ITM Design and dated 2 September 2013, as amended by this and any other conditions, including the construction of approximately 50m of in-ground 375mm diameter stormwater pipeline. The new pipeline is to connect between Council's existing stormwater pit at 529 New South Head Road and the new stormwater pit fronting the site.
- b) The discharge of stormwater, by direct connection, to New South Head Road
- c) Compliance the objectives and performance requirements of the BCA;
- d) Any rainwater tank required by BASIX commitments including their overflow connection to the *Stormwater Drainage System*, and
- e) General compliance with the Council's draft Development Control Plan Stormwater Drainage Management (Draft Version 1.1, Public Exhibition Copy dated 14 December 2006), and
- f) (deleted)

Layout plan

A detailed drainage plan at a scale of 1:100 based on drainage calculations prepared in accordance with the Institute of Engineers Australia publication, *Australian Rainfall and Run-off, 1987* edition or most current version thereof is to be prepared. It must include:

- a) All pipe layouts, dimensions, grades, lengths and material specification,
- b) Location of On-Site Detention,
- c) All invert levels reduced to Australian Height Datum (AHD),
- d) Location and dimensions of all drainage pits,

- e) Point and method of connection to Councils drainage infrastructure, and
- f) Overland flow paths over impervious areas.

Note: This Condition is imposed to ensure that site stormwater is disposed of in a controlled and sustainable manner.

Note: The collection, storage and use of rainwater is to be in accordance with *Standards Australia HB230-2008 "Rainwater Tank Design and Installation Handbook"*.
Standard Condition: C51

The retention of Condition No. D.13.

The modification of Condition Nos. E.2 and E.3:

E.2 Hand excavation within tree root zones

Excavation undertaken within the specified radius from the trunks of the following trees shall be undertaken using non- destructive machinery and tools.

Ref No	Species	Radius from Trunk
2	<i>Eucalyptus saligna</i> (Sydney Blue Gum)	4.5 metres
3	<i>Araucaria columnaris</i> (Cook Island Pine)	4 metres
4	<i>Eucalyptus microcorys</i> (Tallowood)	7.8 metres
5		8 metres

Small hand tools such as mattocks or using compressed air or water jetting only shall be used. Roots with a diameter equal to or in excess of 30mm shall not be severed or damaged unless approved in writing by the project arborist.

Mechanical excavation is permitted beyond this radius when root pruning by hand along the perimeter line is completed. Exposed roots to be retained shall be covered with mulch or a geotextile fabric and kept in a moist condition and prevented from drying out.

All root pruning must be undertaken in accordance with the Australian Standard 4373 "Pruning of Amenity Trees" and carried out by a qualified Arborist (minimum qualification of Australian Qualification Framework Level 4 or recognised equivalent).

The project arborist shall document compliance with the above condition.

E.3 Replacement/Supplementary trees which must be planted

Any replacement or supplementary tree shall be grown in accordance with NATSPEC Specifying Trees. The replacement tree shall be maintained in a healthy and vigorous condition. If the replacement tree is found to be faulty, damaged, dying or dead before it attains a size whereby it is protected by Council’s Tree Preservation Order, it must be replaced with another of the same species which complies with the criteria outlined below.

Species/Type	Planting Location	Container Size/Size of Tree (when planting)	Min Dimensions at Maturity
2 x <i>Tristanopsis laurina</i> (Water Gum) or <i>Elaeocarpus reticulatus</i> (Blueberry Ash)	Forward of the Front Building Line	75L	5 metres
1 x <i>Angophora costata</i> (Sydney Red Gum) or 1 x <i>Jacaranda mimosifolia</i> (Jacaranda) or 1 x <i>Glochidion fernandi</i> (Cheese tree)	Anywhere on the property	1000L	

The deletion of Condition Nos. E.27 and F.2.**The modification of Condition No. H.2:****H.2 Fulfillment of BASIX commitments – Clause 154B of the Regulation**

All BASIX commitments must be effected in accordance with the BASIX Certificate No. 499165M_02.

Note: Clause 154B(2) of the Environmental Planning & Assessment Regulation 2000 provides: "A *certifying authority* must not issue a final occupation certificate for a BASIX affected building to which this clause applies unless it is satisfied that each of the commitments whose fulfilment it is required to monitor has been fulfilled."

Standard Condition: H7

The deletion of Condition No. I.2.**The modification of Condition No. I.5:****I.5 Maintenance of BASIX commitments**

All BASIX commitments must be maintained in accordance with the BASIX Certificate No. 499165M_02.

Note: This condition affects successors in title with the intent that environmental sustainability measures must be maintained for the life of development under this consent.

Standard Condition: I7

The deletion of Condition No. I.9.**The addition of Condition No. I.11:****I.11 Service Balconies**

The service balconies on all levels of each balcony are to be non-trafficable ie no access is available for residents, except for maintenance purposes.

The deletion of Condition No. K.14.

Note: In accordance with section 375A of the Local Government Act a Division of votes is recorded on this planning matter.

For the Motion

Councillor Bennett
Councillor Elsing
Councillor Levenston
Councillor Wise
Councillor Zeltzer

Against the Motion

Councillor Marano

D5 DA218/2014 - 9-11 Glenmore Road, Paddington (Durty Nelly's Hotel) – Internal & external alterations & additions to Durty Nelly's Hotel – 27/5/2014

Note: Late correspondence was tabled by Council's Senior Assessment Officer, Larissa Holbert.

Note: Consultant Planner for the Applicant addressed the Committee.

Note: The Committee added new Condition No. I.20 (Internal Door between 1st Floor & Ground Floor).

(Elsing/Zeltzer)

Resolved: Pursuant to Section 80(1) of the Environmental Planning and Assessment Act 1979

THAT the Council, as the consent authority, grant development consent to Development Application No. 218/2014 for internal and external alterations and additions to Durty Nelly's Bar on land at 9-11 Glenmore Road Paddington, subject to the following conditions:

A. General Conditions**A.1 Conditions**

Consent is granted subject to the following conditions imposed pursuant to section 80 of the Environmental Planning & Assessment Act 1979 ("the *Act*") and the provisions of the Environmental Planning and Assessment Regulation 2000 ("the *Regulation*") such conditions being reasonable and relevant to the development as assessed pursuant to section 79C of the Act.

Standard Condition: A1

A.2 Definitions

Unless specified otherwise words have the same meaning as defined by the *Act*, the *Regulation* and the *Interpretation Act 1987* as in force at the date of consent.

Applicant means the applicant for this Consent.

Approved Plans mean the plans endorsed by Council referenced by this consent as amended by conditions of this consent.

AS or ***AS/NZS*** means Australian Standard® or Australian/New Zealand Standard®, respectively, published by Standards Australia International Limited.

BCA means the Building Code of Australia as published by the Australian Building Codes Board as in force at the date of issue of any *Construction Certificate*.

Council means Woollahra Municipal Council

Court means the Land and Environment Court

Local native plants means species of native plant endemic to Sydney's eastern suburbs (see the brochure titled "Local Native Plants for Sydney's Eastern Suburbs published by the Southern Sydney Regional Organisation of Councils).

Stormwater Drainage System means all works, facilities and documentation relating to:

- The collection of stormwater,
- The retention of stormwater,
- The reuse of stormwater,
- The detention of stormwater,
- The controlled release of stormwater; and
- Connections to easements and public stormwater systems.

Owner means the owner of the *site* and successors in title to the *site*.

Owner Builder has the same meaning as in the *Home Building Act 1989*.

PCA means the *Principal Certifying Authority* under the *Act*.

Principal Contractor has the same meaning as in the *Act* or where a *principal contractor* has not been appointed by the *owner* of the land being developed *Principal Contractor* means the *owner* of the land being developed.

Professional Engineer has the same meaning as in the *BCA*.

Public Place has the same meaning as in the *Local Government Act 1993*.

Road has the same mean as in the *Roads Act 1993*.

SEE means the final version of the Statement of Environmental Effects lodged by the *Applicant*.

Site means the land being developed subject to this consent.

WLEP 1995 means *Woollahra Local Environmental Plan 1995*

Work for the purposes of this consent means:

- the use of land in connection with development,
- the subdivision of land,
- the erection of a building,
- the carrying out of any work,
- the use of any site crane, machine, article, material, or thing,
- the storage of waste, materials, site crane, machine, article, material, or thing,
- the demolition of a building,
- the piling, piercing, cutting, boring, drilling, rock breaking, rock sawing or excavation of land,
- the delivery to or removal from the *site* of any machine, article, material, or thing, or
- the occupation of the *site* by any person unless authorised by an *occupation certificate*.

Note: Interpretation of Conditions - Where there is any need to obtain an interpretation of the intent of any condition this must be done in writing to Council and confirmed in writing by Council.

Standard Condition: A2

A.3 Approved Plans and supporting documents

Those with the benefit of this consent must carry out all work and maintain the use and works in accordance with the plans and supporting documents listed below as submitted by the Applicant and to which is affixed a Council stamp "Approved DA Plans" unless modified by any following condition. Where the plans relate to alterations or additions only those works shown in colour or highlighted are approved.

Reference	Description	Author/Drawn	Date(s)
DA-100, DA202, DA203 Issue B DA101, DA204 Issue C	Architectural Plans	Alexander & Co	21/10/2014
N/A	Plan of Management	Submitted by Alexander & Co	Date received 20/06/2014

Note: Warning to Accredited Certifiers – You should always insist on sighting the original Council stamped approved plans. You should not rely solely upon the plan reference numbers in this condition. Should the applicant not be able to provide you with the original copy Council will provide you with access to its files so you may review our original copy of the approved plan.

Note: These plans and supporting documentation may be subject to conditions imposed under section 80A(1)(g) of the *Act* modifying or amending the development (refer to conditions which must be satisfied prior to the issue of any *Construction Certificate*.)
Standard Condition: A5

A.4 Ancillary Aspect of the Development (s80A(2) of the Act)

The owner must procure the repair, replacement or rebuilding of all road pavement, kerb, gutter, footway, footpaths adjoining the site or damaged as a result of work under this consent or as a consequence of work under this consent. Such work must be undertaken to Council's satisfaction in accordance with Council's "Specification for Roadworks, Drainage and Miscellaneous Works" dated February 2012 unless expressly provided otherwise by these conditions at the *owner's* expense.

Note: This condition does not affect the *principal contractor's* or any sub-contractors obligations to protect and preserve public infrastructure from damage or affect their liability for any damage that occurs.
Standard Condition: A8

B. Conditions which must be satisfied prior to the demolition of any building or construction

B.1 Construction Certificate required prior to any demolition

Where demolition is associated with an altered portion of, or an extension to an existing building the demolition of any part of a building is "commencement of erection of building" pursuant to section 81A(2) of the *Act*. In such circumstance all conditions in Part C and Part D of this consent must be satisfied prior to any demolition work. This includes, but is not limited to, the issue of a Construction Certificate, appointment of a PCA and Notice of Commencement under the *Act*.

Note: See *Over our Dead Body Society Inc v Byron Bay Community Association Inc* [2001] NSWLEC 125.
Standard Condition: B1

B.2 Identification of Hazardous Material

In accordance with Australian Standard AS2601- 'The Demolition of Structures' the owner shall identify all hazardous substances located on the site including asbestos, Polychlorinated biphenyls (PCBs), lead paint, underground storage tanks, chemicals, etc. per Clause 1.6.1 of the Standard. In this regard, **prior to the commencement of any work**, Council shall be provided with a written report prepared by a suitably qualified competent person detailing;

- all hazardous materials identified on the site;
- the specific location of all hazardous materials identified;
- whether the hazardous materials are to be removed from the site as part of the works to be undertaken; and
- safety measures to be put in place.

Note: This condition is imposed to protect the health and safety of all persons while works are being undertaken and to ensure all safety measures have been identified and are in place to protect all parties in the immediate vicinity of the site.

Standard Condition: B6

B.3 Public Road Assets prior to any work/demolition

To clarify the condition of the existing public infrastructure prior to the commencement of any development (including prior to any demolition), the *Applicant* or *Owner* must submit to Council a full record of the condition of the Public Road infrastructure adjacent to the development site.

The report must be submitted to Council prior to the commencement of any work and include photographs showing current condition and any existing damage fronting and adjoining the site to the:

- road pavement,
- kerb and gutter,
- footway including footpath pavement and driveways,
- retaining walls within the footway or road, and
- drainage structures/pits.

The reports are to be supplied in both paper copy and electronic format in Word. Photographs are to be in colour, digital and date stamped.

If the required report is not submitted then Council will assume there was no damage to any infrastructure in the immediate vicinity of the site prior to the commencement of any work under this consent.

Note: If the Applicant or Owner fails to submit the Asset condition report required by this condition and damage is occasioned to public assets adjoining the site, Council will deduct from security any costs associated with remedying, repairing or replacing damaged public infrastructure. Nothing in this condition prevents Council making any claim against security held for this purpose

Standard Condition: B7

C. Conditions which must be satisfied prior to the issue of any construction certificate**C.1 Modification of details of the development (s80A(1)(g) of the Act)**

The *approved plans* and the *Construction Certificate* plans and specification, required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation*, must detail the following amendments:

a. Doors and windows

To protect the significance of the heritage listed building, the character of the Paddington Conservation Area and to comply with clause 2(1)(g) of WLEP, 1995 and Objective O1 and Control C1 of Part 4.3.8 of the PHCADCP, 2008 the proposed concertina doors to the Glenmore Road elevation shall be deleted. Paint finished timber bi-fold windows with a sill height equal to the mid rail height of the existing doors located to the north of the proposed opening may be installed in place of these concertina doors.

b. Doors and windows

To protect the significance of the heritage listed building, the character of the Paddington Conservation Area and to comply with clause 2(1)(g) of WLEP, 1995 and Objective O1 and Control C1 of Part 4.3.8 of the PHCADCP, 2008 the proposed external doors to the corner of Glenmore Road and Gipps Street shall be paint finished timber, with a transom window, frame and stile detailing similar to the existing doors to the northern end of the Glenmore Road elevation.

c. Doors and windows

To protect the significance of the heritage listed building, the character of the Paddington Conservation Area and to comply with clause 2(1)(g) of WLEP, 1995 and Objective O1 and Control C1 of Part 4.3.8 of the PHCADCP, 2008 all new windows and doors shall be painted finished timber.

d. Awning

To protect the significance of the heritage listed building, the character of the Paddington Conservation Area and to comply with clause 2(2)(g) of WLEP, 1995 and Objective O1 and Control C3 of Part 4.3.8 of the PHCADCP, 2008 the proposed awning to the Glenmore Road elevation shall be deleted and the existing awning in this location shall be removed.

e. Structural Ceiling

In order to protect the highly significant pressed metal ceilings, details of the proposed structural solution that would be required to facilitate the removal of the existing internal column and any resulting modifications or additions to these ceilings shall be submitted and approved by Council prior to the issue of a Construction Certificate.

f. Exterior Paint Scheme

To protect the significance of the heritage listed building and the character of the Paddington Conservation Area, no approval to the proposed external paint scheme has been granted. The person operating this consent shall engage a heritage consultant to prepare an interpretative paint and external tile scheme in accordance with physical and documentary evidence of original or early schemes. The scheme shall be submitted and approved by Council prior to the issue of a Construction Certificate.

g. Interior Paint Scheme

To protect the significance of the heritage listed building and the character of the Paddington Conservation Area An interior paint scheme shall be prepared. This paint scheme shall be submitted and approved by Council prior to the issue of a Construction Certificate.

h. Signage Details

To protect the significance of the heritage listed building and the character of the Paddington Conservation Area Signage details in the form of general graphic layout, colours and font shall be submitted and approved by Council prior to the issue of a Construction Certificate. The colours and lettering of the signs should be historically referential to accord with Controls 9 and 10 of Part 4.2.10 of the PHCADCP, 2008.

Note: The effect of this condition is that it requires design changes and/or further information to be provided with the *Construction Certificate* drawings and specifications to address specific issues identified during assessment under section 79C of the *Act*.

Note: Clause 146 of the *Regulation* prohibits the issue of any *Construction Certificate* subject to this condition unless the *Certifying Authority* is satisfied that the condition has been complied with.

Note: Clause 145 of the *Regulation* prohibits the issue of any *Construction Certificate* that is inconsistent with this consent.

Standard Condition: C4

C.2 Payment of Long Service Levy, Security, Contributions and Fees

The certifying authority must not issue any *Part 4A Certificate* until provided with the original receipt(s) for the payment of all of the following levy, security, contributions, and fees prior to the issue of a *construction certificate, subdivision certificate or occupation certificate*, as will apply.

Description	Amount	Indexed	Council Fee Code

Property Damage Security Deposit -making good any damage caused to any property of the <i>Council</i>	\$14,266	No	T115

DEVELOPMENT LEVY			
under Woollahra Section 94A Development Contributions Plan 2011 This plan may be inspected at Woollahra Council or downloaded at www.woollahra.nsw.gov.au .			
Development Levy (Section 94A)	\$5457.24 + Index Amount	Yes, quarterly	T96
INSPECTION FEES			
under Section 608 of the Local Government Act 1993			
Security Administration Fee	\$185	No	T16
TOTAL SECURITY, CONTRIBUTIONS, LEVIES AND FEES	\$19,908.24 plus any relevant indexed amounts and long service levy		

Building and Construction Industry Long Service Payment

The Long Service Levy under Section 34 of the *Building and Construction Industry Long Service Payment Act*, 1986, must be paid and proof of payment provided to the *Certifying Authority* prior to the issue of any *Construction Certificate*. The Levy can be paid directly to the Long Services Payments Corporation or to Council. Further information can be obtained from the Long Service Payments Corporation's website <http://www.lspc.nsw.gov.au/> or the Long Service Payments Corporation on 13 14 41.

How must the payments be made?

Payments must be made by:

- Cash deposit with Council,
- Credit card payment with Council, or
- Bank cheque made payable to Woollahra Municipal Council.

The payment of a security may be made by a bank guarantee where:

- The guarantee is by an Australian bank for the amount of the total outstanding contribution;
- The bank unconditionally agrees to pay the guaranteed sum to the Council on written request by Council on completion of the development or no earlier than 12 months from the provision of the guarantee whichever occurs first [NOTE: a time limited bank guarantee or a bank guarantee with an expiry date is not acceptable];
- The bank agrees to pay the guaranteed sum without reference to the applicant or landowner or other person who provided the guarantee and without regard to any dispute, controversy, issue or other matter relating to the development consent or the carrying out of development in accordance with the development consent;
- The bank guarantee is lodged with the Council prior to the issue of the construction certificate; and
- The bank's obligations are discharged when payment to the Council is made in accordance with the guarantee or when Council notifies the bank in writing that the guarantee is no longer required.

How will the section 94A levy be indexed?

To ensure that the value the development levy is not eroded over time by increases in costs, the proposed cost of carrying out development (from which the development levy is calculated) will be indexed either annually or quarterly (see table above). Clause 3.13 of the Woollahra Section 94A Development Contributions Plan 2011 sets out the formula and index to be used in adjusting the s.94A levy.

Do you need HELP indexing the levy?

Please contact our customer service officers. Failure to correctly calculate the adjusted development levy will delay the issue of any Part 4A Certificate and could void any Part 4A Certificate (construction certificate, subdivision certificate, or occupation certificate).

Deferred or periodic payment of section 94A levy under the Woollahra Section 94A Development Contributions Plan 2011

Where the applicant makes a written request supported by reasons for payment of the section 94A levy other than as required by clause 3.9, the Council may accept deferred or periodic payment. The decision to accept a deferred or periodic payment is at the sole discretion of the Council, which will consider:

- The reasons given;
- Whether any prejudice will be caused to the community deriving benefit from the public facilities;

- Whether any prejudice will be caused to the efficacy and operation of the plan; and
- Whether the provision of public facilities in accordance with the adopted works schedule will be adversely affected.

Council may, as a condition of accepting deferred or periodic payment, require the provision of a bank guarantee where:

- The guarantee is by an Australian bank for the amount of the total outstanding contribution;
- The bank unconditionally agrees to pay the guaranteed sum to the Council on written request by Council on completion of the development or no earlier than 12 months from the provision of the guarantee whichever occurs first [NOTE: a time limited bank guarantee or a bank guarantee with an expiry date is not acceptable];
- The bank agrees to pay the guaranteed sum without reference to the applicant or landowner or other person who provided the guarantee and without regard to any dispute, controversy, issue or other matter relating to the development consent or the carrying out of development in accordance with the development consent;
- The bank guarantee is lodged with the Council prior to the issue of the construction certificate; and
- The bank's obligations are discharged when payment to the Council is made in accordance with the guarantee or when Council notifies the bank in writing that the guarantee is no longer required.

Any deferred or periodic payment of the section 94A levy will be adjusted in accordance with clause 3.13 of the plan. The applicant will be required to pay any charges associated with establishing or operating the bank guarantee. Council will not cancel the bank guarantee until the outstanding contribution as indexed and any accrued charges are paid.

Standard Condition: C5

C.3 Alignment Levels

The *Construction Certificate* plans and specifications required by clause 139 of the Regulation, must include detailed plans and specifications to comply with the following requirements:

- a) The alignment levels at the boundary along Gipps Street must not be changed or modified without Council's consent.
- b) All works for the proposed pedestrian access must be carried out wholly within the property boundary.
- c) The pedestrian ramp must be constructed in a contrasting colour to delineate between Council land and private property.

C.4 Building upgrade (Clause 94 of the Regulation)

Council considers pursuant to clause 94 of the *Regulation* that it is appropriate to require the existing building to be brought into total or partial conformity with the *BCA*.

The *Construction Certificate* plans and specification required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation* must detail building upgrade works required by this condition.

The *Certifying Authority* must be satisfied that such work, to be implemented as part of the development, will upgrade the building to bring it into compliance with the following provisions of the *BCA* as in force at the date of the *Construction Certificate* application:

- a) That the ground floor shall have one (1) metre wide passageways (paths of travel) to the exit doors which shall be maintained at all times in accordance with the requirements of Clause D1.6 of the *BCA*;

- b) That the exit doors shall swing in the direction of egress complying with the requirements of D2.20 of the BCA. The doors shall be operable by single handed downward action or pushing action in accordance with the requirements of D2.21 of the BCA and shall not encroach the street alignment or an alternative solution shall be proposed by a C10 accredited fire engineer complying with performance requirements DP2, DP4 & DP6 of the BCA;
- c) That exit signs shall be installed above all required exit doors. Signs shall be illuminated at all times and generally be of sufficient number that direction of travel to all exits is clearly visible from any part of the major egress routes. Exit signs shall be installed to the standard expressed in Clauses E4.5, E4.6 and E4.8 of the BCA;

Note: The *Certifying Authority* issuing the *Construction Certificate* has no power to remove the requirement to upgrade the existing building as required by this condition. Where this condition specifies compliance with performance requirements of the *BCA* the *Certifying Authority*, subject to their level of accreditation, may be satisfied as to such matters. Where this condition specifies compliance with prescriptive (deemed to satisfied) provisions of the *BCA* these prescriptive requirements must be satisfied and cannot be varied unless this condition is reviewed under section 82A or amended under section 96 of the *Act*.

Note: This condition does not set aside the *Certifying Authorities* responsibility to ensure compliance with clause 143 of the *Regulation* in relation to Fire Protection and Structural Adequacy.

Note: AS 4655 *Guidelines for fire safety audits for buildings* (or any succeeding AS) should form the basis of any fire upgrade report.

Standard Condition: C10

C.5 Light & Ventilation

The *Construction Certificate* plans and specifications, required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation*, must detail all a lighting, mechanical ventilation or air-conditioning systems complying with Part F.4 of the *BCA* or clause 3.8.4 and 3.8.5 of the *BCA* Housing Provisions, inclusive of [AS 1668.1](#), [AS 1668.2](#) and [AS/NZS 3666.1](#). If an alternate solution is proposed then the *Construction Certificate* application must include a statement as to how the performance requirements of the *BCA* are to be complied with and support the performance based solution by expert *evidence of suitability*. This condition does not set aside the mandatory requirements of the *Public Health (Microbial Control) Regulation 2000* in relation to *regulated systems*. This condition does not set aside the effect of the *Protection of the Environment Operations Act 1997* in relation to offensive noise or odour.

Note: Clause 98 of the *Regulation* requires compliance with the *BCA*. Clause 145 of the *Regulation* prevents the issue of a *Construction Certificate* unless the *Accredited Certifier/Council* is satisfied that compliance has been achieved. Schedule 1, Part 3 of the *Regulation* details what information must be submitted with any *Construction Certificate*. It is the Applicant's responsibility to demonstrate compliance through the *Construction Certificate* application process. Applicants must also consider possible noise and odour nuisances that may arise. The provisions of the *Protection of the Environment Operations Act 1997* have overriding effect if offensive noise or odour arises from the use. Applicant's must pay attention to the location of air intakes and air exhausts relative to sources of potentially contaminated air and neighbouring windows and air intakes respectively, see section 2 and 3 of [AS 1668.2](#).

Standard Condition C59

C.6 Food Premises – Construction Certificate Plans & Specifications

The person with the benefit of this consent must submit to Council details for the construction and fit out of food premises. Such details must demonstrate compliance with the *Food Act 2003*, *Food Regulation 2004*; the *Food Standards Code* as published by Food Standards Australia and New Zealand and Australian Standard AS 4674-2004: *Construction and fit out of food premises*.

No *Construction Certificate* relating to the construction or fitout of food premises must be issued until Council's Environmental Health Officers' have advised in writing that the plans and specification are considered satisfactory.

The details for the construction and fit out of food premises, as considered satisfactory by Council's Environmental Health Officers' must form part of any *Construction Certificate*.

Note: The assessment of food premises fitout plans and specifications is subject to an adopted fee. The construction and fitout of food premises is not listed under clause 161 of the *Environmental Planning & Assessment Regulation 2000* as a matter that a *Certifying Authority* may be satisfied as to. Hence, the detailed plans & specifications must be referred to Council and be to Council's satisfaction prior to the issue of any *Construction Certificate* for such works.
Standard Condition: C65

C.7 Ventilation - Internal Sanitary Rooms

All internal sanitary rooms and laundry facilities not provided with natural ventilation must be provided with a system of mechanical exhaust ventilation in accordance with *Table B1 Minimum Exhaust Ventilation Flow Rates of AS 1668.2-1991*. Details of any proposed mechanical ventilation system(s) being submitted with the Construction Certificate plans and specifications, required to be submitted to the Certifying Authority demonstrating compliance with AS 1668 Parts 1 & 2.

D. Conditions which must be satisfied prior to the commencement of any development work

D.1 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

For the purposes of section 80A (11) of the Act, the following conditions are prescribed in relation to a development consent for development that involves any building work:

- a) that the work must be carried out in accordance with the requirements of the Building Code of Australia,
- b) in the case of residential building work for which *the Home Building Act 1989* requires there to be a contract of insurance in force in accordance with Part 6 of that Act, that such a contract of insurance is in force before any building work authorised to be carried out by the consent commences.

This condition does not apply:

- a) to the extent to which an exemption is in force under *the Home Building Regulation 2004*,
- b) to the erection of a temporary building.

In this condition, a reference to the *BCA* is a reference to that code as in force on the date the application for the relevant construction certificate is made.

Note: This condition must be satisfied prior to commencement of any work in relation to the contract of insurance under the Home Building Act 1989. This condition also has effect during the carrying out of all building work with respect to compliance with the Building Code of Australia.

Note: All new guttering is to comply with the provisions of Part 3.5.2 of the Building Code of Australia.
Standard Condition: D1

D.2 Construction Management Plan

As a result of the site constraints, limited space and access a Construction Management Plan (CMP) is to be submitted to Council. Also, due to lack of on-street parking a Work Zone may be required during construction.

A CMP must be submitted to and approved by Council's Traffic and Transport Engineer. The plan must be submitted as a self-contained document that outlines the nature of the construction project and as applicable, include the following information:-

- a) Detail the scope of the works to be completed including details of the various stages, e.g. Demolition, Excavation, Construction etc. and the duration of each stage.
- b) Identify local traffic routes to be used by construction vehicles.
- c) Identify ways to manage construction works to address impacts on local traffic routes.
- d) Detail how construction workers will travel to and from the site and parking arrangements for those that drive.
- e) Identify any proposed road closures, temporary traffic routes, loss of pedestrian or cyclist access or reversing manoeuvres onto a public road and provide Traffic Control Plans (TCPs) prepared by an accredited RMS Red or Orange card holder to manage these temporary changes.
- f) Detail the size (including dimensions), numbers and frequency of arrival of the construction vehicles that will service the site for each stage of works.
- g) Provide for the standing of vehicles during construction.
- h) If construction vehicles are to be accommodated on the site, provide a scaled drawing showing where these vehicles will stand and the vehicle swept path to show that these vehicles can access and egress the site in a forward direction (including dimensions and all adjacent traffic control devices, such as parking restrictions, pedestrian facilities, kerb extensions, etc.).
- i) If trucks are to be accommodated on Council property, provide a scaled drawing showing the location of any proposed Works Zone (including dimensions and all adjacent traffic control devices, such as parking restrictions, pedestrian facilities, kerb extensions, etc.).
- j) Show the location of any site sheds and any anticipated use of cranes and concrete pumps and identify the relevant permits that will be required.
- k) If a crane/s are to be accommodated on site, detail how the crane/s will be erected and removed, including the location, number and size of vehicles involved in the erection/removal of the crane/s, the duration of the operation and the proposed day and times, any full or partial road closures required to erect or remove the crane/s and appropriate Traffic Control Plans (TCPs) prepared by an approved RMS Red or Orange Card holder.
- l) Make provision for all materials, plant, etc. to be stored within the development site at all times during construction.
- m) State that any oversized vehicles proposed to operate on Council property (including Council approved Works Zones) will attain a Permit to Stand Plant on each occasion? (Note: Oversized vehicles are vehicles longer than 7.5m or heavier than 4.5T.
- n) Show the location of any proposed excavation and estimated volumes.
- o) When excavation works are to be undertaken on school days, all vehicular movements associated with this work shall only be undertaken between the hours of 9.30am and 2.30pm, in order to minimise disruption to the traffic network during school pick up and drop off times.

- p) Show the location of all Tree Protection (Exclusion) zones (Note: storage of building materials or access through Reserve will not be permitted without prior approval by Council).

Note: A minimum of eight weeks will be required for assessment. Work must not commence until the Construction Management Plan is approved. Failure to comply with this condition may result in fines and proceedings to stop work.
Standard Condition: D9

D.3 Works (Construction) Zone – Approval & Implementation

A works zone is required for this development. The *principal contractor* or *owner* must apply for a works zone. If the works zone is approved the *principal contractor* or *owner* must pay all fees for and implement the required works zone before commencement of any work.

The *principal contractor* must pay all fees associated with the application and occupation and use of the road as a works zone. All works zone signs must have been erected by Council to permit enforcement of the works zone by Rangers and Police before commencement of any work. Signs are not erected until full payment of works zone fees.

Note: The *principal contractor* or *owner* must allow not less than four to six weeks (for routine applications) from the date of making an application to the Traffic Committee (Woollahra Local Traffic Committee) constituted under the Clause 22 of the *Transport Administration (General) Regulation 2000* to exercise those functions delegated by the Roads and Traffic Authority under Section 50 of the *Transport Administration Act 1988*.

Note: The enforcement of the works zone is at the discretion of Council's Rangers and the NSW Police Service. The principal contractor must report any breach of the works zone to either Council or the NSW Police Service.
Standard Condition: D10

D.4 Site Signs

The *Principal Contractor* or *owner builder* must ensure that the sign/s required by clauses 98A and 227A of the *Regulation* is/are erected and maintained at all times.

Clause 98A of the Regulation provides:

Erection of signs

- For the purposes of section 80A (11) of the *Act*, the requirements of subclauses (2) and (3) are prescribed as conditions of a development consent for development that involves any building work, subdivision work or demolition work.
- A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - a. showing the name, address and telephone number of the principal certifying authority for the work, and
 - b. showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - c. stating that unauthorised entry to the work site is prohibited.
- Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- This clause does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.
- This clause does not apply in relation to Crown building work that is certified, in accordance with section 116G of the *Act*, to comply with the technical provisions of the State's building laws."

Clause 227A of the Regulation provides:

Signs on development sites

If there is a person who is the PCA or the principal contractor for any building work, subdivision work or demolition work authorised to be carried out on a site by a development consent or complying development certificate:

- Each such person MUST ensure that a rigid and durable sign showing the person's identifying particulars so that they can be read easily by anyone in any public road or other public place adjacent to the site is erected in a prominent position on the site before the commencement of work, and is maintained on the site at all times while this clause applies until the work has been carried out.

Note: Clause 227A imposes a penalty exceeding \$1,000 if these requirements are not complied with.

Note: If *Council* is appointed as the *PCA* it will provide the sign to the *principal contractor* or *owner builder* who must ensure that the sign is erected and maintained as required by Clause 98A and Clause 227A of the *Regulation*.

Standard Condition: D12

D.5 Toilet Facilities

Toilet facilities are to be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided:

- a) must be a standard flushing toilet, and
- b) must be connected to a public sewer, or
- c) if connection to a public sewer is not practicable, to an accredited sewage management facility approved by the council, or
- d) if connection to a public sewer or an accredited sewage management facility is not practicable, to some other sewage management facility approved by the council.

The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced.

In this condition:

accredited sewage management facility means a sewage management facility to which Division 4A of Part 3 of the *Local Government (Approvals) Regulation 1993* applies, being a sewage management facility that is installed or constructed to a design or plan the subject of a certificate of accreditation referred to in clause 95B of the *Local Government (Approvals) Regulation 1993*.

approved by the council means the subject of an approval in force under Division 1 of Part 3 of the *Local Government (Approvals) Regulation 1993*.

public sewer has the same meaning as it has in the *Local Government (Approvals) Regulation 1993*.

sewage management facility has the same meaning as it has in the *Local Government (Approvals) Regulation 1993*.

Note: This condition does not set aside the requirement to comply with Workcover NSW requirements.

Standard Condition: D13

D.6 Erosion and Sediment Controls – Installation

The *principal contractor* or *owner builder* must install and maintain water pollution, erosion and sedimentation controls in accordance with:

- a) The *Soil and Water Management Plan* if required under this consent;
- b) “*Do it Right On Site, Soil and Water Management for the Construction Industry*” published by the Southern Sydney Regional Organisation of Councils, 2001; and
- c) “*Managing Urban Stormwater - Soils and Construction*” published by the NSW Department of Housing 4th Edition” (‘The Blue Book’).

Where there is any conflict The Blue Book takes precedence.

Note: The International Erosion Control Association – Australasia (<http://www.austieca.com.au/>) lists consultant experts who can assist in ensuring compliance with this condition. Where Soil and Water Management Plan is required for larger projects it is recommended that this be produced by a member of the International Erosion Control Association – Australasia.

Note: The “Do it Right On Site, Soil and Water Management for the Construction Industry” publications can be down loaded free of charge from www.woollahra.nsw.gov.au.

Note: A failure to comply with this condition may result in penalty infringement notices, prosecution, notices and orders under the Act and/or the *Protection of the Environment Operations Act 1997* **without any further warning**. It is a criminal offence to cause, permit or allow pollution.

Note: Section 257 of the *Protection of the Environment Operations Act 1997* provides inter alia that “the occupier of premises at or from which any pollution occurs is taken to have caused the pollution”

Warning: Irrespective of this condition any person occupying the site may be subject to proceedings under the *Protection of the Environment Operations Act 1997* where pollution is caused, permitted or allowed as the result of their occupation of the land being developed.

Standard Condition: D14

D.7 Building - Construction Certificate, Appointment of Principal Certifying Authority, Appointment of Principal Contractor and Notice of Commencement (s81A(2) of the Act)

The erection of the building in accordance with this development consent must not be commenced until:

- a) A construction certificate for the building work has been issued by the consent authority, the council (if the council is not the consent authority) or an accredited Certifier, and
- b) The person having the benefit of the development consent has:
 - Appointed a principal certifying authority for the building work, and
 - Notified the principal certifying authority that the person will carry out the building work as an owner-builder, if that is the case, and
- c) the principal certifying authority has, no later than 2 days before the building work commences:
 - Notified the consent authority and the council (if the council is not the consent authority) of his or her appointment, and
 - Notified the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and

- d) The person having the benefit of the development consent, if not carrying out the work as an owner-builder, has:
- Appointed a principal contractor for the building work who must be the holder of a contractor licence if any residential building work is involved, and
 - Notified the principal certifying authority of any such appointment, and
 - Unless that person is the principal contractor, notified the principal contractor of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and
 - Given at least 2 days' notice to the council of the person's intention to commence the erection of the building.

Note: *building* has the same meaning as in section 4 of the *Act* and includes part of a building and any structure or part of a structure.

Note: *new building* has the same meaning as in section 109H of the *Act* and includes an altered portion of, or an extension to, an existing building.

Note: The commencement of demolition works associated with an altered portion of, or an extension to, an existing building is considered to be the commencement of building work requiring compliance with section 82A(2) of the *Act* (including the need for a *Construction Certificate*) prior to any demolition work. See: *Over our Dead Body Society Inc v Byron Bay Community Association Inc* [2001] NSWLEC 125.

Note: *Construction Certificate* Application, *PCA Service Agreement* and *Notice of Commencement* forms can be downloaded from Council's website www.woollahra.nsw.gov.au.

Note: It is an offence for any person to carry out the erection of a *building* in breach of this condition and in breach of section 81A(2) of the *Act*.

Standard Condition: D15

E. Conditions which must be satisfied during any development work

E.1 Compliance with Australian Standard for Demolition

Demolition of buildings and structures must comply with Australian Standard AS 2601—2001: The Demolition of Structures, published by Standards Australia, and as in force at 13 September 2001.

Standard Condition: E2

E.2 Compliance with Construction Management Plan

All development activities and traffic movements must be carried out in accordance with the approved construction management plan. All controls in the Plan must be maintained at all times. A copy of the Plan must be kept on-site at all times and made available to the *PCA* or *Council* on request.

Note: Irrespective of the provisions of the Construction Management Plan the provisions of traffic and parking legislation prevails.

Standard Condition: E3

E.3 Requirement to notify about new evidence

Any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination, heritage significance, threatened species or other relevant matters must be immediately notified to Council and the Principal Certifying Authority..

Standard Condition: E4

E.4 Critical Stage Inspections

Critical stage inspections must be called for by the *principal contractor* or *owner builder* as required by the PCA, any PCA service agreement, the *Act* and the *Regulation*.

Work must not proceed beyond each critical stage until the PCA is satisfied that work is proceeding in accordance with this consent, the Construction Certificate(s) and the *Act*. *critical stage inspections* means the inspections prescribed by the *Regulations* for the purposes of section 109E(3)(d) of the *Act* or as required by the *PCA* and any *PCA Service Agreement*.

Note: The PCA may require inspections beyond mandatory critical stage inspections in order that the PCA be satisfied that work is proceeding in accordance with this consent.

Note: The PCA may, in addition to inspections, require the submission of *Compliance Certificates*, survey reports or evidence of suitability in accordance with Part A2.2 of the BCA in relation to any matter relevant to the development.

Standard Condition: E5

E.5 Hours of Work –Amenity of the neighbourhood

- a) No *work* must take place on any Sunday or public holiday,
- b) No *work* must take place before 7am or after 5pm any weekday,
- c) No *work* must take place before 7am or after 1pm any Saturday,
- d) The following *work* **must not** take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday;
 - i) Piling;
 - ii) Piering;
 - iii) Rock or concrete cutting, boring or drilling;
 - iv) Rock breaking;
 - v) Rock sawing;
 - vi) Jack hammering; or
 - vii) Machine excavation,
- e) No loading or unloading of material or equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday.
- f) No operation of any equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday
- g) No rock excavation being cutting, boring, drilling, breaking, sawing , jack hammering or bulk excavation of rock, must occur without a 15 minute break every hour.

This condition has been imposed to mitigate the impact of work upon the amenity of the neighbourhood. Impact of work includes, but is not limited to, noise, vibration, dust, odour, traffic and parking impacts.

Note: The use of noise and vibration generating plant and equipment and vehicular traffic, including trucks in particular, significantly degrade the amenity of neighbourhoods and more onerous restrictions apply to these activities. This more invasive work generally occurs during the foundation and bulk excavation stages of development. If you are in doubt as to whether or not a particular activity is considered to be subject to the more onerous requirement (9am to 4pm weekdays and 9am to 1pm Saturdays) please consult with Council.

Note: Each and every breach of this condition by any person may be subject to separate penalty infringement notice or prosecution.

- Note:** The delivery and removal of plant, equipment and machinery associated with wide loads subject to RTA and Police restrictions on their movement outside the approved hours of work will be considered on a case by case basis.
- Note:** Compliance with these hours of work does not affect the rights of any person to seek a remedy to offensive noise as defined by the *Protection of the Environment Operations Act 1997*, the *Protection of the Environment Operations (Noise Control) Regulation 2000*.
- Note:** EPA Guidelines can be down loaded from <http://www.epa.nsw.gov.au/noise/nlg.htm>.
- Note:** see http://www.epa.nsw.gov.au/resources/ci_build_sheet7.pdf
Standard Condition: E6

E.6 Public Footpaths – Safety, Access and Maintenance

The *principal contractor* or *owner builder* and any other person acting with the benefit of this consent must:

- a) Not erect or maintain any gate or fence swing out or encroaching upon the road or the footway.
- b) Not use the road or footway for the storage of any article, material, matter, waste or thing.
- c) Not use the road or footway for any *work*.
- d) Keep the road and footway in good repair free of any trip hazard or obstruction.
- e) Not stand any plant and equipment upon the road or footway.
- f) Provide a clear safe pedestrian route a minimum of 1.5m wide.
- g) Protect street name inlays in the footpath which are not to be removed or damaged during development.

This condition does not apply to the extent that a permit or approval exists under the section 73 of the *Road Transport (Safety and Traffic Management) Act 1999*, section 138 of the *Roads Act 1993* or section 94 of the *Local Government Act 1993* except that at all time compliance is required with:

- a) Australian Standard AS 1742 (Set) Manual of uniform traffic control devices and all relevant parts of this set of standards.
- b) Australian Road Rules to the extent they are adopted under the *Road Transport (Safety and Traffic Management) (Road Rules) Regulation 1999*.

Note: Section 73 of the *Road Transport (Safety and Traffic Management) Act 1999* allows the Police to close any road or road related area to traffic during any temporary obstruction or danger to traffic or for any temporary purpose. Any road closure requires Police approval.

Note: Section 138 of the *Roads Act 1993* provides that a person must not:

- erect a structure or carry out a work in, on or over a public road, or
- dig up or disturb the surface of a public road, or
- remove or interfere with a structure, work or tree on a public road, or
- pump water into a public road from any land adjoining the road, or
- connect a road (whether public or private) to a classified road, otherwise than with the consent of the appropriate roads authority.

Note: Section 68 of the *Local Government Act 1993* provides that a person may carry out certain activities only with the prior approval of the council including:

- Part C Management of Waste:
 - a. For fee or reward, transport waste over or under a public place
 - b. Place waste in a public place
 - c. Place a waste storage container in a public place.”

- Part E Public roads:
 - a. Swing or hoist goods across or over any part of a public road by means of a lift, hoist or tackle projecting over the footway
 - b. Expose or allow to be exposed (whether for sale or otherwise) any article in or on or so as to overhang any part of the road or outside a shop window or doorway abutting the road, or hang an article beneath an awning over the road.”
 - c. Any work in, on or over the Road or Footway requires *Council Approval* and in the case of classified roads the NSW Roads and Traffic Authority. Road includes that portion of the road uses as a footway.
Standard Condition: E7

E.7 Placement and use of Skip Bins

The *principal contractor* or *owner builder* must ensure that all waste storage containers, including but not limited to skip bins, must be stored within the site unless:

- a) Activity Approval has been issued by Council under section 94 of the *Local Government Act 1993* to place the waste storage container in a public place, and
- b) Where located on the road it is located only in a positions where a vehicle may lawfully park in accordance with the Australian Road Rules to the extent they are adopted under the *Road Transport (Safety and Traffic Management) (Road Rules) Regulation 1999*.

Note: Waste storage containers must not be located on the footpath without a site specific activity approval. Where such site specific activity approval is granted a 1.5m wide clear path of travel is maintained free of any trip hazards.

Standard Condition: E21

E.8 Prohibition of burning

There must be no burning of any waste or other materials. The burning of CCA (copper chrome arsenate) or PCP (pentachlorophenol) treated timber is prohibited in all parts of NSW.

All burning is prohibited in the Woollahra local government area.

Note: Pursuant to the *Protection of the Environment Operations (Control of Burning) Regulation 2000* all burning (including burning of vegetation and domestic waste) is prohibited except with approval. No approval is granted under this consent for any burning.

Standard Condition: E22

E.9 Dust Mitigation

Dust mitigation must be implemented in accordance with “*Dust Control - Do it right on site*” published by the Southern Sydney Regional Organisation of Councils.

This generally requires:

- a) Dust screens to all hoardings and site fences.
- b) All stockpiles or loose materials to be covered when not being used.
- c) All equipment, where capable, being fitted with dust catchers.
- d) All loose materials being placed bags before placing into waste or skip bins.
- e) All waste and skip bins being kept covered when not being filled or emptied.
- f) The surface of excavation work being kept wet to minimise dust.
- g) Landscaping incorporating trees, dense shrubs and grass being implemented as soon as practically possible to minimise dust.

Note: “Dust Control - Do it right on site” can be down loaded free of charge from Council’s web site

www.woollahra.nsw.gov.au or obtained from Council’s office.

Note: Special precautions must be taken when removing asbestos or lead materials from development sites.

Additional information can be obtained from www.workcover.nsw.gov.au and

www.epa.nsw.gov.au . Other specific condition and advice may apply.

Note: Demolition and construction activities may affect local air quality and contribute to urban air pollution.

The causes are dust, smoke and fumes coming from equipment or activities, and airborne chemicals when spraying for pest management. Precautions must be taken to prevent air pollution.

Standard Condition: E23

E.10 Site waste minimisation and management – Demolition

In order to maximise resource recovery and minimise residual waste from demolition activities:

- a) The provisions of the Site Waste Minimisation and Management Plan (SWMMP) are to be implemented at all times during the course of the work
- b) An area is to be allocated for the storage of materials for use, recycling and disposal (giving consideration to slope, drainage, location of waterways, stormwater outlets, vegetation and access and handling requirements)
- c) Provide separate collection bins and/or areas for the storage of residual waste
- d) Clearly ‘signpost’ the purpose and content of the bins and/or storage areas
- e) Implement measures to prevent damage by the elements, odour, health risks and windborne litter
- f) Minimise site disturbance, limiting unnecessary excavation

When implementing the SWMMP the applicant must ensure:

- a) Footpaths, public reserves and street gutters are not used as places to store demolition waste or materials of any kind without Council approval
- b) Any material moved offsite is transported in accordance with the requirements of the *Protection of the Environment Operations Act (1997)*
- c) Waste is only transported to a place that can lawfully be used as a waste facility
- d) Generation, storage, treatment and disposal of hazardous waste and special waste (including asbestos) is conducted in accordance with relevant waste legislation administered by the EPA and relevant Occupational Health and Safety legislation administered by Workcover NSW
- e) Evidence such as weighbridge dockets and invoices for waste disposal or recycling services are retained

Note: Materials that have an existing reuse or recycling market should not be disposed of in a landfill. Reuse and recycling opportunities are decreased when asbestos is not carefully removed and segregated from other waste streams.

Standard Condition: E31

E.11 Site waste minimisation and management – Construction

In order to maximise resource recovery and minimise residual waste from construction activities:

- a) The provisions of the Site Waste Minimisation and Management Plan (SWMMP) are to be implemented at all times during the course of the work
- b) Arrange for the delivery of materials so that materials are delivered ‘as needed’ to prevent the degradation of materials through weathering and moisture damage

- c) Consider organising to return excess materials to the supplier or manufacturer
- d) Allocate an area for the storage of materials for use, recycling and disposal (considering slope, drainage, location of waterways, stormwater outlets and vegetation)
- e) Clearly 'signpost' the purpose and content of the storage areas
- f) Arrange contractors for the transport, processing and disposal of waste and recycling. Ensure that all contractors are aware of the legal requirements for disposing of waste.
- g) Promote separate collection bins or areas for the storage of residual waste
- h) implement measures to prevent damage by the elements, odour and health risks, and windborne litter
- i) Minimise site disturbance and limit unnecessary excavation
- j) Ensure that all waste is transported to a place that can lawfully be used as a waste facility
- k) Retain all records demonstrating lawful disposal of waste and keep them readily accessible for inspection by regulatory authorities such as council, Department of Environment and Climate Change (DECC) or WorkCover NSW

Standard Condition: E32

E.12 Asbestos Removal

Where hazardous material, including bonded or friable asbestos has been identified in accordance with condition B2 above, and such material must be demolished, disturbed and subsequently removed, all such works must comply with the following criteria:

- be undertaken by contractors who hold a current WorkCover Asbestos or "Demolition Licence" and a current WorkCover "Class 2 (restricted) Asbestos License,
- carried out in accordance with National Occupational Health and Safety Commission (NOHSC): "*Code of Practice for the Safe Removal of Asbestos*",
- No asbestos products may be reused on the site
- No asbestos laden skip or bins shall be left in any public place

Note: This condition is imposed to protect the health and safety of persons working on the site and the public

Standard Condition: E39

E.13 Classification of Hazardous Waste

Prior to the exportation of hazardous waste (including hazardous fill or soil) from the site, the waste materials must be classified in accordance with the provision of the *Protection of the Environment Operations Act 1997* and the NSW DECC *Waste Classification Guidelines, Part1: Classifying Waste* (April 2008).

Note: This condition is imposed to ensure that where hazardous waste will be removed from a site an Asbestos Licensed contractor can definitively determine where the waste may be legally taken for disposal.

Standard Condition: E40

E.14 Disposal of Asbestos and Hazardous Waste

Asbestos and hazardous waste, once classified in accordance with condition E 12 above must only be transported to waste facilities licensed to accept asbestos and appropriate classifications of hazardous waste.

Note: This condition is imposed to ensure that asbestos and other Hazardous waste is disposed of lawfully under the *Protection of the Environment Operations Act 1997* and relevant EPA requirements.

Standard Condition: E41

E.15 Asbestos Removal Signage

Standard commercially manufactured signs containing the words "DANGER ASBESTOS REMOVAL IN PROGRESS" measuring not less than 400mm x 300mm are to be erected in prominent visible positions on the site when asbestos is being removed.

Note: This condition is imposed to ensure awareness of any hazard to the health and safety of persons working on the site and public.
Standard Condition: E42

E.16 Notification of Asbestos Removal

All adjoining properties and those opposite the development site must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification is to identify the licensed asbestos removal contractor and include a contact person for the site together with telephone and facsimile numbers and email addresses.

Note: This condition has been imposed to ensure that local residents are informed and have adequate communication facilitated for incidents of asbestos removal.
Standard Condition: E43

F. Conditions which must be satisfied prior to any occupation or use of the building (Part 4A of the Act and Part 8 Division 3 of the Regulation)

F.1 Occupation Certificate (section 109M of the Act)

A person must not commence occupation or use of the whole or any part of a new building (within the meaning of section 109H (4) of the *Act*) unless an occupation certificate has been issued in relation to the building or part.

Note: New building includes an altered portion of, or an extension to, an existing building.
Standard Condition: F1

F.2 Commissioning and Certification of Systems and Works

The *principal contractor* or *owner builder* must submit to the satisfaction of the *PCA* works-as-executed ("WAE") plans, *Compliance Certificates* and evidence of suitability in accordance with Part A2.2 of the *BCA* confirming that the *works*, as executed and as detailed, comply with the requirement of this consent, the *Act*, the *Regulations*, any relevant *construction certificate*, the *BCA* and relevant *Australian Standards*.

Works-as-executed ("WAE") plans, *Compliance Certificates* and evidence of suitability in accordance with Part A2.2 of the *BCA* must include but may not be limited to:

- a) Certification from the supervising professional engineer that the requirement of the Geotechnical / Hydrogeological conditions and report recommendations were implemented and satisfied during development work.
- b) All flood protection measures.
- c) All garage/car park/basement car park, driveways and access ramps comply with Australian Standard AS 2890.1 – "Off-Street car parking."
- d) All stormwater drainage and storage systems.
- e) All mechanical ventilation systems.
- f) All hydraulic systems.
- g) All structural work.

- h) All acoustic attenuation work.
- i) All waterproofing.
- j) Such further matters as the Principal Certifying Authority may require.

Note: This condition has been imposed to ensure that systems and works as completed meet *development standards* as defined by the *Act*, comply with the *BCA*, comply with this consent and so that a public record of works as executed is maintained.

Note: The *PCA* may require any number of *WAE* plans, certificates, or other evidence of suitability as necessary to confirm compliance with the *Act*, *Regulation*, *Development Standards*, *BCA*, and relevant *Australia Standards*. As a minimum *WAE* plans and certification is required for stormwater drainage and detention, mechanical ventilation work, hydraulic services (including but not limited to fire services).

Note: The *PCA* must submit to Council, with any *Occupation Certificate*, copies of works-as-executed (“*WAE*”) plans, *Compliance Certificates* and evidence of suitability in accordance with Part A2.2 of the *BCA* upon which the *PCA* has relied in issuing any *Occupation Certificate*.

Standard Condition: F7

F.3 Fire Safety Certificates

In the case of a *final occupation certificate* to authorise a person:

- a) to commence occupation or use of a *new building*, or
- b) to commence a change of building use for an existing building,

a *certifying authority* must be satisfied that a final fire safety certificate has been issued for the building.

In the case of an *interim occupation certificate* to authorise a person:

- a) to commence occupation or use of a partially completed *new building*, or
- b) to commence a change of building use for part of an existing building,

a *certifying authority* must be satisfied that a final fire safety certificate or an interim fire safety certificate has been issued for the relevant part of the building.

Note: This condition does not apply to a class 1a or class 10 building within the meaning of clause 167 of the *Regulation*.

Note: In this condition:

interim fire safety certificate has the same meaning as it has in Part 9 of the *Regulation*.

final fire safety certificate has the same meaning as it has in Part 9 of the *Regulation*.

new building has the same meaning as it has in section 109H of the *Act*.

Standard Condition: F4

F.4 Food Premises - Inspection and Registration

Prior to the issue of any *Occupation Certificate* or occupation or use of any food premises:

- a) The *Principal Contractor* or *owner* must arrange an inspection of the fit out of the Food Premises by Council's Environmental Health Officer;
- b) A satisfactory final inspection must have been undertaken by Council's Environmental Health Officer; and
- c) The *owner* or *occupier* must have registered the Food Premises (Notification of conduct under section 100 of the *Food Act 2003*).

Note: Notification can be done on-line [at www.foodnotify.nsw.gov.au](http://www.foodnotify.nsw.gov.au)

Note: Inspections are subject to payment of the adopted inspection fee.

Note: Section 100 of the *Food Act 2003* requires:

“100 Notification of conduct of food businesses

(1) The proprietor of a food business must not conduct the food business unless the proprietor has given written notice, in the approved form, of the information specified in the Food Safety Standards that is to be notified to the appropriate enforcement agency before the business is conducted. Maximum penalty: 500 penalty units in the case of an individual and 2,500 penalty units in the case of a corporation.”

Note: *Accredited Certifiers* are unable to issue *Compliance Certificates* in relation to compliance with the *Food Act 2003*, *Food Regulation 2004*; the Food Standards Code and the Australian Standard AS 4674-2004: *Construction and fit out of food premises*; since these are not matters which an *Accredited Certifier* can be satisfied in relation to under Clause 161 of the *Regulation*. This condition can only be satisfied following an inspection and sign off from Council’s Environmental Health Officers.

Standard Condition: F15

G. Conditions which must be satisfied prior to the issue of any Subdivision Certificate

No relevant

H. Conditions which must be satisfied prior to the issue of a Final Occupation Certificate (s109C(1)(c))

H.1 Removal of Ancillary Works and Structures

The *principal contractor* or *owner* must remove from the land and any adjoining public place:

- a) The site sign;
- b) Ablutions;
- c) Hoarding;
- d) Scaffolding; and
- e) Waste materials, matter, article or thing.

Note: This condition has been imposed to ensure that all ancillary matter is removed prior to the issue of the *Final Occupation Certificate*.

Standard Condition: H12

H.2 Road Works (including footpaths)

The following works must be completed to the satisfaction of Council, in accordance with the *Roads Act 1993* approvals and comply with Council’s “*Specification for Roadworks, Drainage and Miscellaneous Works*” dated February 2012 unless expressly provided otherwise by these conditions at the *principal contractor’s* or *owner’s* expense:

- a) Stormwater pipes, pits and connections to public stormwater systems within the *road*;
- b) Driveways and vehicular crossings within the *road*;
- c) Removal of redundant driveways and vehicular crossings;
- d) New footpaths within the *road*;
- e) Relocation of existing power/light pole
- f) relocation/provision of street signs
- g) New or replacement street trees;
- h) New footway verges, where a grass verge exists, the balance of the area between the footpath and the kerb or site boundary over the full frontage of the proposed development must be turfed. The grass verge must be constructed to contain a uniform minimum 75mm of friable growing medium and have a total cover of turf predominant within the street.

- i) New or reinstated kerb and guttering within the *road*; and
- j) New or reinstated road surface pavement within the *road*.

Note: Security held by Council pursuant to section 80A(6) of the Act will not be release by Council until compliance has been achieved with this condition. An application for refund of security must be submitted with the *Final Occupation Certificate* to Council. This form can be downloaded from Council's website www.woollahra.nsw.gov.au or obtained from Council's customer service centre.
Standard Condition: H13

I. Conditions which must be satisfied during the ongoing use of the development

I.1 Hours of use

The hours of use are limited to the following:

- a) Monday to Saturdays: 11am to 12am (midnight)
- b) Sundays: 12pm (noon) to 10pm

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.

Note: Deliveries to or dispatches from the site must not be made outside these hours. Trading Hours may be more onerous than these general hours of use. This condition does not apply to activities such as cleaning which takes place wholly within the building and which are not audible within any adjoining residential dwelling. If internal activities are audible within any adjoining residential dwelling such that they cause a nuisance to the occupiers of such dwelling than such internal activities must not occur outside these hours of use. This condition does not restrict the operation of noise pollution laws.
Standard Condition: I1

I.2 Openable Windows/doors

The openable windows to Glenmore Road and Gipps Street Paddington shall be closed at 9.00pm Monday to Saturday and 8.00pm on Sunday. The proposed new glazing to these new windows and doors shall acoustically treated and sealed in order to comply with the relevant noise criteria for licensed premises.

This condition is to be included in the Plan of Management.

I.3 Maximum Patron Capacity

The total number of patrons on the premises at any time shall not exceed 100 patrons.
Standard Condition: I6

I.4 Use of Door to Gipps Street Elevation

To protect the amenity of surrounding properties the proposed door opening located in the middle of the Gipps Street elevation shall be used as an emergency exit only and shall be alarmed.

I.5 Automatic Door to Disabled Access

To protect the amenity of surrounding properties the proposed new disabled access door on the Gipps Street elevation shall open and close automatically and remain closed at all times except for when in use.

I.6 Patron Management

To protect the amenity of surrounding properties management shall ensure patrons do not leave the premises with alcohol or allow patrons to consume alcohol on the footpath.

I.7 Signage to be Displayed – Licensed Premises

Signage (in lettering not less than 15mm in height on a contrasting background) is to be erected in a prominent position near the principal entry to the premises in accordance with Clause 98D of the EPA Regulation 2000.

The signage shall state the following and may change from time to time due to reviewable conditions in accordance with **Condition I.1**:

“Approved hours of operation – Indoor Area
Monday to Saturday: **11am to 12am (midnight)**
Sunday: **12pm (noon) to 10pm**
Approved patron capacity
100 patrons

Upon leaving please respect local residents by minimising noise.”

The signage required by this condition is to be erected prior to the commencement of operations. This condition has been imposed to clearly identify the hours and patron capacity of the licensed premises.

Standard Condition: 19

I.8 Neighbourhood Amenity – Licensed Premises

The management of the premises:

- a) Shall ensure persons entering and leaving the premises do not crowd or loiter in the vicinity of the premises in such manner that pedestrian movement is obstructed or hindered.
- b) Shall ensure that the manner in which the business of the premises is conducted and/or the behaviour of persons entering and leaving the premises does not cause undue disturbance to the amenity of the neighbourhood. In this regard, the management shall be responsible for the control of noise and litter generated by persons and/or premises operations. If so directed by Council or by NSW Police, the Management is to employ private security staff to ensure that this condition is complied with.
- c) Shall record in a Register full details of any disturbance complaint/s made by a person to management or staff in respect to the manner in which the business of the premises is conducted and/or the behaviour of persons entering or leaving the premises. Such recording will include time, date, nature of the complaint/s and any complainant details if provided.
- d) Shall respond to any disturbance complaint/s in a timely and effective manner. All actions undertaken by management / staff to resolve such complaint/s shall be recorded in the Register.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.

Note: The lead agency for the enforcement of this condition is NSW Police.

Standard Condition: 110

I.9 Litter Patrols

Litter patrols are to be undertaken to collect and dispose of all litter and waste in the public areas adjacent to the licensed premises. Such patrols will take place intermittently during the hours of operation with the final patrol conducted at the cessation of trade. A litter patrol Register must be maintained and kept on the premises at all times detailing date, time of patrol, staff member responsible, and manager's signature.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.
Standard Condition: I11

I.10 Copies of Consents, Registers and Management Plans – Licensed Premises

A full copy of all current development consents (including approved plans) for the operation of the premises, any Registers required and any required Plan of Management must be kept on the premises and made available for inspection immediately upon request by Council Officers, Police Officers and/or Office of Liquor Gaming and Racing Authorised Officers.

Standard Condition: I12

I.11 Noise Limiters

- a) All amplification equipment used in the premises is to be controlled by a root mean square (RMS) noise limiter, calibrated by an acoustic engineer. The equipment must be tamper proof and only operable by the management or their nominee.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.
Standard Condition: I13

I.12 Operation in Accordance with Plan of Management (POM)

- a) The operation and management of the premises shall be in accordance with the POM prepared by Alexander & Co.
- b) The POM shall be filed with the Licensing Police of the Rose Bay Local Area Command prior to the commencement of operations.
- c) The POM cannot be altered without the written consent of Council

Standard Condition: I15

I.13 Garbage Collection

The garbage area must be maintained at all times to ensure that a breeding ground is not created for pests and must be capable of being easily and effectively cleaned.

All garbage containers must have tight fitting lids and be large enough or in sufficient numbers to contain all the waste produced by the business while awaiting the next removal from the premises.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.
Standard Condition: I16

I.14 Glass sorting or collection

Glass must not be emptied or transferred from one receptacle to another anywhere in a public place. All glass must be emptied/transferred within the premises and removed in containers.

No bottle or glass sorting, recycling or collection shall take place between 8.00pm and 8.00am Sunday to Friday and between 9.00pm Saturday and 10am Sundays and Public Holidays.

This condition is imposed to protect the amenity of neighbouring residents.

Standard Condition: I17

I.15 Surveillance cameras (CCTV)

Licensed Premises

The Management must maintain a closed-circuit television (CCTV) system on the premises. The CCTV system must comply with the following requirements:

- a) It must operate continuously from opening time until one hour after closing;
- b) It must record in digital format at a minimum of six frames per second;
- c) Any recorded image must specify the time and date of the image;
- d) The system's cameras must be located within the property and cover:
 - i) all entry and exit points of the premises,
 - ii) the footpath immediately adjacent to the premises, and
 - iii) all publicly accessible areas (other than toilets) on the premises
 - iv) from floor level to a minimum height of two metres
- e) CCTV recordings must be retained for at least 30 days.
- f) Management shall ensure the system is accessible by at least one member of staff at all times it is in operations, and

Note: The lead agency for enforcement is NSW Police.

Standard Condition: I18

I.16 NSW Police requirements (Licensed Premises)

Incidents involving acts of violence

Immediately after the person in charge of the licensed premises becomes aware of an incident involving an act of violence causing an injury to a person on the premises, the person must:

- a) Take all practical steps to preserve and keep intact the area where the act of violence occurred
- b) Retain all material and implements associated with the act of violence in accordance with the Crime Scene Preservation Guidelines issued by the NSW Police
- c) Make direct and personal contact with the Local Area Commander or his/her delegate and advise the Commander or delegate of the incident, and comply with any directions given by the Commander or delegate to preserve or keep intact the area where the violence occurred

Safety and security measures

The following safety and security measures must be complied with:

- a) Security Guards (**added by Police as relevant**)
- b) The entrance is to remain illuminated during all hours of trade past sunset until close
- c) The licensed premises are to be supervised during all hours of trade.
- d) An incident register is to be utilised and maintained on a daily basis solely for the purpose of the ground floor restaurant during all hours of trade.

Designated taxi phone service

A designated taxi phone line or similar service is to be located at the bar service area and maintained by management during all hours of trade and is to be implemented from the date of commencement of the restaurant use.

No use of strobes, lasers or flicker lights is permitted

No strobes, lasers or flicking lights are to be employed to the restaurant area.

Note: The lead agency for enforcement is NSW Police.
Standard Condition: I19

I.17 Noise Control

The use of the premises must not give rise to the transmission of *offensive noise* to any place of different occupancy. *Offensive noise* is defined in the *Protection of the Environment Operations Act 1997*.

This condition has been imposed to protect the amenity of the neighbourhood.

Note: Council will generally enforce this condition in accordance with the *Noise Guide for Local Government* (<http://www.environment.nsw.gov.au/noise/nglg.htm>) and the *Industrial Noise Guidelines* (<http://www.environment.nsw.gov.au/noise/industrial.htm>) publish by the Department of Environment and Conservation. Other state government authorities also regulate the *Protection of the Environment Operations Act 1997*.

Department of Gaming and Racing - (www.dgr.nsw.gov.au).

Standard Condition: I50

I.18 Noise from licensed premises

The L_{A10} noise level emitted from the licensed premises shall not exceed the background noise level in any Octave Band Centre Frequency (31.5 Hz – 8k Hz inclusive) by more than 5dB(A) between 07:00 am and 12:00 midnight at the boundary of any affected residence.

The L_{A10} noise level emitted from the licensed premises shall not exceed the background noise level in any Octave Band Centre Frequency (31.5 Hz – 8k Hz inclusive) between 12:00 midnight and 07:00 am at the boundary of any affected residence.

Notwithstanding compliance with the above, the noise from the licensed premises shall not be audible within any habitable room in any residential premises between the hours of 12:00 midnight and 07:00 am.

This condition has been imposed to protect the amenity of the neighbourhood.

Note: dB(A) is a value used for ‘A-weighted’ sound pressure levels ‘A’ frequency weighting is an adjustment made to approximate the response of the human ear.

Note: *Licensed premises* means premises licensed under the *Liquor Act 2007*

Note: For the purposes of this condition, the L_{A10} is the A-weighted sound pressure level that is exceeded for 10% of the time over which a given sound is measured.

Note: The *background noise level* is the underlying level present in the ambient noise, excluding the subject noise source, when extraneous noise is removed. For assessment purposes the background noise level is the L_{A90} level measured by a sound level meter over the applicable period.

Note: This condition is identical to the minimum standard condition imposed by the Casino Liquor and Gaming Control Authority (the Authority). The Authority may specify other standards in respect of the above condition under the *Liquor Act 2007*, and associated Regulations. Section 79 of the *Liquor Act 2007* provides an informal mechanism for complaints to be made (by residents, Police, local consent authorities and others) where the amenity of local neighbourhoods is unduly disturbed by the conduct of licensed premises including registered clubs (or their patrons). The Director of Liquor and Gaming is responsible for resolving such complaints and may impose temporary or permanent conditions on any licence. For further information go to the NSW Office of Liquor and Gaming and Racing’s website: (www.olgr.nsw.gov.au).

Note: Interior noise levels of licensed premises which exceed safe hearing levels are not supported or condoned by Council.
Standard Condition: I52

I.19 Annual Fire Safety Statements (Class 1b to 9c buildings inclusive)

Each year, the owner of a building to which an *essential fire safety measure* is applicable must provide an *annual fire safety statement* to Council and the Commissioner of the NSW Fire Brigades. The *annual fire safety statement* must be prominently displayed in the building.

Note: *Essential fire safety measure* has the same meaning as in clause 165 of the *Regulation*. *Annual fire safety statement* has the same meaning as in clause 175 of the *Regulation*. Part 9 Division 5 of the *Regulation* applies in addition to this condition at the date of this consent. Visit Council’s web site for additional information in relation to fire safety www.woollahra.nsw.gov.au.
Standard Condition: I22

I.20 Internal Door Between 1st Floor & Ground Floor

To ensure patrons do not have direct access between the hotel on the ground floor and the restaurant on the first floor of the building the existing ground floor internal door located within the staircase landing (that provides access to the first floor restaurant) shall be retained. This door shall not allow patrons to have direct access between the ground floor hotel and first floor restaurant. Patrons shall only enter the hotel and first floor restaurant via external doors.

J. Miscellaneous Conditions

No relevant conditions.

K. Advisings

K.1 Criminal Offences – Breach of Development Consent & Environmental laws

Failure to comply with this development consent and any condition of this consent is a **criminal offence**. Failure to comply with other environmental laws is also a criminal offence.

Where there is any breach Council may without any further warning:

- a) Issue Penalty Infringement Notices (On-the-spot fines);
- b) Issue notices and orders;
- c) Prosecute any person breaching this consent; and/or
- d) Seek injunctions/orders before the courts to restrain and remedy any breach.

Warnings as to potential maximum penalties

Maximum Penalties under NSW Environmental Laws include fines up to \$1.1 Million and/or custodial sentences for serious offences.

Warning as to enforcement and legal costs

Should Council have to take any action to enforced compliance with this consent or other environmental laws Council's policy is to seek from the Court appropriate orders requiring the payments of its costs beyond any penalty or remedy the Court may order.

This consent and this specific advice will be tendered to the Court when seeking costs orders from the Court where Council is successful in any necessary enforcement action.

Note: The payment of environmental penalty infringement notices does not result in any criminal offence being recorded. If a penalty infringement notice is challenged in Court and the person is found guilty of the offence by the Court, subject to section 10 of *the Crimes (Sentencing Procedure) Act 1999*, a criminal conviction is recorded. The effect of a criminal conviction beyond any fine is serious. You can obtain further information from the following web sites:

<http://www.theshopfront.org/documents/ConvictionsCriminalRecords.pdf> and the Attorney General's www.agd.nsw.gov.au.
Standard Advising: K1

K.2 Dial before you dig

The *principal contractor, owner builder* or any person digging may be held financially responsible by the asset owner should they damage underground pipe or cable networks. Minimise your risk and Dial 1100 Before You Dig or visit www.dialbeforeyoudig.com.au.

When you contact Dial Before You Dig, you will be sent details of all Dial Before You Dig members who have underground assets in the vicinity of your proposed excavation.

Standard Advising: K2

K.3 Builders Licences and Owner Builders Permits

Section 81A of the *Act* requires among other matters that the person having the benefit of the development consent, if not carrying out the work as an **owner-builder**, must appointed a *principal contractor* for residential building work who must be the holder of a contractor licence.

Further information can be obtained from the NSW Office of Fair Trading website about how you obtain an owner builders permit or find a principal contractor (builder):
<http://www.dft.nsw.gov.au/building.html> .

The Owner(s) must appoint the PCA. The PCA must check that Home Building Act insurance is in place before the commencement of building work. The Principal Contractor (Builder) must provide the Owners with a certificate of insurance evidencing the contract of insurance under the Home Building Act 1989 for the residential building work.

Standard Condition: K5

K.4 Building Standards - Guide to Standards and Tolerances

The PCA does not undertake detailed quality control inspections and the role of the PCA is primarily to ensure that the development proceeds in accordance with this consent, Construction Certificates and that the development is fit for occupation in accordance with its classification under the Building Code of Australia. Critical Stage Inspections do not provide the level of supervision required to ensure that the minimum standards and tolerances specified by the “Guide to Standards and Tolerances©” ISBN 0 7347 6010 8 are achieved.

The quality of any development is a function of the quality of the *principal contractor's* or *owner builder's* supervision of individual contractors and trades on a daily basis during the development. The PCA does not undertake this role.

The NSW Office of Fair Trading have published a “Guide to Standards and Tolerances©” ISBN 0 7347 6010 8. The guide can be obtained from the Office of Fair Trading by calling 13 32 20 or by Fax: 9619 8618 or by post to: Marketing Branch, PO Box 972, Parramatta NSW 2124.

The Guide can be down loaded from:

<http://www.fairtrading.nsw.gov.au/pdfs/corporate/publications/dft242.pdf>

Council, as the PCA or otherwise, does not adjudicate building contract disputes between the *principal contractor*, contractors and the owner.

Standard Condition: K6

K.5 Workcover requirements

The *Occupational Health and Safety Act 2000 No 40* and subordinate regulations, codes of practice and guidelines control and regulate the development industry.

Note: Further information can be obtained from Workcover NSW's website:

<http://www.workcover.nsw.gov.au/Industry/Construction/default.htm> or through their head office: Location: Workcover NSW, 92-100 Donnison Street, GOSFORD 2250 Postal address: WorkCover NSW, Locked Bag 2906, LISAROW 2252, Phone (02) 4321 5000, Fax (02) 4325 4145.

Standard Condition: K7

K.6 Lead Paint

It is beyond the scope of this consent to provide detailed information about dealing with lead paint. Painters working in an area containing lead-based paint should refer to Australian Standard AS 4361.1–1995, Guide to Lead Paint Management—Industrial Applications, or AS 4361.2–1998, Guide to Lead Paint Management—Residential and Commercial Buildings.

Industrial paints, may contain lead. Lead is used in some specialised sign-writing and artist paints, and road marking paints, and anti-corrosive paints. Lead was a major ingredient in commercial and residential paints from the late 1800s to 1970. Most Australian commercial buildings and residential homes built before 1970 contain lead paint. These paints were used both inside and outside buildings.

Lead hazards - Lead particles are released when old lead paint flakes and peels and collects as dust in ceiling, wall and floor voids. If dust is generated it must be contained. If runoff contains lead particles it must be contained. Lead is extremely hazardous, and stripping of lead-based paint and the disposal of contaminated waste must be carried out with all care. Lead is a cumulative poison and even small levels in the body can have severe effects.

Standard Advising: K9

K.7 Appeal

Council is always prepared to discuss its decisions and, in this regard, please do not hesitate to contact Larissa Holbert, Assessment Officer, on (02) 9391 7046.

However, if you wish to pursue your rights of appeal in the Land & Environment Court you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, site hearings and the use of Court Appointed Experts, instead of a full Court hearing.

This approach is less adversarial, it achieves a quicker decision than would be the case through a full Court hearing and it can give rise to considerable cost and time savings for all parties involved. The use of the Section 34 Conference approach requires the appellant to agree, in writing, to the Court appointed commissioner having the full authority to completely determine the matter at the conference.

Standard Condition: K14

K.8 Release of Security

An application must be made to Council by the person who paid the security for release of the securities held under section 80A of the *Act*.

The securities will not be released until a *Final Occupation Certificate* has lodged with Council, Council has inspected the site and Council is satisfied that the public works have been carried out to Council's requirements. Council may use part or all of the security to complete the works to its satisfaction if the works do not meet Council's requirements.

Council will only release the security upon being satisfied that all damage or all works, the purpose for which the security has been held have been remedied or completed to Council's satisfaction as the case may be.

Council may retain a portion of the security to remedy any defects in any such public work that arise within 6 months after the work is completed.

Upon completion of each section of road, drainage and landscape work to Council's satisfaction, 90% of the Bond monies held by Council for these works will be released upon application. 10% may be retained by Council for a further 6 month period and may be used by Council to repair or rectify any defects or temporary works during the 6 month period.

Note: The Application for Refund of Security form can be downloaded from <http://www.woollahra.nsw.gov.au/pdf/Forms/Planning/RefundofSecurity.pdf>
Standard Condition: K15

K.9 Recycling of Demolition and Building Material

It is estimated that building waste, including disposable materials, resulting from demolition, excavation, construction and renovation, accounts for almost 70% of landfill. Such waste is also a problem in the generation of dust and the pollution of stormwater. Council encourages the recycling of demolition and building materials.

Standard Condition: K17

Note: In accordance with section 375A of the Local Government Act a Division of votes is recorded on this planning matter.

D6 DA682/2008 part 3 – 594-596 New South Head Road, Rose Bay (Rose Bay Marina) - Section 96 Application – Proposed modifications - increase in approved boat length from 30m to 37m with no physical change to structures or height restriction for 4 berths on Arm B – 27/6/2014

Note: In accordance with Council's meeting procedures and policy this matter has been called to full Council by Councillor Robertson for the following reasons:

1. Longstanding community concern about marina expansion and related amenity impacts,
2. Overdevelopment, and
3. Public interest.

Note: In accordance with Council's meeting procedures and policy this matter is referred to full Council due to a substantive change of the Committee's recommendation (refusal) to the Officer's recommendation (approval). - **(See Item R1)**

D7 DA377/2014 - 18 & 18A Glenmore Road, Paddington – Change of use of the existing ground floor levels of both 18 & 18A Glenmore Road from office to retail, changes to existing window openings, addition to the rear of No. 18, new shop front to No. 18A, internal modifications including bricking up the opening between the two buildings – 5/9/2014

Note: In accordance with Council’s meeting procedures and policy this matter is referred to full Council due to a substantive change of the Committee’s recommendation to the Officer’s recommendation. – **(See Item R4)**

D8 Register of Current Land and Environment Court Matters and Register of Court Proceedings for Building Control, Environmental Control & Health Control

(Levenston/Zeltzer)

Resolved:

- A. THAT the attached register of current Land and Environment Court Matters for Development Applications be received and noted.
- B. THAT the attached register of Court Proceedings for Building Control, Environmental Control and Health Control be received and noted.

D9 Register of SEPP 1 Objections

(Wise/Levenston)

Resolved:

THAT the attached register of SEPP 1 Objections be received and noted.

**Items with Recommendations from this Committee
Submitted to the Council for Decision (Items R1 to R4)**

R1 DA682/2008 part 3 – 594-596 New South Head Road, Rose Bay (Rose Bay Marina) - Section 96 Application – Proposed modifications - increase in approved boat length from 30m to 37m with no physical change to structures or height restriction for 4 berths on Arm B – 27/6/2014

Note: The Mayor Councillor Zeltzer declared a Non-Significant, Non-Pecuniary Interest in this Item, as she is a member of the Joint Regional Planning Panel which is the consent authority for the owner’s adjacent Point Piper Marina development proposal. Councillor Zeltzer vacated the meeting and did not participate in the debate or vote on this matter.

Note: In accordance with Council's meeting procedures and policy this matter has been called to full Council by Councillor Robertson for the following reasons:

1. Longstanding community concern about marina expansion and related amenity impacts.
2. Overdevelopment, and
3. Public interest.

Note: In accordance with Council's meeting procedures and policy this matter is referred to full Council due to a substantive change of the Committee's recommendation (refusal) to the Officer's recommendation (approval). - (See **Item R1**)

(Elsing/Wise)

Recommendation:

THAT the Council refuse to modify development consent to Development Application No. 682/2008 for the redevelopment of Rose Bay marina on land at 594-596 New South Head Road Rose Bay, for the following reasons:

- Parking and traffic impacts
- Not in the Public Interest
- Impact on the environment
- View loss from Rose Bay, Rose Bay beach and park

Note: In accordance with section 375A of the Local Government Act a Division of votes is recorded on this planning matter.

The Motion was put and carried**

(Zeltzer/Marano)

Recommendation: Pursuant to Section 80(1) of the Environmental Planning and Assessment Act 1979

THAT the Council, as the consent authority, is of the opinion that the objection under *State Environmental Planning Policy No. 1 – Development Standards* to the floor space ratio (1:1) development standard under the Woollahra LEP 1995 is well founded in relation to 18 Glenmore Road, Paddington. The Council is also of the opinion that strict compliance with the development standard is unreasonable and unnecessary in the circumstances of this case as the development responds appropriately to the context of surrounding development and the streetscape, will not have unreasonable adverse amenity impacts on adjoining properties and will achieve the objectives of the floor space ratios development standard.

AND

THAT the Council, as the consent authority, is of the opinion that the objection under *State Environmental Planning Policy No. 1 – Development Standards* to the floor space ratio (1:1) development standard under the Woollahra LEP 1995 is well founded in relation to 18A Glenmore Road, Paddington. The Council is also of the opinion that strict compliance with the development standard is unreasonable and unnecessary in the circumstances of this case as the development responds appropriately to the context of surrounding development and the streetscape, will not have unreasonable adverse amenity impacts on adjoining properties and will achieve the objectives of the floor space ratios development standard.

AND

THAT the Council, as the consent authority, being satisfied that the objection under SEPP No. 1 is well founded and also being of the opinion that the granting of consent to Development Application No. 377/2014 is consistent with the aims of the Policy, grant development consent to DA No. 377/2014 for change of use of the existing ground floor levels of both 18 & 18A Glenmore Road from office to retail, changes to existing window openings, addition to the rear of No.18, new shop front to No.18A, internal modifications including bricking up the opening between the two buildings on land at 18 & 18A Glenmore Road Paddington, subject to the following conditions:

A. General Conditions

A.1 Conditions

Consent is granted subject to the following conditions imposed pursuant to section 80 of the Environmental Planning & Assessment Act 1979 (“the *Act*”) and the provisions of the Environmental Planning and Assessment Regulation 2000 (“the *Regulation*”) such conditions being reasonable and relevant to the development as assessed pursuant to section 79C of the Act.

Standard Condition: A1

A.2 Definitions

Unless specified otherwise words have the same meaning as defined by the *Act*, the *Regulation* and the *Interpretation Act* 1987 as in force at the date of consent.

Applicant means the applicant for this Consent.

Approved Plans mean the plans endorsed by Council referenced by this consent as amended by conditions of this consent.

AS or ***AS/NZS*** means Australian Standard® or Australian/New Zealand Standard®, respectively, published by Standards Australia International Limited.

BCA means the Building Code of Australia as published by the Australian Building Codes Board as in force at the date of issue of any *Construction Certificate*.

Council means Woollahra Municipal Council

Court means the Land and Environment Court

Local native plants means species of native plant endemic to Sydney’s eastern suburbs (see the brochure titled “Local Native Plants for Sydney’s Eastern Suburbs published by the Southern Sydney Regional Organisation of Councils).

Stormwater Drainage System means all works, facilities and documentation relating to:

- The collection of stormwater,
- The retention of stormwater,
- The reuse of stormwater,
- The detention of stormwater,
- The controlled release of stormwater; and
- Connections to easements and public stormwater systems.

Owner means the owner of the *site* and successors in title to the *site*.

Owner Builder has the same meaning as in the *Home Building Act 1989*.

PCA means the *Principal Certifying Authority* under the *Act*.

Principal Contractor has the same meaning as in the *Act* or where a *principal contractor* has not been appointed by the *owner* of the land being developed *Principal Contractor* means the *owner* of the land being developed.

Professional Engineer has the same meaning as in the *BCA*.

Public Place has the same meaning as in the *Local Government Act 1993*.

Road has the same mean as in the *Roads Act 1993*.

SEE means the final version of the Statement of Environmental Effects lodged by the *Applicant*.

Site means the land being developed subject to this consent.

WLEP 1995 means *Woollahra Local Environmental Plan 1995*

Work for the purposes of this consent means:

- the use of land in connection with development,
- the subdivision of land,
- the erection of a building,
- the carrying out of any work,
- the use of any site crane, machine, article, material, or thing,
- the storage of waste, materials, site crane, machine, article, material, or thing,
- the demolition of a building,
- the piling, piling, cutting, boring, drilling, rock breaking, rock sawing or excavation of land,
- the delivery to or removal from the *site* of any machine, article, material, or thing, or
- the occupation of the *site* by any person unless authorised by an *occupation certificate*.

Note: Interpretation of Conditions - Where there is any need to obtain an interpretation of the intent of any condition this must be done in writing to Council and confirmed in writing by Council.

Standard Condition: A2

A.3 Approved Plans and supporting documents

Those with the benefit of this consent must carry out all work and maintain the use and works in accordance with the plans and supporting documents listed below as submitted by the Applicant and to which is affixed a Council stamp "Approved DA Plans" unless modified by any following condition. Where the plans relate to alterations or additions only those works shown in colour or highlighted are approved.

Reference	Description	Author/Drawn	Date(s)
RS/103 Revision H	Proposed Basement & Ground Floor Plans	Arena Design	02/09/2014
RS/104 Revision H	Proposed Middle & Upper Level Plans incl Roof	Architects Pty	02/09/2014
RS/105 Revision H	Sections Sheet 1	Ltd	02/09/2014
RS/106 Revision H	Sections Sheet 2		02/09/2014
RS/107 Revision H	Elevations		02/09/2014
RS/108 Revision H	18A Glazed Entry Area Sections		02/09/2014

Note: Warning to Accredited Certifiers – You should always insist on sighting the original Council stamped approved plans. You should not rely solely upon the plan reference numbers in this condition. Should the applicant not be able to provide you with the original copy Council will provide you with access to its files so you may review our original copy of the approved plan.

Note: These plans and supporting documentation may be subject to conditions imposed under section 80A(1)(g) of the *Act* modifying or amending the development (refer to conditions which must be satisfied prior to the issue of any *Construction Certificate*.)

Standard Condition: A5

A.4 Development Consent is not granted in relation to these matters

This approval does not give consent to #. A separate Development Consent or Complying Development Certificate and Part 4A Certificates, as appropriate, will need to be obtained prior to the such development work commencing.

Standard Condition: A9

B. Conditions which must be satisfied prior to the demolition of any building or construction

B.1 Construction Certificate required prior to any demolition

Where demolition is associated with an altered portion of, or an extension to an existing building the demolition of any part of a building is "commencement of erection of building" pursuant to section 81A(2) of the Act. In such circumstance all conditions in Part C and Part D of this consent must be satisfied prior to any demolition work. This includes, but is not limited to, the issue of a Construction Certificate, appointment of a PCA and Notice of Commencement under the Act.

Note: See *Over our Dead Body Society Inc v Byron Bay Community Association Inc* [2001] NSWLEC 125.

Standard Condition: B1

B.2 Identification of Hazardous Material

In accordance with Australian Standard AS2601- 'The Demolition of Structures' the owner shall identify all hazardous substances located on the site including asbestos, Polychlorinated biphenyls (PCBs), lead paint, underground storage tanks, chemicals, etc. per Clause 1.6.1 of the Standard. In this regard, **prior to the commencement of any work**, Council shall be provided with a written report prepared by a suitably qualified competent person detailing;

- all hazardous materials identified on the site;
- the specific location of all hazardous materials identified;
- whether the hazardous materials are to be removed from the site as part of the works to be undertaken; and
- safety measures to be put in place.

Note: This condition is imposed to protect the health and safety of all persons while works are being undertaken and to ensure all safety measures have been identified and are in place to protect all parties in the immediate vicinity of the site.

Standard Condition: B6

C. Conditions which must be satisfied prior to the issue of any construction certificate

C.1 Modification of details of the development (s80A(1)(g) of the Act)

The *approved plans* and the *Construction Certificate* plans and specification, required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation*, must detail the following amendments:

- a) In order to comply with objective O5 and controls C2 and C10 of Part 4.1.1 of the Paddington Heritage Conservation Area Development Control Plan 2008, the aluminium balustrade to the front balcony of 18A Glenmore Road, Paddington is to be removed and replaced with appropriate replica Victorian era cast iron lace balustrade panels. Details are to be submitted and approved by Council's Heritage Officer prior to issue of the Construction Certificate.
- b) In order to comply with objectives O1 and O2 of Part 4.1.2 of the Paddington Heritage Conservation Area Development Control Plan 2008, revise the design of the proposed window to the side elevation of 18 Glenmore Road, Paddington so that it is traditionally proportioned. This may be achieved by introduction of glazing bars/mullions or stall-board panel. Details are to be submitted and approved by Council's Heritage Officer prior to issue of the Construction Certificate.
- c) In order to comply with control C8 of Part 4.3.7 of the Paddington Heritage Conservation Area Development Control Plan 2008, revise the design of the proposed shopfront to 18 & 18A Glenmore Road, Paddington to include interpretive elements including a stall-board. Details are to be submitted and approved by Council's Heritage Officer prior to issue of the Construction Certificate.
- d) In order to comply with and control C4 of Part 4.2.8 and control C8 of Part 4.3.7 Paddington Heritage Conservation Area Development Control Plan 2008, revise the materiality of the proposed windows to the ground floor level of 18 & 18A Glenmore Road, Paddington to be timber framed. Details are to be submitted and approved by Council's Heritage Officer prior to issue of the Construction Certificate.
- e) Window "W8N" as shown on plan RS/103 Revision H, prepared by Arena Design Architects Pty Ltd and dated 02/09/2014 shall be fitted with translucent glazing up to a height of 1800mm from the finished floor level of the change room. This condition has been imposed to protect the visual privacy of Hopewell Street residential properties.

- f) The external colour scheme of the buildings shall be recessive and appropriate to the architectural style of the building. Details are to be submitted and approved by Council's Heritage Officer prior to issue of the Construction Certificate. This condition has been imposed to ensure that the external colour scheme of the buildings responds appropriately to the buildings, streetscape and amenity of the Paddington heritage Conservation Area.

Note: The effect of this condition is that it requires design changes and/or further information to be provided with the *Construction Certificate* drawings and specifications to address specific issues identified during assessment under section 79C of the *Act*.

Note: Clause 146 of the *Regulation* prohibits the issue of any *Construction Certificate* subject to this condition unless the *Certifying Authority* is satisfied that the condition has been complied with.

Note: Clause 145 of the *Regulation* prohibits the issue of any *Construction Certificate* that is inconsistent with this consent.

Standard Condition: C4

C.2 Payment of Long Service Levy, Security, Contributions and Fees

The certifying authority must not issue any *Part 4A Certificate* until provided with the original receipt(s) for the payment of all of the following levy, security, contributions, and fees prior to the issue of a *construction certificate, subdivision certificate or occupation certificate*, as will apply.

Description	Amount	Indexed	Council Fee Code
LONG SERVICE LEVY under Building and Construction Industry Long Service Payments Act 1986			
Long Service Levy http://www.longservice.nsw.gov.au/bci/levy/other-information/levy-calculator	Contact LSL Corporation or use online calculator	No	
SECURITY under section 80A(6) of the Environmental Planning and Assessment Act 1979			
Property Damage Security Deposit -making good any damage caused to any property of the Council	\$6,142.20	No	T115
DEVELOPMENT LEVY under Woollahra Section 94A Development Contributions Plan 2011 This plan may be inspected at Woollahra Council or downloaded at www.woollahra.nsw.gov.au .			
Development Levy (Section 94A)	\$935 + Index Amount	Yes, quarterly	T96
INSPECTION FEES under Section 608 of the Local Government Act 1993			
Security Administration Fee	\$185	No	T16
TOTAL SECURITY, CONTRIBUTIONS, LEVIES AND FEES	\$7,262.20 plus any relevant indexed amounts and long service levy		

Building and Construction Industry Long Service Payment

The Long Service Levy under Section 34 of the *Building and Construction Industry Long Service Payment Act*, 1986, must be paid and proof of payment provided to the *Certifying Authority* prior to the issue of any *Construction Certificate*. The Levy can be paid directly to the Long Services Payments Corporation or to Council. Further information can be obtained from the Long Service Payments Corporation's website <http://www.longservice.nsw.gov.au/> or the Long Service Payments Corporation on 13 14 41.

How must the payments be made?

Payments must be made by:

- Cash deposit with Council,
- Credit card payment with Council, or

- Bank cheque made payable to Woollahra Municipal Council.

The payment of a security may be made by a bank guarantee where:

- The guarantee is by an Australian bank for the amount of the total outstanding contribution;
- The bank unconditionally agrees to pay the guaranteed sum to the Council on written request by Council on completion of the development or no earlier than 12 months from the provision of the guarantee whichever occurs first [NOTE: a time limited bank guarantee or a bank guarantee with an expiry date is not acceptable];
- The bank agrees to pay the guaranteed sum without reference to the applicant or landowner or other person who provided the guarantee and without regard to any dispute, controversy, issue or other matter relating to the development consent or the carrying out of development in accordance with the development consent;
- The bank guarantee is lodged with the Council prior to the issue of the construction certificate; and
- The bank's obligations are discharged when payment to the Council is made in accordance with the guarantee or when Council notifies the bank in writing that the guarantee is no longer required.

How will the section 94A levy be indexed?

To ensure that the value the development levy is not eroded over time by increases in costs, the proposed cost of carrying out development (from which the development levy is calculated) will be indexed either annually or quarterly (see table above). Clause 3.13 of the Woollahra Section 94A Development Contributions Plan 2011 sets out the formula and index to be used in adjusting the s.94A levy.

Do you need HELP indexing the levy?

Please contact our customer service officers. Failure to correctly calculate the adjusted development levy will delay the issue of any Part 4A Certificate and could void any Part 4A Certificate (construction certificate, subdivision certificate, or occupation certificate).

Deferred or periodic payment of section 94A levy under the Woollahra Section 94A Development Contributions Plan 2011

Where the applicant makes a written request supported by reasons for payment of the section 94A levy other than as required by clause 3.9, the Council may accept deferred or periodic payment. The decision to accept a deferred or periodic payment is at the sole discretion of the Council, which will consider:

- The reasons given;
- Whether any prejudice will be caused to the community deriving benefit from the public facilities;
- Whether any prejudice will be caused to the efficacy and operation of the plan; and
- Whether the provision of public facilities in accordance with the adopted works schedule will be adversely affected.

Council may, as a condition of accepting deferred or periodic payment, require the provision of a bank guarantee where:

- The guarantee is by an Australian bank for the amount of the total outstanding contribution;
- The bank unconditionally agrees to pay the guaranteed sum to the Council on written request by Council on completion of the development or no earlier than 12 months from the provision of the guarantee whichever occurs first [NOTE: a time limited bank guarantee or a bank guarantee with an expiry date is not acceptable];
- The bank agrees to pay the guaranteed sum without reference to the applicant or landowner or other person who provided the guarantee and without regard to any dispute, controversy, issue or other matter relating to the development consent or the carrying out of development in accordance with the development consent;
- The bank guarantee is lodged with the Council prior to the issue of the construction certificate; and
- The bank's obligations are discharged when payment to the Council is made in accordance with the guarantee or when Council notifies the bank in writing that the guarantee is no longer required.

Any deferred or periodic payment of the section 94A levy will be adjusted in accordance with clause 3.13 of the plan. The applicant will be required to pay any charges associated with establishing or operating the bank guarantee. Council will not cancel the bank guarantee until the outstanding contribution as indexed and any accrued charges are paid.

Standard Condition: C5

C.3 Waste Storage - Commercial

The *Construction Certificate* plans and specifications required by clause 139 of the Regulation, must make provision for:

- a) A dedicated and enclosed waste and recycling storage area at the rear of the site or within non-habitable areas of the building.

Standard Condition: C14

C.4 Structural Adequacy of Existing Supporting Structures

A certificate from a *professional engineer* (Structural Engineer), certifying the adequacy of the existing supporting structure to support the additional loads proposed to be imposed by the development, must be submitted with the *Construction Certificate* application.

Note: This condition is imposed to ensure that the existing structure is able to support the additional loads proposed.

Standard Condition: C35

C.5 Professional Engineering Details

The *Construction Certificate* plans and specifications, required by clause 139 of the Regulation, must include detailed *professional engineering* plans and/or specifications for all structural, electrical, hydraulic, hydro-geological, geotechnical, mechanical and civil work complying with this consent, approved plans, the statement of environmental effects and supporting documentation.

Detailed professional engineering plans and/or specifications must be submitted to the *Certifying Authority* with the application for any *Construction Certificate*.

Note: This does not affect the right of the developer to seek staged Construction Certificates.

Standard Condition: C36

C.6 Building upgrade (Clause 94 of the Regulation)

Council considers pursuant to clause 94 of the *Regulation* that it is appropriate to require the existing building to be brought into total or partial conformity with the *BCA*.

The *Construction Certificate* plans and specification required to be submitted to the *Certifying Authority* pursuant to clause 139 of the *Regulation* must detail building upgrade works required by this condition.

The *Certifying Authority* must be satisfied that such work, to be implemented as part of the development, will upgrade the building to bring it into compliance with the following provisions of the *BCA* as in force at the date of the *Construction Certificate* application:

- a) That the stairway connecting three (3) storeys shall be fire isolated or a sprinkler system shall be installed throughout the building in accordance with the requirements of Clause D1.3 of the *BCA* or an alternative solution shall be proposed by a C10 accredited fire engineer meeting performance requirements DP2, DP4, DP5 & EP2.2 of the *BCA*.
- b) That the basement storey (class 7a), ground storey (class 6) and the first storey (class 5) shall be separated by a floor/ceiling system in fire resistant construction or incipient spread of fire from the space above itself in accordance with the requirements of Clause C2.9 of the *BCA*.

- c) That a system of emergency lighting shall be installed throughout the building to provide sufficient light in an emergency in accordance with the requirements of Part E4 of the BCA. All emergency lighting installed shall be designed to match the style and period of the building.
- d) That exit signs shall be installed above all required exit doors. Signs shall be illuminated at all times and generally be of sufficient number that direction of travel to all exits is clearly visible from any part of the major egress routes. Exit signs shall be installed to the standard expressed in Clauses E4.5, E4.6 and E4.8 of the BCA.
- e) That an Automatic Fire Detection and Alarm System shall be installed throughout the building complying in all respects with the requirements of Specification E2.2a Clause 4 of the BCA & Australian Standard AS1670.1. In kitchens and other approved areas thermal type detectors may be installed.
- f) That exits shall comply with the requirements of clauses D1.2, D1.4, D1.5, D1.6 and D1.10 of the BCA.
- g) That portable fire extinguishers shall be provided throughout the building to the requirements of Clause E1.6 of the BCA and the relevant requirements of AS 2444.

Note: The *Certifying Authority* issuing the *Construction Certificate* has no power to remove the requirement to upgrade the existing building as required by this condition. Where this condition specifies compliance with performance requirements of the *BCA* the *Certifying Authority*, subject to their level of accreditation, may be satisfied as to such matters. Where this condition specifies compliance with prescriptive (deemed to satisfied) provisions of the *BCA* these prescriptive requirements must be satisfied and cannot be varied unless this condition is reviewed under section 82A or amended under section 96 of the *Act*.

Note: This condition does not set aside the *Certifying Authorities* responsibility to ensure compliance with clause 143 of the *Regulation* in relation to Fire Protection and Structural Adequacy.

Note: AS 4655 *Guidelines for fire safety audits for buildings* (or any succeeding AS) should form the basis of any fire upgrade report.

Standard Condition: C10

D. Conditions which must be satisfied prior to the commencement of any development work

D.1 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

For the purposes of section 80A (11) of the Act, the following conditions are prescribed in relation to a development consent for development that involves any building work:

- a) that the work must be carried out in accordance with the requirements of the Building Code of Australia,
- b) in the case of residential building work for which *the Home Building Act 1989* requires there to be a contract of insurance in force in accordance with Part 6 of that Act, that such a contract of insurance is in force before any building work authorised to be carried out by the consent commences.

This condition does not apply:

- a) to the extent to which an exemption is in force under *the Home Building Regulation 2004*,
- b) to the erection of a temporary building.

In this condition, a reference to the *BCA* is a reference to that code as in force on the date the application for the relevant construction certificate is made.

Note: This condition must be satisfied prior to commencement of any work in relation to the contract of insurance under the Home Building Act 1989. This condition also has effect during the carrying out of all building work with respect to compliance with the Building Code of Australia.

Note: All new guttering is to comply with the provisions of Part 3.5.2 of the Building Code of Australia.
Standard Condition: D1

D.2 Security Fencing, Hoarding and Overhead Protection

Security fencing must be provided around the perimeter of the development site, including any additional precautionary measures taken to prevent unauthorised entry to the site at all times during the demolition, excavation and construction period. Security fencing must be the equivalent 1.8m high chain wire as specified in AS 1725.

Where the development site adjoins a public thoroughfare, the common boundary between them must be fenced for its full length with a hoarding, unless the least horizontal distance between the common boundary and the nearest parts of the structure is greater than twice the height of the structure. The hoarding must be constructed of solid materials (chain wire or the like is not acceptable) to a height of not less than 1.8 m adjacent to the thoroughfare.

Where a development site adjoins a public thoroughfare with a footpath alongside the common boundary then, in addition to the hoarding required above, the footpath must be covered by an *overhead protective structure* and the facing facade protected by heavy-duty scaffolding, unless either:

- The vertical height above footpath level of the structure being demolished is less than 4.0 m; or
- The least horizontal distance between footpath and the nearest part of the structure is greater than half the height of the structure.

The overhead structure must consist of a horizontal platform of solid construction and vertical supports, and the platform must:

- Extend from the common boundary to 200mm from the edge of the carriageway for the full length of the boundary;
- Have a clear height above the footpath of not less than 2.1 m;
- Terminate 200mm from the edge of the carriageway (clearance to be left to prevent impact from passing vehicles) with a continuous solid upstand projecting not less than 0.5 m above the platform surface; and
- Together with its supports, be designed for a uniformly distributed live load of not less than 7 kPa.

The *principal contractor* or *owner builder* must pay all fees associated with the application and occupation and use of the road (footway) for required hoarding or overhead protection.

The *principal contractor* or *owner builder* must ensure that Overhead Protective Structures are installed and maintained in accordance with WorkCover NSW Code of Practice - Overhead Protective Structures, gazetted 16 December 1994, as commenced 20 March 1995. This can be downloaded from:

<http://www.workcover.nsw.gov.au/Publications/LawAndPolicy/CodesofPractice/oheadprotstruucts.htm>.

Security fencing, hoarding and overhead protective structure must not obstruct access to utilities services including but not limited to man holes, pits, stop valves, fire hydrants or the like.

Note: The *principal contractor* or *owner* must allow not less than two (2) weeks from the date of making a hoarding application for determination. Any approval for a hoarding or overhead protection under the *Roads Act 1993* will be subject to its own conditions and fees.

Standard Condition: D11

D.3 Site Signs

The *Principal Contractor* or *owner builder* must ensure that the sign/s required by clauses 98A and 227A of the *Regulation* is/are erected and maintained at all times.

Clause 98A of the *Regulation* provides:

Erection of signs

- For the purposes of section 80A (11) of the *Act*, the requirements of subclauses (2) and (3) are prescribed as conditions of a development consent for development that involves any building work, subdivision work or demolition work.
- A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - a. showing the name, address and telephone number of the principal certifying authority for the work, and
 - b. showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - c. stating that unauthorised entry to the work site is prohibited.
- Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- This clause does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.
- This clause does not apply in relation to Crown building work that is certified, in accordance with section 116G of the *Act*, to comply with the technical provisions of the State's building laws."

Clause 227A of the *Regulation* provides:

Signs on development sites

If there is a person who is the PCA or the principal contractor for any building work, subdivision work or demolition work authorised to be carried out on a site by a development consent or complying development certificate:

- Each such person MUST ensure that a rigid and durable sign showing the person's identifying particulars so that they can be read easily by anyone in any public road or other public place adjacent to the site is erected in a prominent position on the site before the commencement of work, and is maintained on the site at all times while this clause applies until the work has been carried out.

Note: Clause 227A imposes a penalty exceeding \$1,000 if these requirements are not complied with.

Note: If *Council* is appointed as the *PCA* it will provide the sign to the *principal contractor* or *owner builder* who must ensure that the sign is erected and maintained as required by Clause 98A and Clause 227A of the *Regulation*.

Standard Condition: D12

D.4 Toilet Facilities

Toilet facilities are to be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided:

- a) must be a standard flushing toilet, and
- b) must be connected to a public sewer, or
- c) if connection to a public sewer is not practicable, to an accredited sewage management facility approved by the council, or
- d) if connection to a public sewer or an accredited sewage management facility is not practicable, to some other sewage management facility approved by the council.

The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced.

In this condition:

accredited sewage management facility means a sewage management facility to which Division 4A of Part 3 of the *Local Government (Approvals) Regulation 1993* applies, being a sewage management facility that is installed or constructed to a design or plan the subject of a certificate of accreditation referred to in clause 95B of the *Local Government (Approvals) Regulation 1993*.

approved by the council means the subject of an approval in force under Division 1 of Part 3 of the *Local Government (Approvals) Regulation 1993*.

public sewer has the same meaning as it has in the *Local Government (Approvals) Regulation 1993*.

sewage management facility has the same meaning as it has in the *Local Government (Approvals) Regulation 1993*.

Note: This condition does not set aside the requirement to comply with Workcover NSW requirements.

Standard Condition: D13

D.5 Erosion and Sediment Controls – Installation

The *principal contractor* or *owner builder* must install and maintain water pollution, erosion and sedimentation controls in accordance with:

- a) The *Soil and Water Management Plan* if required under this consent;
- b) “*Do it Right On Site, Soil and Water Management for the Construction Industry*” published by the Southern Sydney Regional Organisation of Councils, 2001; and
- c) “*Managing Urban Stormwater - Soils and Construction*” published by the NSW Department of Housing 4th Edition” (‘The Blue Book’).

Where there is any conflict The Blue Book takes precedence.

Note: The International Erosion Control Association – Australasia (<http://www.austieca.com.au/>) lists consultant experts who can assist in ensuring compliance with this condition. Where Soil and Water Management Plan is required for larger projects it is recommended that this be produced by a member of the International Erosion Control Association – Australasia.

Note: The “Do it Right On Site, Soil and Water Management for the Construction Industry” publications can be down loaded free of charge from www.woollahra.nsw.gov.au.

Note: A failure to comply with this condition may result in penalty infringement notices, prosecution, notices and orders under the Act and/or the *Protection of the Environment Operations Act 1997* **without any further warning**. It is a criminal offence to cause, permit or allow pollution.

Note: Section 257 of the *Protection of the Environment Operations Act 1997* provides inter alia that “the occupier of premises at or from which any pollution occurs is taken to have caused the pollution”

Warning: Irrespective of this condition any person occupying the site may be subject to proceedings under the *Protection of the Environment Operations Act 1997* where pollution is caused, permitted or allowed as the result of their occupation of the land being developed.

Standard Condition: D14

D.6 Building - Construction Certificate, Appointment of Principal Certifying Authority, Appointment of Principal Contractor and Notice of Commencement (s81A(2) of the Act)

The erection of the building in accordance with this development consent must not be commenced until:

- a. A construction certificate for the building work has been issued by the consent authority, the council (if the council is not the consent authority) or an accredited Certifier, and
- b. The person having the benefit of the development consent has:
 - Appointed a principal certifying authority for the building work, and
 - Notified the principal certifying authority that the person will carry out the building work as an owner-builder, if that is the case, and
- c. The principal certifying authority has, no later than 2 days before the building work commences:
 - Notified the consent authority and the council (if the council is not the consent authority) of his or her appointment, and
 - Notified the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and
- d. The person having the benefit of the development consent, if not carrying out the work as an owner-builder, has:

- Appointed a principal contractor for the building work who must be the holder of a contractor licence if any residential building work is involved, and
- Notified the principal certifying authority of any such appointment, and
- Unless that person is the principal contractor, notified the principal contractor of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and
- Given at least 2 days' notice to the council of the person's intention to commence the erection of the building.

Note: *building* has the same meaning as in section 4 of the *Act* and includes part of a building and any structure or part of a structure.

Note: *new building* has the same meaning as in section 109H of the *Act* and includes an altered portion of, or an extension to, an existing building.

Note: The commencement of demolition works associated with an altered portion of, or an extension to, an existing building is considered to be the commencement of building work requiring compliance with section 82A(2) of the *Act* (including the need for a *Construction Certificate*) prior to any demolition work. See: *Over our Dead Body Society Inc v Byron Bay Community Association Inc* [2001] NSWLEC 125.

Note: *Construction Certificate* Application, *PCA Service Agreement* and *Notice of Commencement* forms can be downloaded from Council's website www.woollahra.nsw.gov.au.

Note: It is an offence for any person to carry out the erection of a *building* in breach of this condition and in breach of section 81A(2) of the *Act*.

Standard Condition: D15

D.7 Notification of Home Building Act 1989 requirements

- a) For the purposes of section 80A (11) of the *Act*, the requirements of this condition are prescribed as conditions of a development consent for development that involves any residential building work within the meaning of the Home Building Act 1989.
- b) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the following information:
 - In the case of work for which a *principal contractor* is required to be appointed:
 - the name and licence number of the principal contractor, and
 - the name of the insurer by which the work is insured under Part 6 of that *Act*,
 - In the case of work to be done by an owner-builder:
 - the name of the owner-builder, and
 - if the owner-builder is required to hold an owner-builder permit under that *Act*, the number of the owner-builder permit.
- c) If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under subclause (2) becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.
- d) This clause does not apply in relation to Crown building work that is certified, in accordance with section 116G of the *Act*, to comply with the technical provisions of the State's building laws.

Standard Condition: D17

E. Conditions which must be satisfied during any development work

E.1 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

For the purposes of section 80A (11) of the Act, the following condition is prescribed in relation to a development consent for development that involves any building work:

- a) That the work must be carried out in accordance with the requirements of the Building Code of Australia,
- b) In the case of residential building work for which the Home Building Act 1989 requires there to be a contract of insurance in force in accordance with Part 6 of that Act, that such a contract of insurance is in force before any building work authorised to be carried out by the consent commences.

This condition does not apply:

- a) To the extent to which an exemption is in force under clause 187 or 188, subject to the terms of any condition or requirement referred to in clause 187 (6) or 188 (4) of the Regulation, or
- b) To the erection of a temporary building.

In this clause, a reference to the BCA is a reference to that Code as in force on the date the application for the relevant construction certificate is made.

Note: All new guttering is to comply with the provisions of Part 3.5.2 of the Building Code of Australia.
Standard Condition: E1

E.2 Compliance with Australian Standard for Demolition

Demolition of buildings and structures must comply with Australian Standard AS 2601—2001: The Demolition of Structures, published by Standards Australia, and as in force at 13 September 2001.

Standard Condition: E2

E.3 Requirement to notify about new evidence

Any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination, heritage significance, threatened species or other relevant matters must be immediately notified to Council and the Principal Certifying Authority..

Standard Condition: E4

E.4 Critical Stage Inspections

Critical stage inspections must be called for by the *principal contractor* or *owner builder* as required by the PCA, any PCA service agreement, the *Act* and the *Regulation*.

Work must not proceed beyond each critical stage until the PCA is satisfied that work is proceeding in accordance with this consent, the Construction Certificate(s) and the *Act*. *critical stage inspections* means the inspections prescribed by the *Regulations* for the purposes of section 109E(3)(d) of the *Act* or as required by the *PCA* and any *PCA Service Agreement*.

Note: The PCA may require inspections beyond mandatory critical stage inspections in order that the PCA be satisfied that work is proceeding in accordance with this consent.

Note: The PCA may, in addition to inspections, require the submission of *Compliance Certificates*, survey reports or evidence of suitability in accordance with Part A2.2 of the BCA in relation to any matter relevant to the development.

Standard Condition: E5

E.5 Hours of Work –Amenity of the neighbourhood

- a) No *work* must take place on any Sunday or public holiday,
- b) No *work* must take place before 7am or after 5pm any weekday,
- c) No *work* must take place before 7am or after 1pm any Saturday,
- d) The following *work* **must not** take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday;
 - i) Piling;
 - ii) Piering;
 - iii) Rock or concrete cutting, boring or drilling;
 - iv) Rock breaking;
 - v) Rock sawing;
 - vi) Jack hammering; or
 - vii) Machine excavation,
- e) No loading or unloading of material or equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday.
- f) No operation of any equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday
- g) No rock excavation being cutting, boring, drilling, breaking, sawing , jack hammering or bulk excavation of rock, must occur without a 15 minute break every hour.

This condition has been imposed to mitigate the impact of work upon the amenity of the neighbourhood. Impact of work includes, but is not limited to, noise, vibration, dust, odour, traffic and parking impacts.

Note: The use of noise and vibration generating plant and equipment and vehicular traffic, including trucks in particular, significantly degrade the amenity of neighbourhoods and more onerous restrictions apply to these activities. This more invasive work generally occurs during the foundation and bulk excavation stages of development. If you are in doubt as to whether or not a particular activity is considered to be subject to the more onerous requirement (9am to 4pm weekdays and 9am to 1pm Saturdays) please consult with Council.

Note: Each and every breach of this condition by any person may be subject to separate penalty infringement notice or prosecution.

Note: The delivery and removal of plant, equipment and machinery associated with wide loads subject to RTA and Police restrictions on their movement out side the approved hours of work will be considered on a case by case basis.

Note: Compliance with these hours of work does not affect the rights of any person to seek a remedy to offensive noise as defined by the *Protection of the Environment Operations Act 1997*, the *Protection of the Environment Operations (Noise Control) Regulation 2000*.

Note: EPA Guidelines can be down loaded from <http://www.epa.nsw.gov.au/noise/nglg.htm> .

Note: see http://www.epa.nsw.gov.au/resources/ci_build_sheet7.pdf

Standard Condition: E6

E.6 Public Footpaths – Safety, Access and Maintenance

The *principal contractor* or *owner builder* and any other person acting with the benefit of this consent must:

- a) Not erect or maintain any gate or fence swing out or encroaching upon the road or the footway.
- b) Not use the road or footway for the storage of any article, material, matter, waste or thing.
- c) Not use the road or footway for any *work*.
- d) Keep the road and footway in good repair free of any trip hazard or obstruction.
- e) Not stand any plant and equipment upon the road or footway.
- f) Provide a clear safe pedestrian route a minimum of 1.5m wide.
- g) Protect street name inlays in the footpath which are not to be removed or damaged during development.

This condition does not apply to the extent that a permit or approval exists under the section 73 of the Road Transport (Safety and Traffic Management) Act 1999, section 138 of the Roads Act 1993 or section 94 of the Local Government Act 1993 except that at all time compliance is required with:

- a) Australian Standard AS 1742 (Set) Manual of uniform traffic control devices and all relevant parts of this set of standards.
- b) Australian Road Rules to the extent they are adopted under the *Road Transport (Safety and Traffic Management) (Road Rules) Regulation 1999*.

Note: Section 73 of the *Road Transport (Safety and Traffic Management) Act 1999* allows the Police to close any road or road related area to traffic during any temporary obstruction or danger to traffic or for any temporary purpose. Any road closure requires Police approval.

Note: Section 138 of the *Roads Act 1993* provides that a person must not:

- erect a structure or carry out a work in, on or over a public road, or
- dig up or disturb the surface of a public road, or
- remove or interfere with a structure, work or tree on a public road, or
- pump water into a public road from any land adjoining the road, or
- connect a road (whether public or private) to a classified road, otherwise than with the consent of the appropriate roads authority.

Note: Section 68 of the *Local Government Act 1993* provides that a person may carry out certain activities only with the prior approval of the council including:

- Part C Management of Waste:
 - a. For fee or reward, transport waste over or under a public place
 - b. Place waste in a public place
 - c. Place a waste storage container in a public place.”
- Part E Public roads:
 - a. Swing or hoist goods across or over any part of a public road by means of a lift, hoist or tackle projecting over the footway
 - b. Expose or allow to be exposed (whether for sale or otherwise) any article in or on or so as to overhang any part of the road or outside a shop window or doorway abutting the road, or hang an article beneath an awning over the road.”
 - c. Any work in, on or over the Road or Footway requires *Council* Approval and in the case of classified roads the NSW Roads and Traffic Authority. Road includes that portion of the road uses as a footway.

Standard Condition: E7

E.7 Maintenance of Environmental Controls

The *principal contractor* or *owner builder* must ensure that the following monitoring, measures and controls are maintained:

- a) Erosion and sediment controls,
- b) Dust controls,
- c) Dewatering discharges,
- d) Noise controls,
- e) Vibration monitoring and controls, and
- f) Ablutions.

Note: See http://www.epa.nsw.gov.au/small_business/builders.htm for additional information.
Standard Condition: E11

E.8 Support of adjoining land and buildings

A person must not do anything on or in relation to the *site* (the supporting land) that removes the support provided by the supporting land to any other land (the supported land) or building (the supported building).

For the purposes of this condition, supporting land includes the natural surface of the site, the subsoil of the site, any water beneath the site, and any part of the site that has been reclaimed.

Note: This condition does not authorise any trespass or encroachment upon any adjoining or supported land or building whether private or public. Where any underpinning, shoring, soil anchoring (temporary or permanent) or the like is considered necessary upon any adjoining or supported land by any person the *principal contractor* or *owner builder* must obtain:

- a. the consent of the owners of such adjoining or supported land to trespass or encroach, or
- b. an access order under the Access to Neighbouring Land Act 2000, or
- c. an easement under section 88K of the *Conveyancing Act 1919*, or
- d. an easement under section 40 of the *Land & Environment Court Act 1979* as appropriate.

Note: Section 177 of the *Conveyancing Act 1919* creates a statutory duty of care in relation to support of land. Accordingly, a person has a duty of care not to do anything on or in relation to land being developed (the supporting land) that removes the support provided by the supporting land to any other adjoining land (the supported land).

Note: Clause 20 of the *Roads (General) Regulation 2000* prohibits excavation in the vicinity of roads as follows: “**Excavations adjacent to road** - A person must not excavate land in the vicinity of a road if the excavation is capable of causing damage to the road (such as by way of subsidence) or to any work or structure on the road.” Separate approval is required under the Roads Act 1993 for any underpinning, shoring, soil anchoring (temporary) or the like within or under any road. Council will not give approval to permanent underpinning, shoring, soil anchoring within or under any road.

Note: The encroachment of work or the like is a civil matter of trespass or encroachment and Council does not adjudicate or regulate such trespasses or encroachments except in relation to encroachments upon any road, public place, crown land under Council’s care control or management, or any community or operational land as defined by the *Local Government Act 1993*.

Standard Condition: E13

E.9 Erosion and Sediment Controls – Maintenance

The *principal contractor* or *owner builder* must maintain water pollution, erosion and sedimentation controls in accordance with:

- a) The Soil and Water Management Plan required under this consent;
- b) “*Do it Right On Site, Soil and Water Management for the Construction Industry*” published by the Southern Sydney Regional Organisation of Councils, 2001; and
- c) “*Managing Urban Stormwater - Soils and Construction*” published by the NSW Department of Housing 4th Edition (“*The Blue Book*”).

Where there is any conflict *The Blue Book* takes precedence.

Note: A failure to comply with this condition may result in penalty infringement notices, prosecution, notices and orders under the Act and/or the Protection of the Environment Operations Act 1997 without any further warning. It is a criminal offence to cause, permit or allow pollution.

Note: Section 257 of the Protection of the Environment Operations Act 1997 provides that “the occupier of premises at or from which any pollution occurs is taken to have caused the pollution”.

Warning: Irrespective of this condition any person occupying the site may be subject to proceedings under the Protection of the Environment Operations Act 1997 where pollution is caused, permitted or allowed as the result of the occupation of the land being developed whether or not they actually cause the pollution.

Standard Condition: E15

E.10 Disposal of site water during construction

The principal contractor or owner builder must ensure:

- a) Prior to pumping any water into the road or public stormwater system that approval is obtained from *Council* under section 138(1)(d) of the *Roads Act 1993*;
- b) That *water pollution*, as defined by the *Protection of the Environment Operations Act 1997*, does not occur as the result of the discharge to the road, public stormwater system or other place or any site water;
- c) That stormwater from any roof or other impervious areas is linked, via temporary downpipes and stormwater pipes, to a Council approved stormwater disposal system immediately upon completion of the roof installation or work creating other impervious areas.

Note: This condition has been imposed to ensure that adjoining and neighbouring land is not adversely affected by unreasonable overland flows of stormwater and that site water does not concentrate water such that they cause erosion and water pollution.

Standard Condition: E17

E.11 Check Surveys - boundary location, building location, building height, stormwater drainage system and flood protection measures relative to Australian Height Datum

The *Principal Contractor* or *Owner Builder* must ensure that a surveyor registered under the *Surveying Act 2002* carries out check surveys and provides survey certificates confirming the location of the building(s), ancillary works, flood protection works and the stormwater drainage system relative to the boundaries of the *site* and that the height of buildings, ancillary works, flood protection works and the stormwater drainage system relative to Australian Height Datum complies with this consent at the following critical stages.

The *Principal Contractor* or *Owner Builder* must ensure that work must not proceed beyond each of the following critical stages until compliance has been demonstrated to the *PCA*'s satisfaction:

- a) Upon the completion of foundation walls prior to the laying of any floor or the pouring of any floor slab and generally at damp proof course level;
- b) Upon the completion of formwork for floor slabs prior to the laying of any floor or the pouring of any concrete and generally at each storey;
- c) Upon the completion of formwork or framework for the roof(s) prior to the laying of any roofing or the pouring of any concrete roof;
- d) Upon the completion of formwork and steel fixing prior to pouring of any concrete for any ancillary structure, flood protection work, swimming pool or spa pool or the like;
- e) Upon the completion of formwork and steel fixing prior to pouring of any concrete for driveways showing transitions and crest thresholds confirming that driveway levels match Council approved driveway crossing levels and minimum flood levels.;
- f) Stormwater Drainage Systems prior to back filling over pipes confirming location, height and capacity of works.
- g) Flood protection measures are in place confirming location, height and capacity.

Note: This condition has been imposed to ensure that development occurs in the location and at the height approved under this consent. This is critical to ensure that buildings are constructed to minimum heights for flood protection and maximum heights to protect views and the amenity of neighbours.
Standard Condition: E20

E.12 Placement and use of Skip Bins

The *principal contractor* or *owner builder* must ensure that all waste storage containers, including but not limited to skip bins, must be stored within the site unless:

- a) Activity Approval has been issued by Council under section 94 of the *Local Government Act 1993* to place the waste storage container in a public place, and
- b) Where located on the road it is located only in a position where a vehicle may lawfully park in accordance with the Australian Road Rules to the extent they are adopted under the *Road Transport (Safety and Traffic Management) (Road Rules) Regulation 1999*.

Note: Waste storage containers must not be located on the footpath without a site specific activity approval. Where such site specific activity approval is granted a 1.5m wide clear path of travel is maintained free of any trip hazards.
Standard Condition: E21

E.13 Prohibition of burning

There must be no burning of any waste or other materials. The burning of CCA (copper chrome arsenate) or PCP (pentachlorophenol) treated timber is prohibited in all parts of NSW.

All burning is prohibited in the Woollahra local government area.

Note: Pursuant to the *Protection of the Environment Operations (Control of Burning) Regulation 2000* all burning (including burning of vegetation and domestic waste) is prohibited except with approval. No approval is granted under this consent for any burning.
Standard Condition: E22

E.14 Dust Mitigation

Dust mitigation must be implemented in accordance with “*Dust Control - Do it right on site*” published by the Southern Sydney Regional Organisation of Councils.

This generally requires:

- a) Dust screens to all hoardings and site fences.
- b) All stockpiles or loose materials to be covered when not being used.
- c) All equipment, where capable, being fitted with dust catchers.
- d) All loose materials being placed bags before placing into waste or skip bins.
- e) All waste and skip bins being kept covered when not being filled or emptied.
- f) The surface of excavation work being kept wet to minimise dust.
- g) Landscaping incorporating trees, dense shrubs and grass being implemented as soon as practically possible to minimise dust.

Note: “Dust Control - Do it right on site” can be down loaded free of charge from Council’s web site www.woollahra.nsw.gov.au or obtained from Council’s office.

Note: Special precautions must be taken when removing asbestos or lead materials from development sites. Additional information can be obtained from www.workcover.nsw.gov.au and www.epa.nsw.gov.au. Other specific condition and advice may apply.

Note: Demolition and construction activities may affect local air quality and contribute to urban air pollution. The causes are dust, smoke and fumes coming from equipment or activities, and airborne chemicals when spraying for pest management. Precautions must be taken to prevent air pollution.
Standard Condition: E23

E.15 Site waste minimisation and management – Demolition

In order to maximise resource recovery and minimise residual waste from demolition activities:

- a) The provisions of the Site Waste Minimisation and Management Plan (SWMMP) are to be implemented at all times during the course of the work
- b) An area is to be allocated for the storage of materials for use, recycling and disposal (giving consideration to slope, drainage, location of waterways, stormwater outlets, vegetation and access and handling requirements)
- c) Provide separate collection bins and/or areas for the storage of residual waste
- d) Clearly ‘signpost’ the purpose and content of the bins and/or storage areas
- e) Implement measures to prevent damage by the elements, odour, health risks and windborne litter
- f) Minimise site disturbance, limiting unnecessary excavation

When implementing the SWMMP the applicant must ensure:

- a) Footpaths, public reserves and street gutters are not used as places to store demolition waste or materials of any kind without Council approval
- b) Any material moved offsite is transported in accordance with the requirements of the *Protection of the Environment Operations Act (1997)*
- c) Waste is only transported to a place that can lawfully be used as a waste facility
- d) Generation, storage, treatment and disposal of hazardous waste and special waste (including asbestos) is conducted in accordance with relevant waste legislation administered by the EPA and relevant Occupational Health and Safety legislation administered by Workcover NSW
- e) Evidence such as weighbridge dockets and invoices for waste disposal or recycling services are retained

Note: Materials that have an existing reuse or recycling market should not be disposed of in a landfill. Reuse and recycling opportunities are decreased when asbestos is not carefully removed and segregated from other waste streams.
Standard Condition: E31

E.16 Site waste minimisation and management – Construction

In order to maximise resource recovery and minimise residual waste from construction activities:

- a) The provisions of the Site Waste Minimisation and Management Plan (SWMMP) are to be implemented at all times during the course of the work
- b) Arrange for the delivery of materials so that materials are delivered 'as needed' to prevent the degradation of materials through weathering and moisture damage
- c) Consider organising to return excess materials to the supplier or manufacturer
- d) Allocate an area for the storage of materials for use, recycling and disposal (considering slope, drainage, location of waterways, stormwater outlets and vegetation)
- e) Clearly 'signpost' the purpose and content of the storage areas
- f) Arrange contractors for the transport, processing and disposal of waste and recycling. Ensure that all contractors are aware of the legal requirements for disposing of waste.
- g) Promote separate collection bins or areas for the storage of residual waste
- h) implement measures to prevent damage by the elements, odour and health risks, and windborne litter
- i) Minimise site disturbance and limit unnecessary excavation
- j) Ensure that all waste is transported to a place that can lawfully be used as a waste facility
- k) Retain all records demonstrating lawful disposal of waste and keep them readily accessible for inspection by regulatory authorities such as council, Department of Environment and Climate Change (DECC) or WorkCover NSW

Standard Condition: E32

E.17 Asbestos Removal

Where hazardous material, including bonded or friable asbestos has been identified in accordance with condition B.2 above, and such material must be demolished, disturbed and subsequently removed, all such works must comply with the following criteria:

- be undertaken by contractors who hold a current WorkCover Asbestos or "Demolition Licence" and a current WorkCover "Class 2 (restricted) Asbestos License,
- carried out in accordance with National Occupational Health and Safety Commission (NOHSC): "*Code of Practice for the Safe Removal of Asbestos*",
- No asbestos products may be reused on the site
- No asbestos laden skip or bins shall be left in any public place

Note: This condition is imposed to protect the health and safety of persons working on the site and the public

Standard Condition: E39

E.18 Classification of Hazardous Waste

Prior to the exportation of hazardous waste (including hazardous fill or soil) from the site, the waste materials must be classified in accordance with the provision of the *Protection of the Environment Operations Act 1997* and the NSW DECC *Waste Classification Guidelines, Part I: Classifying Waste* (April 2008).

Note: This condition is imposed to ensure that where hazardous waste will be removed from a site an Asbestos Licensed contractor can definitively determine where the waste may be legally taken for disposal.

Standard Condition: E40

E.19 Disposal of Asbestos and Hazardous Waste

Asbestos and hazardous waste, once classified in accordance with condition E.18 above must only be transported to waste facilities licensed to accept asbestos and appropriate classifications of hazardous waste.

Note: This condition is imposed to ensure that asbestos and other Hazardous waste is disposed of lawfully under the Protection of the Environment Operations Act 1997 and relevant EPA requirements.
Standard Condition: E41

E.20 Asbestos Removal Signage

Standard commercially manufactured signs containing the words "DANGER ASBESTOS REMOVAL IN PROGRESS" measuring not less than 400mm x 300mm are to be erected in prominent visible positions on the site when asbestos is being removed.

Note: This condition is imposed to ensure awareness of any hazard to the health and safety of persons working on the site and public.
Standard Condition: E42

E.21 Notification of Asbestos Removal

All adjoining properties and those opposite the development site must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification is to identify the licensed asbestos removal contractor and include a contact person for the site together with telephone and facsimile numbers and email addresses.

Note: This condition has been imposed to ensure that local residents are informed and have adequate communication facilitated for incidents of asbestos removal.
Standard Condition: E43

F. Conditions which must be satisfied prior to any occupation or use of the building (Part 4A of the Act and Part 8 Division 3 of the Regulation)

F.1 Occupation Certificate (section 109M of the Act)

A person must not commence occupation or use of the whole or any part of a new building (within the meaning of section 109H (4) of the *Act*) unless an occupation certificate has been issued in relation to the building or part.

Note: New building includes an altered portion of, or an extension to, an existing building.
Standard Condition: F1

F.2 Change of building use of existing building requires occupation certificate (section 109N of the Act)

A person must not effect a change of building use for the whole or any part of an existing building unless an occupation certificate has been issued in relation to the building or part.
Standard Condition: F2

F.3 Fire Safety Certificates

In the case of a *final occupation certificate* to authorise a person:

- a) to commence occupation or use of a *new building*, or
- b) to commence a change of building use for an existing building,

a *certifying authority* must be satisfied that a final fire safety certificate has been issued for the building.

In the case of an *interim occupation certificate* to authorise a person:

- a) to commence occupation or use of a partially completed *new building*, or
- b) to commence a change of building use for part of an existing building,

a *certifying authority* must be satisfied that a final fire safety certificate or an interim fire safety certificate has been issued for the relevant part of the building.

Note: This condition does not apply to a class 1a or class 10 building within the meaning of clause 167 of the Regulation.

Note: In this condition:

interim fire safety certificate has the same meaning as it has in Part 9 of the Regulation.

final fire safety certificate has the same meaning as it has in Part 9 of the Regulation.

new building has the same meaning as it has in section 109H of the Act.

Standard Condition: F4

G. Conditions which must be satisfied prior to the issue of any Subdivision Certificate

N/A

H. Conditions which must be satisfied prior to the issue of a Final Occupation Certificate (s109C(1)(c))

H.1 Removal of Ancillary Works and Structures

The *principal contractor* or *owner* must remove from the land and any adjoining public place:

- a) The site sign;
- b) Ablutions;
- c) Hoarding;
- d) Scaffolding; and
- e) Waste materials, matter, article or thing.

Note: This condition has been imposed to ensure that all ancillary matter is removed prior to the issue of the *Final Occupation Certificate*.

Standard Condition: H12

I. Conditions which must be satisfied during the ongoing use of the development

I.1 Deliveries, loading, unloading and servicing

Deliveries, loading, unloading and servicing must occur on-site in the parking area at the rear of the existing buildings. Surrounding streets and lanes are not to be used for deliveries, loading, unloading and servicing. Deliveries, loading, unloading and servicing is not to take place outside the hours of 10.00am and 6.00pm. This condition is imposed to protect the amenity of the occupants of surrounding residential properties.

I.2 Trading hours

Trading hours are limited to:

- a) Monday to Sunday: 10.00am – 6.00pm.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood by commercial or retail trading including, but not limited to, external impacts associated with clients attending the site for business or otherwise.

Note: This condition does not apply to deliveries to, or dispatches from, the site of wholesale goods or internal activities that occur under the approved trading hours. General use and deliveries or dispatches may be restricted by trading hours conditions. This condition does not restrict the operation of noise pollution laws.

Standard Condition: I2

I.3 Garbage Collection

The on-site garbage area must be maintained at all times to ensure that a breeding ground is not created for pests and must be capable of being easily and effectively cleaned.

All garbage containers must have tight fitting lids and be large enough or in sufficient numbers to contain all the waste produced by the business while awaiting the next removal from the premises.

This condition has been imposed to mitigate amenity impacts upon the neighbourhood.

Standard Condition: I16

I.4 Provision of Off street commercial vehicle facilities

The occupier, in compliance with AS 2890.2-2002: Parking facilities - Off-street commercial vehicle facilities, must maintain unimpeded access to off-street parking as follows:

Use	Number of spaces
18 Glenmore Road, Paddington	1
18A Glenmore Road, Paddington	1

All deliveries to and dispatch from the site, excluding retail sales, must occur on-site at the rear of the site and within the commercial vehicle parking facilities required to be maintained by this condition.

This condition has been imposed to ensure that commercial vehicles utilise loading facilities on-site to reduce parking impacts upon the neighbourhood.

Standard Condition: I23

I.5 Annual Fire Safety Statements (Class 1b to 9c buildings inclusive)

Each year, the owner of a building to which an *essential fire safety measure* is applicable must provide an *annual fire safety statement* to *Council* and the Commissioner of the NSW Fire Brigades. The *annual fire safety statement* must be prominently displayed in the building.

Note: *Essential fire safety* measure has the same meaning as in clause 165 of the *Regulation*. *Annual fire safety statement* has the same meaning as in clause 175 of the *Regulation*. Part 9 Division 5 of the *Regulation* applies in addition to this condition at the date of this consent. Visit Council's web site for additional information in relation to fire safety www.woollahra.nsw.gov.au.
Standard Condition: I22

I.6 Noise Control

The use of the premises must not give rise to the transmission of *offensive noise* to any place of different occupancy. *Offensive noise* is defined in the *Protection of the Environment Operations Act 1997*.

This condition has been imposed to protect the amenity of the neighbourhood.

Note: Council will generally enforce this condition in accordance with the *Noise Guide for Local Government* (<http://www.environment.nsw.gov.au/noise/nglg.htm>) and the *Industrial Noise Guidelines* (<http://www.environment.nsw.gov.au/noise/industrial.htm>) published by the Department of Environment and Conservation. Other state government authorities also regulate the *Protection of the Environment Operations Act 1997*.

Standard Condition: I56

J. Miscellaneous Conditions

N/A

K. Advisings

K.1 Criminal Offences – Breach of Development Consent & Environmental laws

Failure to comply with this development consent and any condition of this consent is a **criminal offence**. Failure to comply with other environmental laws is also a criminal offence.

Where there is any breach Council may without any further warning:

- a) Issue Penalty Infringement Notices (On-the-spot fines);
- b) Issue notices and orders;
- c) Prosecute any person breaching this consent; and/or
- d) Seek injunctions/orders before the courts to restrain and remedy any breach.

Warnings as to potential maximum penalties

Maximum Penalties under NSW Environmental Laws include fines up to \$1.1 Million and/or custodial sentences for serious offences.

Warning as to enforcement and legal costs

Should Council have to take any action to enforced compliance with this consent or other environmental laws Council's policy is to seek from the Court appropriate orders requiring the payments of its costs beyond any penalty or remedy the Court may order. This consent and this specific advice will be tendered to the Court when seeking costs orders from the Court where Council is successful in any necessary enforcement action.

Note: The payment of environmental penalty infringement notices does not result in any criminal offence being recorded. If a penalty infringement notice is challenged in Court and the person is found guilty of the offence by the Court, subject to section 10 of *the Crimes (Sentencing Procedure) Act 1999*, a criminal conviction is recorded. The effect of a criminal conviction beyond any fine is serious. You can obtain further information from the following web sites:

<http://www.theshopfront.org/documents/ConvictionsCriminalRecords.pdf> and the Attorney

General's www.agd.nsw.gov.au.

Standard Advising: K1

K.2 Dial before you dig

The *principal contractor*, *owner builder* or any person digging may be held financially responsible by the asset owner should they damage underground pipe or cable networks. Minimise your risk and Dial 1100 Before You Dig or visit www.dialbeforeyoudig.com.au.

When you contact Dial Before You Dig, you will be sent details of all Dial Before You Dig members who have underground assets in the vicinity of your proposed excavation.

Standard Advising: K2

K.3 Builders Licences and Owner Builders Permits

Section 81A of the *Act* requires among other matters that the person having the benefit of the development consent, if not carrying out the work as an **owner-builder**, must appointed a *principal contractor* for residential building work who must be the holder of a contractor licence.

Further information can be obtained from the NSW Office of Fair Trading website about how you obtain an owner builders permit or find a principal contractor (builder):

<http://www.dft.nsw.gov.au/building.html> .

The Owner(s) must appoint the PCA. The PCA must check that Home Building Act insurance is in place before the commencement of building work. The Principal Contractor (Builder) must provide the Owners with a certificate of insurance evidencing the contract of insurance under the Home Building Act 1989 for the residential building work.

Standard Condition: K5

K.4 Building Standards - Guide to Standards and Tolerances

The PCA does not undertake detailed quality control inspections and the role of the PCA is primarily to ensure that the development proceeds in accordance with this consent, Construction Certificates and that the development is fit for occupation in accordance with its classification under the Building Code of Australia. Critical Stage Inspections do not provide the level of supervision required to ensure that the minimum standards and tolerances specified by the “Guide to Standards and Tolerances©” ISBN 0 7347 6010 8 are achieved.

The quality of any development is a function of the quality of the *principal contractor’s* or *owner builder’s* supervision of individual contractors and trades on a daily basis during the development. The PCA does not undertake this role.

The NSW Office of Fair Trading have published a “Guide to Standards and Tolerances©” ISBN 0 7347 6010 8. The guide can be obtained from the Office of Fair Trading by calling 13 32 20 or by Fax: 9619 8618 or by post to: Marketing Branch, PO Box 972, Parramatta NSW 2124.

The Guide can be down loaded from:

<http://www.fairtrading.nsw.gov.au/pdfs/corporate/publications/dft242.pdf>

Council, as the PCA or otherwise, does not adjudicate building contract disputes between the *principal contractor*, contractors and the owner.

Standard Condition: K6

K.5 Workcover requirements

The *Occupational Health and Safety Act 2000 No 40* and subordinate regulations, codes of practice and guidelines control and regulate the development industry.

Note: Further information can be obtained from Workcover NSW’s website:

<http://www.workcover.nsw.gov.au/Industry/Construction/default.htm> or through their head office: Location: Workcover NSW, 92-100 Donnison Street, GOSFORD 2250 Postal address: WorkCover NSW, Locked Bag 2906, LISAROW 2252, Phone (02) 4321 5000, Fax (02) 4325 4145.

Standard Condition: K7

K.6 Dividing Fences

The erection of dividing fences under this consent does not affect the provisions of the *Dividing Fences Act 1991*. Council does not adjudicate civil disputes relating to the provision of, or payment for, the erection of dividing fences.

Note: Further information can be obtained from the NSW Department of Lands -

<http://www.lands.nsw.gov.au/LandManagement/Dividing+Fences.htm>. Community Justice Centres provide a free mediation service to the community to help people resolve a wide range of disputes, including dividing fences matters. Their service is free, confidential, voluntary, timely and easy to use. Mediation sessions are conducted by two impartial, trained mediators who help people work together to reach an agreement. Over 85% of mediations result in an agreement being reached. Mediation sessions can be arranged at convenient times during the day, evening or weekends. Contact the Community Justice Centre either by phone on 1800 671 964 or at <http://www.cjc.nsw.gov.au/>.

Standard Advising: K10

K.7 Appeal

Council is always prepared to discuss its decisions and, in this regard, please do not hesitate to contact Mr. A Gilderdale, Assessment Officer, on (02) 9391–7063.

However, if you wish to pursue your rights of appeal in the Land & Environment Court you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, site hearings and the use of Court Appointed Experts, instead of a full Court hearing.

This approach is less adversarial, it achieves a quicker decision than would be the case through a full Court hearing and it can give rise to considerable cost and time savings for all parties involved. The use of the Section 34 Conference approach requires the appellant to agree, in writing, to the Court appointed commissioner having the full authority to completely determine the matter at the conference.

Standard Condition: K14

K.8 Release of Security

An application must be made to Council by the person who paid the security for release of the securities held under section 80A of the *Act*.

The securities will not be released until a *Final Occupation Certificate* has lodged with Council, Council has inspected the site and Council is satisfied that the public works have been carried out to Council's requirements. Council may use part or all of the security to complete the works to its satisfaction if the works do not meet Council's requirements.

Council will only release the security upon being satisfied that all damage or all works, the purpose for which the security has been held have been remedied or completed to Council's satisfaction as the case may be.

Council may retain a portion of the security to remedy any defects in any such public work that arise within 6 months after the work is completed.

Upon completion of each section of road, drainage and landscape work to Council's satisfaction, 90% of the Bond monies held by Council for these works will be released upon application. 10% may be retained by Council for a further 6 month period and may be used by Council to repair or rectify any defects or temporary works during the 6 month period.

Note: The Application for Refund of Security form can be downloaded from

<http://www.woollahra.nsw.gov.au/pdf/Forms/Planning/RefundofSecurity.pdf>

Standard Condition: K15

K.9 Recycling of Demolition and Building Material

It is estimated that building waste, including disposable materials, resulting from demolition, excavation, construction and renovation, accounts for almost 70% of landfill. Such waste is also a problem in the generation of dust and the pollution of stormwater. Council encourages the recycling of demolition and building materials.

Standard Condition: K17

K.10 Owner Builders

Under the *Home Building Act 1989* any property owner who intends undertaking construction work to a dwelling house or dual occupancy to the value of \$12,000 or over must complete an approved education course and obtain an owner-builder permit from the Office of Fair Trading. See www.fairtrading.nsw.gov.au.

Standard Condition: K18

K.11 Pruning or Removing a Tree Growing on Private Property

Woollahra Municipal Council's *Tree Preservation Order 2006* (TPO) may require that an application be made to Council prior to pruning or removing any tree. The aim is to secure the amenity of trees and preserve the existing landscape within our urban environment.

Before you prune or remove a tree, make sure you read all relevant conditions. You can obtain a copy of the TPO from Council's website www.woollahra.nsw.gov.au or you may contact Council on 9391-7000 for further advice.

Standard Condition: K19

Note: In accordance with section 375A of the Local Government Act a Division of votes is recorded on this planning matter.

For the Recommendation

Councillor Bennett
Councillor Marano
Councillor Wise
Councillor Zeltzer

Against the Recommendation

Councillor Elsing
Councillor Levenston

4/2

There being no further business the meeting concluded at 9.30pm.
