

Council Meeting

Public Forum Registration
(Matters not listed on the Agenda)

Expiry date: 30 June 2023

About this form

1. This form is to be used to request to address Council via the Public Forum (matters **not** on the Council Agenda).

Public Forums (on matters not on the Council Agenda) at Council meetings provide an open and friendly opportunity for members of the community to bring matters to the attention of the Council that may not otherwise be considered. Why we **restrict** some matters that can be addressed during the public forum. The following matters **cannot** form part of any Public Forum at a Council meeting:

- **Applications already lodged with Council for decision:**

Council has in place a decision-making process which has checks, balances and safeguards. This process has been in place for some considerable time and provides procedural fairness and an opportunity for all interested parties to have their say and to hear what others have to say. The committee meetings are the appropriate place to make submissions.

- **Criticism or complaints about councillors or staff:**

The code of conduct and our complaints policy provides a mechanism for dealing with such matters. The code and procedures are designed to ensure that issues are thoroughly considered and measured against the high standards of behaviour we expect of Councillors and staff. Criticism and complaints about individuals made impinge upon their reputation. An unsubstantiated claim may damage reputations and the Council meeting is not a proper forum to make such claims or to allow individuals to respond to such issues.

2. This form must be completed and submitted to Council by **10.00am on the day of the Council Meeting**.
3. Please submit your completed form to Council's Governance Department by delivering it to Customer Services or by email to records@woollahra.nsw.gov.au
4. Further information in relation to public forums is available on Council's website at woollahra.nsw.gov.au/council/meetings_and_committees/having_your_say_at_meetings.
