

18 Footers League Sailing Club has installed an impressive 75kW of solar power on the rooftop now powering its facilities with clean green energy. The project was fully funded by the club to help work towards their long term sustainability goals.

Annually, it's estimated the system will:

Save **\$22K** on facility's energy bill

Produce enough power equal to running **17 homes**

Reduce carbon emissions by **90 tonnes**

Equivalent to taking **32 cars** off the road

Solar snapshot

Location:	Double Bay
Size of system:	75kW
Estimated bill savings:	\$22K each year
Estimated energy savings:	101 MWh / yr
Simple payback:	6 years

What is Solar my Suburb?

Solar my Suburb is a free Council program to help community organisations in Sydney's Eastern Suburbs navigate a path to solar success.

"Sourcing a 75kW solar system for a commercial building was somewhat daunting, however, the Solar my Suburb team made the whole process easy to understand and through their support gave us confidence that we were getting the right solution for the 18 Footers League. A big thank you for all your help."

Warren Sare, CEO
