

Environmental Grants 2025/26

Organisation	Project Description	Amount Granted
Paddington Community Garden Inc	Plan Bee Goes Wild The garden will install two native stingless bee hives to enhance pollination, support biodiversity, and promote sustainable practices.	\$2,170
Paddington Business Partnership Inc	Paddington Sustainability Week 2026 The Sustainability Week will celebrate the commitment of local businesses to the environment and greener operations, featuring an energy saving workshop and sustainable fashion panel evening.	\$5,250
Rose Bay Community Garden Inc	Plotting ahead - rebuilding the foundations of our garden Stage 2 The project will ensure the garden provides well-built infrastructure to support improved accessibility, maximum soil capacity for growing and a beautiful space.	\$7,500
Cranbrook Junior School	Cranbrook School Native Garden Expansion Project The project will enhance the natural environment by planting a curated selection of native flora. This will create habitat for native birds and insects and provide education opportunities for students.	\$3,000
SDN Paddington Early Learning Centre	Early Childhood Vegetable patch and Garden We will replenish the greenery and plants following works on a retaining wall. The project will grow herbs and flowers that are available to the children.	\$2,095
Sydney Metropolitan Wildlife Services Incorporated (Sydney Wildlife Rescue)	The Secret Life of Powerful Owls: Hollow Camera Monitoring Project This project aims to monitor Powerful Owls through their breeding season via remote camera and educate the community via talks including wildlife friendly gardens to improve citizen science monitoring and knowledge.	\$3,334
Cooper Park Community Garden Inc	Garden Plot Raising - Final Stage This project completes the garden bed rejuvenation and maintains the community garden as an excellent education and engagement resource. The bed upgrades help to improve accessibility at the garden.	\$7,500
Emanuel Synagogue	The Tikkun Garden at the Emanuel Synagogue This garden is a community driven habitat restoration and education initiative that will establish a native pollinator garden and actively engage hundreds of Woollahra residents in planting and citizen science.	\$6,997
South Head Anglican Church	Vintage Clothing & Book Fair We aim to enhance the environmental impact and community outreach of our annual Vintage Fair. This event promotes sustainable fashion and waste reduction through the sale of pre-loved clothing and books.	\$1,350
Vaucluse Public School P&C	Renewal of the Stephanie Alexander Kitchen Garden and Native Bush Tucker Garden The project will renew these two key garden areas in the school by planting more native species, adding an irrigation system, improving accessibility and biodiversity	\$3,304
Glenmore Road Public School P&C	Installation of 15.8kW solar PV system The school will install 15.8kW of solar power on the library roof to deliver clean, green energy to our facility.	\$7,500
